A. Program Description

Authority:

The Coastal Wetlands Planning, Protection, and Restoration Act (Title III, Section 301, Public Law 101-646, 16 U.S.C. 3951-3956) established the National Coastal Wetlands Conservation Grant (NCWCG) Program. The Infrastructure Investment and Jobs Act of 2021 (Public Law 117-58) authorizes funding for the NCWCG Program through Fiscal Year 2026.

Assistance Listing Number:

15.614

Background, Purpose and Program Requirements:

References to “you” in this announcement refer to the eligible State, Commonwealth, or Territory (State) agency completing the application and any potential subrecipient, if applicable. References to “we” or “us” in this announcement refer to the U.S. Fish and Wildlife Service (Service).

The Coastal Wetlands Planning, Protection, and Restoration Act (Title III, Section 301, Public Law 101-646, 16 U.S.C. 3951-3956) (Act) established the National Coastal Wetlands Conservation Grant (NCWCG) Program to acquire, restore, and enhance wetlands in coastal areas through competitive matching grants to eligible State agencies. The NCWCG Program is funded by revenues collected from excise taxes on sport fishing equipment, electric motors and sonar, import duties on fishing tackle, yachts and pleasure craft, and a portion of the gasoline tax attributable to motorboats and small engines. Revenues are deposited into and appropriated from the Sport Fish Restoration and Boating Trust Fund. The primary goal of the NCWCG Program is the long-term conservation of coastal wetland ecosystems. The Infrastructure Investment and Jobs Act of 2021 (Public Law 117-58) authorizes funding for the NCWCG Program through Fiscal Year 2026.

Coastal wetlands are valued because they protect against flooding, help maintain water quality, and provide habitat for fish and wildlife. Coastal environments are also important economically, generating billions of dollars annually through recreational and commercial fishing, boating, and tourism. The NCWCG Program is co-administered by the Service’s Coastal Program and by the Wildlife and Sport Fish Restoration Program (WSFR). The mission of the Coastal Program is to achieve voluntary habitat conservation by providing technical and financial assistance, in collaboration with partners, for the benefit of Federal trust species. WSFR’s mission is to work through partnerships to conserve and manage fish and wildlife and their habitats for the use and enjoyment of current and future generations. WSFR’s vision is of healthy, diverse, and accessible fish and wildlife populations that offer recreation, economic activity, and other societal benefits, in addition to sustainable ecological functions. WSFR’s guiding principle is that society benefits from conservation-based management of fish and wildlife and their habitats and opportunities to use and enjoy them. The NCWCG Program aligns with the Coastal Program’s mission and with WSFR’s mission, vision, and guiding principle.

The NCWCG Program also supports two of the Administration's priorities including improving climate change adaptation and increasing resilience (through habitat restoration, land acquisition, and other actions) and strengthening the economy (by supporting outdoor recreation activities). Many of the projects conducted under the NCWCG Program directly or indirectly support Executive Order 14008: *Tackling the Climate Crisis at Home and Abroad*.

The Final Rule establishing the requirements for participation in the NCWCG Program was published in the Federal Register on July 30, 2002 ([67 Federal Register \(FR\) 49264](#)). The Program regulations are in [Title 50 of the Code of Federal Regulations \(CFR\), Part 84](#). Additional information about the NCWCG Program is available [here](#).

The NCWCG Program provides eligible State agencies with grants for projects that protect and restore valuable coastal wetland resources. Projects can include:

1. Acquisition of a real property interest (e.g., conservation easement or fee title) in coastal lands or waters (coastal wetlands ecosystems) from willing sellers or partners for long-term conservation;
2. Restoration, enhancement, or management of coastal wetlands ecosystems; or
3. A combination of acquisition, restoration, enhancement, and management.

All projects must ensure long-term conservation (at least 20 years) of coastal wetland resources. We score and rank applications based on criteria published in [50 CFR 84.32](#). See Section E. Application Review Information of this announcement for a summary of the ranking criteria.

Projects to create wetlands where wetlands did not previously exist are ineligible for NCWCG Program funding ([50 CFR 84.20\(b\)\(3\)](#)). For each project site, we require evidence verifying the current or historic presence of a wetland. This may include information from the Service's [National Wetlands Inventory](#), earlier Geographic Information System data, or historic information.

Projects to acquire and/or restore upper portions of watersheds where benefits to the coastal wetlands ecosystem are not significant and direct are also ineligible for NCWCG Program funding ([50 CFR 84.20\(b\)\(8\)](#)). A proposal must include sufficient information demonstrating that targeted lands or waters meet the definition of a coastal wetland ecosystem ([50 CFR 84.11](#)).

Wildlife TRACS (Tracking and Reporting Actions for the Conservation of Species) is the tracking and reporting system used by WSFR to capture information about conservation and related actions funded by its grant programs. TRACS serves as the electronic repository system for all performance, accomplishment, and real property reporting related to those Federal awards. TRACS highlights program accountability by documenting program accomplishments and results. As outlined in this announcement, grant and project statement information and performance reporting data must be entered into TRACS as authorized under [2 CFR 200.102\(c\)](#), [200.202](#), [200.301](#), and [200.329](#).

Please note: we **strongly** encourage you to reach out to your [WSFR Regional Office point of contact](#) prior to the deadline for any clarifications on applicant eligibility, allowable costs, or other questions you may have about information in this announcement. For Regional Coastal

Program staff contact information, please call or email the national program leads (see Section G. Federal Awarding Agency Contacts). WSFR and Coastal Program staff are available to help you prepare an application for Program funding, including but not limited to a pre-deadline review that may help you identify potentially disqualifying errors or omissions in your application.

Changes from the FY 2023 Funding Opportunity Announcement (FOA) include:

1. Modified the waiver of cost share based on a policy advisory notice to clarify that the Service's Regional Directors shall waive cost sharing requirements described in this announcement in any grant to the Commonwealth of the Northern Mariana Islands and the Territories of American Samoa, Guam, or the U.S. Virgin Islands

Removed the requirement to submit the Assurances forms SF-424B and SF-424D (D2);

Refined budget narrative requirements for contracts and subawards, added information for applicants on the DOI-approved UAS, and removed DUNS transition language (D3);

Clarified CESU indirect cost cap statement and added conditions for projects involving construction or real property acquisition (D6);

Added notice of pre-award budget review (E2); and

Removed data availability content and updated Buy America provision for infrastructure projects (F2).

Attachment A - Frequently Asked Questions and Clarification of Select Ranking Criteria

The purpose of this attachment is to provide clarification of certain criteria in [50 CFR 84](#) and to answer frequently asked questions. General questions and answers are listed first, followed by questions and answers specific to the ranking criteria.

Are lands proposed for match purposes used in calculating points for ranking criteria?

Yes. Because lands that are used for match purposes are part of the project area, reviewers consider both lands being proposed for acquisition/restoration with grant funds and lands proposed for contribution as match when assigning points for ranking criteria. Therefore, information on both parcels proposed for acquisition/restoration and match parcels should be described in adequate detail for each ranking criterion so reviewers can make informed scoring decisions.

Does land used for all of or part of the non-Federal cost share need to be necessary and reasonable?

Yes. All non-Federal cost share must be necessary and reasonable to achieving project objectives, land acquisition included. Please explain how the match parcel(s) relate to the overall project and provide detailed information about the match parcel for all ranking criteria.

If a project includes a conservation easement, what information about the conservation easement is helpful for reviewers?

You should describe the general terms of the conservation easement, including the length of the

conservation easement, who will hold it, allowable and prohibited uses, and plans for long-term monitoring and stewardship of the easement. This information helps reviewers understand the conservation benefit(s) of the conservation easement.

Who holds title to land acquired under this program or contributed as match?

Title to real property acquired or contributed as match will vest upon acquisition in the grantee or subrecipient, respectively, as directed by [2 CFR 200.306](#) and [2 CFR 200.311](#). A Notice of Federal Participation must be recorded for all acquired lands and lands contributed as match.

Should we include letters of support that are not financial commitment letters or those detailing scientific information specific to a project?

Given the volume of material reviewers must read, letters of general support for a project should not be included in the application package unless they also include essential information about the project. However, letters of financial commitment from third-party sources are required.

Does “maximum Federal share” under 50 CFR 84, including 84.32 (a)(11) and 84.46 (h), refer to the maximum percentage of Federal dollars of the project costs, i.e., 75 percent or 50 percent, or the maximum grant amount from the NCWCG Program, i.e., \$1 million?

“Maximum Federal share” refers to the percentage, i.e., 75 percent or 50 percent, of Federal dollars of the project costs, not the maximum grant amount from the NCWCG Program, i.e., \$1 million. For example, if total project costs are \$1,333,334, the maximum Federal share would be either \$1,000,000 (75 percent) or \$666,667 (50 percent), depending on whether or not you have a designated fund. If you only provide the minimum non-Federal share (25 percent or 50 percent of total project costs), no points will be awarded for reducing the Federal share ([50 CFR 84.32 \(a\)\(11\), Criterion 11](#)).

What changes are allowed to an application after its submission?

Applications submitted to us for consideration in the national competition must be in final format by the due date specified in this announcement. The only application changes that will be accepted after the due date are those that will not impact the project scoring or project scope, such as small corrective changes or clarifying statements, unless we request additional information. WSFR Regional Office and/or Headquarters representatives may request that you make modifications to an application after the due date to correct inconsistencies within your application or change any other error that would cause the review panel difficulty in accurately assessing your application during review.

Who determines if an application is eligible?

WSFR Regional Office personnel determine whether an application meets eligibility criteria for the Program and whether it should be considered for scoring by the review panel. If Regional personnel have questions regarding the eligibility of a project, they consult with the Headquarters WSFR Office to ensure consistent application of Service policy. The Headquarters WSFR Office will reexamine an application’s eligibility if questions arise. If deemed ineligible, we will not consider the application for funding and will notify you of this finding.

What is the policy for retroactively reimbursing an applicant for expenses incurred prior

to the official start date of a project?

If you incur costs before the project performance period, they can only be reimbursed if included in your application and approved for funding by your WSFR Regional Office. Preliminary costs may include costs necessary for preparing the grant proposal, such as feasibility surveys, engineering design, biological reconnaissance, appraisals, or preparation of grant documents such as environmental assessments for compliance with the National Environmental Policy Act or other Federal laws or regulations (See [50 CFR 84.47\(c\)](#) and https://www.ecfr.gov/cgi-bin/retrieveECFR?gp=&SID=511f2cc60fa3db7431e38952473fa82b&mc=true&n=pt50.9.84&r=PART&ty=HTML - se50.9.84_1472 [CFR 200.458](#)). Pre-award costs are allowable only to the extent that they would have been allowable if incurred after the date of the Federal award. If you are unsure whether specific pre-award costs may be reimbursable, please contact your WSFR Regional Office.

50 CFR 84.32 (a)(1) (Criterion 1):

Must a score of seven points be given for all applications that result in over 50 percent of the project area conserving, restoring, or protecting decreasing coastal wetlands types?

Yes. If you document that over 50 percent of the project area will, upon project completion, conserve decreasing coastal wetlands types you will receive the full seven points. You may find specific guidance on how reviewers score this criterion at [50 CFR 84.32 \(a\)\(1\)](#). Information on coastal wetland types is available [here](#). You may contact us for additional information about wetland types in your area.

Should a graduated scale be used to further delineate applications?

The program regulations in [50 CFR 84.32 \(a\)\(1\)](#) provide guidance on the use of intermediate scores (i.e., less than seven points) for applicants who document that, upon project completion, a minimum of 50 percent of the project area will be a combination of decreasing and stable types of wetlands, and for those that are less than 50 percent wetlands.

For land acquisition projects, will ranking be based on just the wetland portion of a parcel or the entire parcel?

Project ranking will be based on the entire acquisition parcel(s) and any parcel(s) used as match, unless the parcel will be officially subdivided.

50 CFR 84.32 (a)(2) (Criterion 2):

What qualifies as a maritime forest?

A thorough description of what is considered to be a maritime forest for the purpose of the NCWCG Program is found in the program regulations in the Definitions section, [50 CFR 84.11](#).

How will this criterion be scored?

In order to receive the maximum seven points for this criterion, your project must significantly benefit maritime forests which meet the following descriptions: 1) are located on coastal barriers (see definition of “coastal barrier” in [50 CFR 84.11](#)) along the mainland coast from Delaware to Texas, and 2) are broad-leaved forests. Examples of maritime forests are primarily characterized by a closed canopy of various combinations of live oak, upland laurel oak, pignut hickory,

southern magnolia, sugarberry, and cabbage palm.

Intermediate scores of less than seven points may be awarded: 1) for applications in which the significance of the benefit to maritime forests is unclear; or 2) for applications in which it is unclear if the forests meet the definition of a maritime forest.

50 CFR 84.32 (a) (Criteria 5, 6, and 7):

What information should I include about threatened and endangered species such as fish and coastal dependent or migratory birds in responses to ranking criteria 5, 6, and 7?

You should include the information requested in the ranking criteria. It is important to note if species have been observed within the project boundary or only in the general vicinity. We recommend that you supply this information in table format. The column headings can include: common name, scientific name, status (Federal listing, delisted within the last five years, State listing, etc.), observed within project boundary, habitat type provided, restored, or enhanced (nesting, breeding, feeding, nursery areas), etc. See ranking criteria language for additional information.

50 CFR 84.32 (a)(10) (Criterion 10):

Do non-Federal partners' financial contributions need to be included on the SF-424 as match to receive points for this criterion?

Yes, your application must identify financial support, including in-kind match, from any third-party that is listed as providing non-Federal match on the SF-424. You must document all third-party matching funds, i.e., those supplied by organizations or individuals other than your agency, with a signed letter of financial commitment from an authorized representative of the match provider. The letter of financial commitment must detail the amount of matching funds or value of donated land and/or services. You are responsible for ensuring the full amount of the non-Federal match as listed on the SF-424. All of these items must be submitted with the application by the due date identified in this announcement.

Please note that if a third-party provides match, and the letter of financial commitment is missing and/or late, the match will not be considered, which may negatively impact eligibility and scoring of your application.

Can we receive points for more than one State agency's participation in a proposed project?

In general, applications will only receive credit for one State agency. The exception to this rule is when an application includes multiple States. In these instances, the application may receive points for each additional State that is participating in the proposed project. Partnering entities that receive partial funding from a State may be considered non-State partners if they also receive non-State funding; such entities and the nature of their funding should be described in detail in the Project Narrative and/or letter(s) of commitment. Entities that are not generally considered a State agency due to receipt of non-State operational funding (such as University Extension) may receive credit as a non-State partner.

What documentation is required to receive points for this criterion for non-Federal partners?

A signed letter of financial commitment of matching funds or in-kind match from an authorized representative of any third-party match provider must accompany the application to receive points. You are ultimately accountable for third-party commitments of financial support.

What documentation is required to receive points for this criterion for Federal partners?

A signed letter committing project resources that are necessary and reasonable to completing the project objectives from an authorized representative of the Federal partner(s) must accompany your application to receive points. Federal partners providing technical assistance or other non-monetary contributions prior to the performance period may be considered partners; however, the substantive nature of such contributions must be explained in detail in your Project Statement and/or a letter of commitment. Entities whose involvement is not necessary or reasonable to complete the project objectives will not be counted as partners for this criterion.

50 CFR 84.32 (a)(11) (Criterion 11):

Can in-kind services or contributions be used as the required State match?

Yes. In-kind services can be used for part or all of your State’s required minimum cost share (i.e., 25 or 50 percent of total project costs). However, you will not receive points for this ranking criterion unless you have an additional cash match.

Can in-kind services or contributions, including bargain land sale, be used to score points for this criterion?

No. We only consider cash contributions that exceed the required minimum match when scoring points for Criterion 11. Cash is a liquid asset and can be tracked easily through audit procedures and also serves as a proxy for your commitment toward a project. Federal regulations and guidance clearly identify a landowner’s acceptance of a reduced price for his or her property as an in-kind service or contribution, not cash. As such, so-called “bargain sales” cannot be used to receive points for decreasing the Federal share.

Is the value of my agency’s staff time given in the project budget considered cash match?

Yes. We consider funds you may allocate to staff salaries and benefits for activities in support of project objectives to be cash match. Staff services contributed by another State agency or other third party are typically considered in-kind match, although another State agency may contribute cash to your agency for the project. See [2 CFR 200.306](#) for more guidance on cost sharing or matching. We recommend you contact your WSFR Regional Office staff prior to the deadline for additional guidance as needed.

How are points calculated when scoring on Criterion 11?

A maximum of five points may be awarded for Criterion 11. Each five percent provided in cash match over the required match equals one point up to a total of 25 percent over the required

match for a total of five points. The following examples assume that you are eligible to receive the maximum 75 percent Federal share.

Example 1:

Total project cost:	\$1,333,334
NCWCG Program Request:	\$1,000,000
Non-Federal cost share:	\$333,334

Non-Federal cost share may consist of in-kind, cash, or a combination of in-kind and cash, although only cash over the minimum required match counts for scoring purposes. Total required non-Federal match is determined by dividing the NCWCG Program Request by three ($\$1,000,000/3 = \$333,334$). The amount of non-Federal cost share in this example does not exceed the minimum required match; therefore, zero points would be awarded.

Example 2:

Total project cost:	\$1,500,000
NCWCG Program Request:	\$1,000,000
Non-Federal cost share (in-kind):	\$333,334
Non-Federal cost share (cash):	\$166,666

Total required non-Federal match is determined by dividing the NCWCG Program Request by three ($\$1,000,000/3 = \$333,334$). The minimum required non-Federal cost share is met with in-kind contributions in total. Cash match over the minimum required non-Federal cost share is divided by the minimum required non-Federal cost share ($\$166,666/\$333,334$), giving 50 percent; therefore, five points would be awarded (one point for each 5 percent, with a maximum of 5 points for 25 percent or more cash over minimum required non-Federal cost share).

Example 3:

Total project cost:	\$1,360,000
NCWCG Program Request:	\$1,000,000
Non-Federal cost share (in-kind):	\$300,000
Non-Federal cost share (cash):	\$60,000

The minimum required non-Federal cost share is partially met with in-kind and partially met with cash. Total required non-Federal match is determined by dividing the NCWCG Program Request by three ($\$1,000,000/3 = \$333,334$). Then, in-kind cost share is subtracted from this amount ($\$333,334 - \$300,000$) or $\$33,334$ to determine the amount of cash match that would be used to fulfill the minimum required non-Federal match. To determine cash match over the minimum required match, subtract the cash match used to meet the minimum required match

from the total amount of cash match (\$60,000 - \$33,334 = \$26,666). Cash match over the minimum required non-Federal cost share is then divided by the minimum required non-Federal match (\$26,666/\$333,334), giving eight percent. One point would be awarded for this criterion (one point for each 5 percent over minimum required non-Federal cost share).

Can applications from Commonwealths and Territories subject to the match waiver described in 48 U.S.C. 1469(a) (including the Commonwealth of the Northern Mariana Islands and the Territories of American Samoa, Guam, the U.S. Virgin Islands) receive points on Criterion 11?

Yes. Jurisdictions subject to the waiver that provide any amount of cash match will receive five points when scoring on Criterion 11.

Can the in-kind contribution of a landowner accepting an offer below market value for his property be used for the required State match?

Yes. The in-kind contribution of a landowner accepting a reduced price for his property is called a bargain sale and the difference between the established market value and the actual sale price can be used as part of or all of the State's required cost share. Bargain sale match is considered in-kind and not cash match.

Can Readiness and Environmental Protection Integration Program (REPI) funds be used as cash match?

Yes. In keeping with the intent of the Congressional language codified in 10 U.S.C. 2684a(h), REPI funds are considered non-Federal cash match.

50 CFR 84.32 (a)(12) (Criterion 12):

Are costs associated with Education and Outreach eligible?

Yes, provided that total costs unrelated to protection and restoration of the site are limited to 10 percent of the total project costs including NCWCG Program Federal share and the required match.

50 CFR 84.32 (b)(13) (Criterion 13):

Are there other factors that are used in scoring applications?

Yes, the following Other Factors describe important benefits that are not described in the previous criteria. You must provide evidence supporting the expected benefits.

1. Projects providing significant benefits to rare or threatened habitat types, biodiverse habitats, rare and declining species, and/or the local community;
2. Projects that are particularly cost-effective;
3. Projects that assist in the prevention or control of invasive species;
4. Projects that provide important cultural or historical resource benefits;
5. Projects designed to significantly advance climate change adaptation, especially those that indicate the targeted parcel(s) will be conserved, and function as intended, in perpetuity;

6. Projects that help build the capacity of underserved insular jurisdictions to conserve coastal wetlands ecosystems, including Guam, the Commonwealth of the Northern Mariana Islands, American Samoa, Puerto Rico, and the U.S. Virgin Islands.

50 CFR 84.32(13)(b) (Criterion 13 Additional considerations):

What factors are used in the event of a tie?

We will factor the following considerations into the ranking process if two or more proposals have the same point totals. The tie-breaking factors are as follows:

1. The project would prevent the destruction or degradation of habitat from pending sale of property, from adverse effects of current activities such as draining of wetlands, or from natural processes such as erosion at excessive rates;
2. The project would protect unique and significant biological diversity;
3. The project has lower costs per acre conserved; and
4. The State or third party provides lands as opposed to using lands already owned by the State or third party as part of the State matching share.

Please clarify the phrase, “provides lands...as part of the State matching share.”

The purpose of this tie-breaking factor is to encourage applications that include the donation of lands owned by a third party as part of the overall project. Such donations increase the overall acreage of land managed by the State agency, increasing the likelihood that the land will be managed to conserve the natural resources and increase the management options for the grant property.

B. Federal Award Information

B1. Total Funding

Estimated Total Funding

\$20,000,000

B2. Expected Award Amount

Maximum Award

\$1,000,000

Minimum Award

\$50,000

B3. Expected Award Funding and Anticipated Dates

Expected Award Funding

\$20,000,000

Expected Award Date

January 19, 2024

G - Grant

C. Eligibility Information

C1. Eligible Applicants

Eligible Applicants

00 – State governments

Additional Information on Eligibility

Participation is limited to State agencies or entities designated as eligible by the Governor of a coastal State. The eligible agency is usually a State natural resource or fish and wildlife agency. If you are uncertain of your eligibility, please contact your WSFR Regional Office. For Regional Office contact information, see the [National Coastal Wetlands Conservation Grant Program website](#) or contact the national program coordinators listed in Section G. Federal Awarding Agency Contacts. Eligible coastal States are States bordering the Great Lakes (Illinois, Indiana, Michigan, Minnesota, New York, Ohio, Pennsylvania, and Wisconsin); States bordering the Atlantic, Gulf (except Louisiana), and Pacific coasts. Louisiana is not an eligible coastal State for this Program as provided in the Coastal Wetlands Planning, Protection, and Restoration Act (16 U.S.C. 3955 (b)(1)). Here is the complete list of eligible States: Alabama, Alaska, American Samoa, California, Connecticut, Delaware, Florida, Georgia, Guam, Hawai'i, Illinois, Indiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, New Hampshire, New Jersey, New York, North Carolina, the Commonwealth of the Northern Mariana Islands, Ohio, Oregon, Pennsylvania, Puerto Rico, Rhode Island, South Carolina, Texas, the U.S. Virgin Islands, Virginia, Washington, and Wisconsin.

C2. Cost Sharing or Matching

Cost Sharing / Matching Requirement

Yes

Percentage of Cost Sharing / Matching Requirement

25

If you have established a fund that is used for acquiring coastal wetlands, other natural areas, or open space, you may receive up to 75 percent of total project costs through the NCWCG Program up to the maximum award of \$1,000,000. To be reimbursed up to 75 percent of total

project costs, you must provide either a description of the State trust fund (in sufficient detail for us to make an eligibility determination), or a statement that eligibility has been previously approved and there has been no change in the fund. If you have not established such a fund or do not include information on the State trust fund in your application, you may receive up to 50 percent of total project costs through the NCWCG Program.

In accordance with an October 12, 2022 Policy Advisory Notice from the Department of the Interior (Reference No. 2023-001) and [48 U.S.C. 1469\(a\), Amendment of Subsection \(d\)](#), the Service's Regional Directors shall waive cost sharing requirements described in this announcement in any grant to the Commonwealth of the Northern Mariana Islands and the Territories of American Samoa, Guam, or the U.S. Virgin Islands.

The maximum Federal participation rates of 50 and 75 percent are based on total project costs, i.e., the amount requested from the NCWCG Program plus the amount of eligible non-Federal cost share that you identify in your project budget. Other funds that are related to the project or are part of a larger project but are not designated as cost share in your project budget are not included in total project costs when calculating the maximum Federal participation rate. Cost share requirements are detailed in [50 CFR 84.46](#).

C3. Other

The primary purpose of the NCWCG Program is to help eligible State agencies acquire, restore, enhance, and/or manage coastal wetlands ecosystems. Recreation and outreach or education activities necessary for meeting these purposes are eligible for NCWCG Program funding up to a combined maximum of 10 percent of the total project costs, including the Federal share and matching funds. Such activities must be “site-specific” and “substantive” to receive points under Ranking Criterion 12 ([50 CFR 84.32\(a\)\(12\)\(i\)](#)). Any proposed recreation or outreach/education activities must be described in detail and justified in the application.

Planning and related activities are ineligible as a primary project focus ([50 CFR 84.20\(b\)\(6\)](#)), but may be allowable as a minimal component of a project. Monitoring necessary for meeting Program purposes is eligible, such as evaluating results of project activities and measuring impacts on targeted resources ([50 CFR 84.12\(b\)](#)). Research is not eligible for funding. Planning, engineering, design, permitting, and monitoring costs necessary for completion of site-specific project objectives are eligible for funding up to a combined maximum of 30 percent of the total project costs, including the NCWCG Program share and required match. Any proposed activities involving planning, engineering, design, permitting, or monitoring must be described and justified in your application.

Contact your WSFR Regional Office for more detailed guidance on specific proposed costs involving recreation, outreach/education, planning, design, permitting, or monitoring.

Review [50 CFR 84.20](#) for more information on eligible and ineligible activities, or contact your WSFR Regional Office.

You may meet your minimum required cost share or match through contributions from one or more third parties. A third party is any individual or organization other than the State applicant, such as a partner or subrecipient. In order for match to be allowable, it must meet all the criteria listed in [2 CFR 200.306\(b\)](#). As the primary State grant recipient, you are responsible for the full amount of the non-Federal match proposed, including any amount provided by one or more third parties, as listed on the Standard Form 424, Application for Federal Assistance (SF-424).

You may attribute some or all of your allowable indirect costs as voluntary committed cost share/match; however, you may only charge to the Federal award the indirect costs calculated against the allowable direct costs charged to the Federal award.

To receive points under ranking Criterion 11 ([50 CFR 84.32 \(a\)\(11\)](#)), at least some of the non-Federal match must be provided in cash. Direct costs identified in the SF-424 are only considered to meet the definition of cash match if they are provided in the form of U.S. currency. Some examples include a cash contribution for the purchase of real property, a direct payment to a contractor, or funds that the State grant recipient allocates for employee salaries and benefits to complete project objectives.

Note: If you propose to use the value of donated land as all or a portion of the non-Federal cost share, you must explain in the Project Narrative why the land is necessary to accomplish the project objectives. You should include information on all the parcels proposed for acquisition or restoration with NCWCG Program funds and all the match parcels in adequate detail for each ranking criterion so reviewers can make accurate and informed scoring decisions on both the subject and match parcel(s).

You must document all third-party matching funds with a signed letter of financial commitment from an authorized representative of the match provider. The letter must detail the amount of matching funds or value of donated land and/or services. When assigning a value to volunteer services, you must explain in your Project Narrative or Budget Narrative why the volunteer activity is necessary and reasonable, and reference the compensation rate(s) for an equivalent State position or justify typical costs in the labor marketplace for similar work in your area. Please note that any contributions from Federal sources are not eligible for use as non-Federal match unless authorized by Federal statute (such as the Department of Defense Readiness and Environmental Protection Integration Program or REPI funds). You are responsible for ensuring availability of the full amount of the non-Federal match that you indicate on the SF-424.

Foreign Entities or Projects:

State Sponsors of Terrorism: This program will not fund projects in [countries determined by the U.S. Department of State to have repeatedly provided support for acts of international terrorism](#) and therefore are subject to sanctions restricting receipt of U.S. foreign assistance and other financial transactions.

Office of Foreign Assets Control Sanctions: This program will not fund projects in countries subject to [comprehensive sanction programs administered by the U.S. Department of Treasury, Office of Foreign Asset Control](#) without proper licenses.

In-Country Licenses, Permits, or Approvals: Entities conducting activities outside the U.S. are responsible for coordinating with appropriate U.S. and foreign government authorities as necessary to obtain all required licenses, permits, or approvals before undertaking project activities. The Service does not assume responsibility for recipient compliance with the laws, regulations, policies, or procedures of the foreign country in which they are conducting work.

Excluded Parties:

The DOI conducts a review of the SAM.gov Exclusions database for all applicant entities and their key project personnel prior to award. The DOI cannot award funds to entities or their key project personnel identified in the SAM.gov Exclusions database as ineligible, prohibited/restricted or otherwise excluded from receiving Federal contracts, certain subcontracts, and certain Federal assistance and benefits, as their ineligibility condition applies to this Federal program.

D. Application and Submission Information

D1. Address to Request Application Package

You may access the application package in GrantSolutions or Grants.gov. If you have access to GrantSolutions, we recommend you apply there. Applying in GrantSolutions will expedite the grant award process if your application is selected for funding. To access the application package in GrantSolutions, [Log in](#) and search using Funding Opportunity Number F24AS00005, then follow the instructions to complete and submit your application.

If you do not have access to GrantSolutions, you may apply in Grants.gov. To access the application package in [Grants.gov](#), use the “Search Grants” tab, and enter Funding Opportunity Number F24AS00005 or CFDA number 15.614. Downloading and saving the Application Package to your computer makes the required government-wide standard forms fillable and printable.

To request a copy of the application package in another format, contact:

Paul Van Ryzin
U.S. Fish and Wildlife Service
Wildlife and Sport Fish Restoration Program
5275 Leesburg Pike, MS: WSFR
Fall Church, VA 22041
720-498-0335
paul_vanryzin@fws.gov

Program Website Link

<https://www.fws.gov/service/national-coastal-wetlands-conservation-grants>

D2. Content and Form of Application Submission

SF-424, Application for Federal Assistance

All applicants must submit the Standard Form (SF)-424, Application for Federal Assistance. This form is available with the announcement on Grants.gov and in GrantSolutions. The form must be complete and signed by an Authorized Representative. For all applicants except individuals and commercial entities, the Authorized Representative's signature on a standard application form submitted to the Service represents their certification that the entity's financial management system meets [2 CFR §200.302](#) financial management requirements. The non-Federal entity's financial management system must be sufficient to:

1. Permit the preparation of required reports;
2. Trace funds to a level of expenditures adequate to establish that the entity has used such funds per Federal statutes, regulations, and terms and conditions of the Federal award;
3. Provide for the requirements in [2 CFR §200.302\(b\)](#); and
4. Comply with [§200.334](#) Retention requirements for records, [§200.335](#) Requests for transfer of records, [§200.336](#) Methods for collection, transmission, and storage of information, and [§200.337](#) Access to records.

If this application requests more than \$100,000 in Federal funds, the Authorized Representative's signature on or submission of the SF-424 form in GrantSolutions also represents their certification of the statements in 43 CFR Part 18, Appendix A-Certification Regarding Lobbying.

When completing the SF-424 Application form, enter only the amount requested from this Federal program in Box 18a, Estimated Federal Funding. Include any other Federal sources of funding in Box 18e, Estimated Other Funding and identify any such sources and amounts in the required Budget Narrative (see below). For individuals applying as a private citizen (i.e., unrelated to any business or nonprofit organization you may own or operate in your name), do NOT include your Social Security Number on this or any other document to be submitted with your application! When completing the SF-424 Application form, individuals must enter in Box 8b, Employee/Taxpayer Identification Number (EIN/TIN) the substitute number "444-44-4444." Individuals may register in SAM.gov but are not required to have a SAM.gov registration. For individuals without a SAM.gov registration enter in Box 8c, the substitute Unique Entity Identifier (UEI) "KA5HQCLKUVW1".

Project Abstract Summary (OMB Number 4040-0019)

Applicants must complete and submit the Project Abstract Summary form. The Project Abstract Summary form must provide a brief award description. The description must be in plain language that the public can understand without viewing the full application proposal. It should include a brief, simple description of the project purpose, activities to be performed, deliverables and expected outcomes, intended beneficiaries, and subrecipient activities, if known at the time of submission.

Do not include personally identifiable, sensitive, or proprietary information in the award description as this is available to the public. Use only English characters, numbers, punctuation, and standard symbols. Use of non-English, non-standard characters (also referred to as special or extended ASCII characters) will result in the award description failing to be reported correctly to USASpending.gov. Award descriptions are limited to 4,000 characters or less. Applicants should check the length of the award description and proofread for proper grammar and spelling.

For applicants applying through Grants.gov: Applicants must download and complete the Grants.gov "Project Abstract Summary" form from the full text announcement. To submit the

Grants.gov “Project Abstract Summary” form with the application, applicants must add the form as an attachment to the Grants.gov “Attachments” form that is included in the application package.

For applicants applying through GrantSolutions-Grants Management Module (GS-GMM): Applicants must enter the information in the Project Abstract Summary screen. Do not upload a document in place of entering the information directly into GS-GMM Project Abstract Screen.

Project Narrative (7-page limit)

The Service has implemented an electronic performance reporting system called TRACS (<https://tracs.fws.gov>) in order to document recipient performance and for reporting on national program accomplishments that deliver meaningful results consistent with the NCWCG Program’s authorizing legislation. You are required to enter grant and Project Narrative information in TRACS. TRACS data entry facilitates development of a complete Project Narrative that you may use as part of your application in GrantSolutions, if you choose to use TRACS prior to submission of your application. If you do not enter grant and Project Narrative information in TRACS prior to applying in GrantSolutions or Grants.gov, you are required to enter this information within 60 calendar days of the latter: (a) the period of performance start date; or (b) the date the award was approved. To ensure the accuracy of information entered in TRACS and minimize your workload, please contact your WSFR Regional Office or review WSFR's [TRACS Training Options](#).

Submit a Project Narrative **of no more than seven pages** addressing the elements listed below (see also [50 CFR 84.22\(c\)](#)). **Be sure to include page numbers on all pages of your Project Narrative, and make sure the pages are consecutive so reviewers can verify it is no longer than seven pages.** You may combine your responses as necessary; separate headings or sections for responses to each element are not required. Only your responses to the following requirements in this Project Narrative subsection are included within the page limit, unless otherwise indicated. Your Project Narrative must be formatted to fit on an 8.5” x 11” document, with 1” margins at the top, bottom, and sides and page numbers at the bottom of the page (starting with the Project Narrative). Font size should be no less than 12 point.

Need: The need for the proposed project(s) within the purpose of the NCWCG Program.

Objectives: The Service created Standard Objectives to standardize performance reporting and document national accomplishments that deliver results consistent with the NCWCG Program’s authorizing legislation, applicable regulations, and guidance. To avoid delay, your Project Narrative must only use one or more of the Standard Objectives listed in the [TRACS Performance Matrix](#). We encourage you to work with your WSFR Regional Office if you have questions about the use of TRACS Standard Objectives in your Project Narrative. Please refer to the Service’s WSFR Training Portal site for [example project statements](#) that utilize TRACS Standard Objectives.

Expected Results: Expected results or benefits from accomplishing the objectives.

Approach: Clearly describe the approach or activities to be used in meeting the objectives, including specific procedures, methods, schedules, key personnel, and cooperators. Please include (if applicable):

1. Any organization that will act as a subrecipient and their role(s) in meeting the project objectives. For any key personnel, briefly describe the education, experience and skills that make them qualified to carry out the proposed project (do not include resumes or curriculum vitae);
2. What organization will hold title to the real property being acquired or restored?
3. What type of ownership interest is involved (e.g., fee simple, easement, combination, etc., and the related acres)?
4. What organization (or individual) will manage the real property interest?
5. How will long-term management (20 years or longer) of acquired or restored areas be accomplished (e.g., through long-term support provided by an endowment)?
6. What will be involved in the restoration? Why did you choose that approach? How likely is the proposed restoration technique to succeed? How much maintenance is involved, who will conduct it, and who will support it? Please provide examples of your success in implementing the proposed restoration approach in similar nearby ecosystems, if available.
7. Is the project ready to implement? For example, in the case of acquisitions, have the landowners supplied willing seller letters? For restoration projects, are the landowners willing to allow and maintain the proposed restoration, and have required permits been obtained or initiated? Are restoration designs completed or underway? Attach any relevant documents that address these elements. Copies of seller letters, permits, and designs should be provided separately from the Project Narrative and are not included in the page limit.
8. If your objectives include management of lands for recreational as well as conservation purposes, you must demonstrate that any anticipated recreational activities will not degrade habitat values of targeted lands.

Project Location: Maps or other geographic aids may be attached. Please include GPS Coordinates in decimal degrees. Provide support for the eligibility of your project by demonstrating that targeted lands or waters meet the definition of a coastal wetland ecosystem ([50 CFR 84.11](#)). Reference to a coastal Hydrologic Unit Code (HUC) alone does not establish eligibility. As applicable, provide: maps and diagrams of your project site(s) in relation to National Wetland Inventory or other wetland delineations, land cover, coastal landscape features such as tidal influence, and/or locations of other restored or managed areas in the vicinity of your project. Maps and other diagrams may be provided separately from the Project Narrative and are not included in the page limit.

Timeline: Describe significant milestones within the performance period of your project, including dates you expect to begin and complete all compliance-related activities. Describe any accomplishments to date.

Compliance: For projects conducted in the United States, describe the anticipated Federal compliance requirements, including those involving the National Environmental Policy Act (NEPA), the Endangered Species Act (ESA), Section 106 of the National Historic Preservation

Act (NHPA), and all other requirements in applicable Federal laws, regulations, and policies. Describe any compliance activities for your proposed project that have already been completed or are currently underway.

State Trust Fund: Include either a description of the State trust fund that supports or justifies your request for a 75 percent Federal share in sufficient detail for us to make an eligibility determination, or a statement that eligibility has been previously approved by us and no change has occurred in the fund. If you do not support or justify your request in your Project Narrative, we may determine that you are ineligible for a 75 percent Federal share.

Relationship to Other Projects and/or Other Federal Grants: If applicable, list other current, interrelated coastal conservation efforts, the agencies involved, the relationship to the proposed project, and how the application fits into comprehensive natural resource plans for the area. If applicable, identify any relationship between this project and other work funded by State or Federal grants that is planned, anticipated, or underway. Please note that you must also provide an Overlap or Duplication of Effort Narrative whether or not you describe other current, interrelated conservation actions in your Project Narrative. The Overlap or Duplication of Effort Statement is not included within the seven-page limit for your Project Narrative and should be included in your application separately. For more information, see below in this Section under the heading “Required Overlap or Duplication of Effort Statement.”

Public Involvement and Interagency Coordination: Provide a description of public involvement and any interagency coordination on coastal wetlands conservation projects that has occurred or is planned that relates to the application. Please specify the organizations or agencies involved and dates of involvement.

Responses to Ranking Criteria (20-Page Limit)

Provide a description with appropriate documentation of how the proposed project addresses each of the 13 numeric ranking criteria in [50 CFR 84.32](#). We recommend that you address each ranking criterion individually with a brief statement or table.

If a real property interest is proposed as match, include information on both the parcel(s) proposed for acquisition or restoration with NCWCG Program funds and the match parcel(s) in adequate detail for each ranking criterion so reviewers can make informed scoring decisions. Activities provided as cost share including land acquisition are part of the project and must be eligible activities.

Drawings/Maps/Photographs (No Page Limit)

We recommend that you include and identify drawings or photographs of the proposed project that provide the following information. Maps and other diagrams may be provided separately from the Project Narrative and are not included in the page limit.

- a. Existing state of the project area;
- b. Proposed project area (in one or more maps, photographs, or images);
 - i. Detail which areas will be part of the grant funded activities, delineating the project boundaries;
 - ii. Detail which areas are part of the cost share, if applicable;

- iii. Detail what restoration activities will take place and where, if applicable;
 - iv. Detail which areas, if any, are part of a larger effort that will be funded outside this grant and cost share application;
 - v. Detail wetland types (please include National Wetlands Inventory, State wetlands map, or other wetland delineation, if available); and
 - vi. Any other information that will assist reviewers to identify project components or factors involved with ranking.
- c. Two maps of the project location: a map of the State showing the general location of the project and a map of the project site.

SF-424A, Budget Information for Non-Construction Programs

Applicants must complete and submit the SF-424A Budget Information form for Non-Construction Programs or Projects. All required application forms are available with this announcement on Grants.gov or in GrantSolutions. Federal award recipients and subrecipients are subject to Federal award cost principles in Title 2 of the Code of Federal Regulations (CFR) part 200. Applicants must show funds requested from this Federal program separately from any other Federal sources of funding. In “Section A – Budget Summary” on the SF-424A form enter the funding requested from this Federal program in the first row. Identify any other Federal funding sources and amounts in the required Budget Narrative (see below). In the SF-424A “Contractual” category total, do not combine estimated subawards and contractual costs. Use the “Contractual” category to reflect estimated contractual costs only. Enter estimated subaward costs in the SF-424A “Other” category. Provide a separate description and total estimated costs for both contractual and subaward costs in the required Budget Narrative (see below).

Submit the SF-424A only if your project does not include any construction or real property acquisition activities. You may omit the Budget Information form if you provide the same or more detailed budget information in another format. At a minimum, your alternative budget table must include all the Object Class Categories in the Budget Information form.

SF-424C, Budget Information for Construction Program

Applicants must submit the appropriate SF-424C Budget Information form for Construction Programs or Projects. All required application forms are available with this announcement on Grants.gov and in GrantSolutions. Federal award recipients and subrecipients are subject to Federal award cost principles in 2 CFR 200. Applicants must show funds requested from this Federal program separately from any other Federal sources of funding. Identify any other Federal funding sources and amounts in the required Budget Narrative (see below).

Submit the SF-424C form only if your project involves construction or real property acquisition. You may omit the Budget Information form if you provide the same or more detailed budget information in another format. At a minimum, your alternative budget table must include all the Object Class Categories in the Budget Information form.

SF-429 Request to Acquire, Improve, or Furnish Real Property

Applicants seeking approval to acquire real property under an award must complete and submit the SF-429, “Real Property Status Report (Cover Page)” and the SF-429-B, “Real Property Status Report Attachment B (Request to Acquire, Improve, or Furnish)”. These forms are required if the real property is acquired with Federal funds, with recipient cost share or matching funds, or as an in-kind contribution under the award. The SF-429 forms are not available with

this announcement on Grants.gov; they are available on the [Grants.gov Post-Award Reporting Forms page](#). Please submit these completed forms as attachments to your application.

Real property interests may include, but are not limited to, fee simple, fee with exceptions to title, easements, water rights, and mineral rights. Leaseholds acquired by a recipient or subrecipient must also be reported regardless of their status as real or personal property under State law. The real property and leaseholds to be reported are those that required a Notice of Federal Participation to be recorded in the public recorder's office of the local jurisdiction. They include real property and leaseholds that were: 1. Purchased for a financially assisted project with Federal funds or non-Federal cost-sharing or matching funds; 2. Acquired previously by the recipient or subrecipient for another purpose, but committed to the financially assisted project as an in-kind contribution; or 3. Accepted by the recipient or subrecipient as an in-kind contribution from a non-Federal third party for the financially assisted project.

Budget Narrative

Applicants must include a budget narrative that describes and justifies requested budget items and costs. In your budget narrative, describe how the SF-424 Budget Information, "Object Class Category" totals were determined. For personnel salary costs, generally describe how estimates were determined by identifying what type of staff will support the project and how much time they will contribute to the project (in hours or workdays). Describe any proposed [items of cost that require prior approval](#) under the [Federal award cost principles](#), including any anticipated subawarding, transferring, or contracting out of any work under the award. Provide a separate description and total estimated costs for both contractual and subaward costs. If equipment previously purchased with Federal funds is available for the project, provide a list of that equipment and identify the Federal funding source. Identify any third-party cash or in-kind contributions that a partner or other entity will contribute to the project and describe how the contributions directly and substantively benefit completion of the project. For in-kind contributions, identify the source, the amount, and the valuation methodology used to determine the total value. See [2 CFR §200.306](#) for more information. Please note the prohibitions on certain telecommunications and video surveillance services or equipment in [2 CFR 200.216](#). The Department of the Interior's [Unmanned Aircraft web page](#) provides a list of approved unmanned aircraft and related equipment and software.

If applicable, include information on:

1. Program Income, if any – Include the source, estimated amount, and the requested method of crediting the program income (e.g. deductive, additive, cost share).
2. Allocation of Costs – Identify the method used for allocating costs in multipurpose projects and facilities.
3. Equipment, including any tangible personal property (includes information technology systems) having a useful life of more than one year and a per-unit acquisition cost which equals or exceeds the lesser of the capitalization level established by you or your subrecipient(s) for financial statement purposes, or \$5,000. You and your subrecipients must follow the requirements at [2 CFR 200](#) when acquiring equipment under an award, with emphasis on [200.313](#), [200.317](#) through [200.326](#), and [200.439](#).
4. Useful Life – Propose a useful life for each capital improvement that costs at least \$25,000 to build, acquire, or install, and reference the method used to determine the useful life of a capital improvement with a value greater than \$100,000.

5. Contingency Costs: Contingency costs estimated using broadly-accepted cost estimating methodologies are permissible but must be separately identified in your budget; they must comply with Federal Cost Principles, they must be necessary and reasonable for proper and efficient accomplishment of project or program objectives, and they must be verifiable from your financial records ([2 CFR 200.433](#)). Explain how any contingency costs were calculated and why they are necessary to improve the precision of your budget estimates.

Conflict of Interest Disclosure

Per the Financial Assistance Interior Regulation (FAIR), [2 CFR §1402.112](#), applicants must state in their application if any actual or potential conflict of interest exists at the time of submission.

a. *Applicability.*

1. This section intends to ensure that non-Federal entities and their employees take appropriate steps to avoid conflicts of interest in their responsibilities under or with respect to Federal financial assistance agreements.
2. In the procurement of supplies, equipment, construction, and services by recipients and by sub recipients, the conflict of interest provisions in [2 CFR §200.318](#) apply.

b. *Notification.*

1. Non-Federal entities, including applicants for financial assistance awards, must disclose in writing any conflict of interest to the DOI awarding agency or pass-through entity in accordance with [2 CFR §200.112](#).
2. Recipients must establish internal controls that include, at a minimum, procedures to identify, disclose, and mitigate or eliminate identified conflicts of interest. The recipient is responsible for notifying the Financial Assistance Officer in writing of any conflicts of interest that may arise during the life of the award, including those that have been reported by sub recipients.

c. *Restrictions on lobbying.* Non-Federal entities are strictly prohibited from using funds under a grant or cooperative agreement for lobbying activities and must provide the required certifications and disclosures pursuant to [43 CFR §18](#) and [31 USC §1352](#).

d. *Review procedures.* The Financial Assistance Officer will examine each conflict of interest disclosure on the basis of its particular facts and the nature of the proposed grant or cooperative agreement, and will determine whether a significant potential conflict exists and, if it does, develop an appropriate means for resolving it.

Enforcement. Failure to resolve conflicts of interest in a manner that satisfies the government may be cause for termination of the award. Failure to make required disclosures may result in any of the remedies described in [2 CFR §200.339](#), Remedies for noncompliance, including suspension or debarment (see also [2 CFR §180](#)).

Uniform Audit Reporting Statement

All U.S. states, local governments, Indian tribes, institutions of higher education, and non-profit organizations expending \$750,000 USD or more in Federal award funds in the applicant's fiscal year must submit a Single Audit report for that year through the [Federal Audit Clearinghouse's Internet Data Entry System](#), in accordance with 2 CFR 200 subpart F. U.S. state, local government, Indian tribes, institutions of higher education, and non-profit applicants must state if your organization was or was not required to submit a Single Audit report for the most recently closed fiscal year. If your organization was required to submit a Single Audit report for the most recently closed fiscal year, provide the EIN associated with that report and state if it is available through the [Federal Audit Clearinghouse](#) website.

Certification Regarding Lobbying

Applicants requesting more than \$100,000 in Federal funding must certify to the statements in [43CFR Part 18, Appendix A-Certification Regarding Lobbying](#). If this application requests more than \$100,000 in Federal funds, the Authorized Official's signature on the appropriate SF-424, Application for Federal Assistance form also represents the entity's certification of the statements in [43 CFR Part 18, Appendix A](#).

Disclosure of Lobbying Activities

Applicants and recipients must not use any federally appropriated funds (annually appropriated or continuing appropriations) or matching funds under a Federal award to pay any person for lobbying in connection with the award. Lobbying is influencing or attempting to influence an officer or employee of any U.S. agency, a Member of the U.S. Congress, an officer or employee of the U.S. Congress, or an employee of a Member of the U.S. Congress connection with the award. Applicants and recipients must complete and submit the [SF-LLL, "Disclosure of Lobbying Activities"](#) form if the Federal share of the proposal or award is more than \$100,000 and the applicant or recipient has made or has agreed to make any payment using non-appropriated funds for lobbying in connection with the application or award. The SF-LLL form is available with this Funding Opportunity on Grants.gov. See 43 CFR, Subpart 18.100 for more information on when additional submission of this form is required.

Overlap or Duplication of Effort Statement

Applicants must provide a statement indicating if there is any overlap between this Federal application and any other Federal application, or funded project, in regard to activities, costs, or time commitment of key personnel. If no such overlap or duplication exists, state, "There are no overlaps or duplication between this application and any of our other Federal applications or funded projects, including in regard to activities, costs, or time commitment of key personnel". If any such overlap exists, provide a complete description of overlaps or duplications between this proposal and any other federally funded project or application in regard to activities, costs, and time commitment of key personnel, as applicable. Provide a copy of any overlapping or duplicative proposal submitted to any other potential funding entity and identify when that proposal was submitted, to whom (entity name and program), and when you anticipate being notified of their funding decision. When overlap exists, your statement must end with "We understand that if at any time we receive funding from another source that is duplicative of the funding we are requesting from the U.S. Fish and Wildlife Service in this application, we will immediately notify the U.S. Fish and Wildlife Service point of contact identified in this Funding Opportunity in writing."

D3. Unique Entity Identifier and System for Award Management (SAM)

Identifier and System for Award Management (SAM.gov) Registration:

This requirement does not apply to individuals applying for funds as an individual (i.e., unrelated to any business or nonprofit organization you may own, operate, or work within), or any entity with an exception to bypass SAM.gov registration with prior approval from the funding bureau or office in accordance with bureau or office policy. All other applicants are required to register as a financial assistance recipient in SAM.gov prior to submitting a Federal award application and obtain a [Unique Entity Identifier \(UEI\)](#). A Federal award may not be made to an applicant that has not completed the SAM.gov registration. If an applicant selected for funding has not completed their SAM.gov registration by the time the program is ready to make an award, the program may determine the applicant is not qualified to receive an award. Federal award recipients must also continue to maintain an active SAM.gov registration with current information through the life of their Federal award(s). Entities already registered in SAM.gov should review their registration to confirm that they are registered as a financial assistance recipient, which requires completion of the SAM.gov “Financial Assistance General Certifications and Representations”. See the “Submission Requirements” section of this document below for more information on SAM.gov registration.

Applicants can register on the [SAM.gov](#) website. The “Help” tab on the website contains User Guides and other information to assist you with registration. The Grants.gov “[Register with SAM](#)” page also provides detailed instructions. Applicants can contact the supporting Federal Service Desk for help registering in SAM. Once registered in SAM, entities must renew and revalidate their SAM registration at least once every 12 months from the date previously registered. Entities are strongly encouraged to revalidate their registration as often as needed to ensure their information is up to date and reflects changes that may have been made to the entity’s IRS information. If applicable, foreign entities who want to receive payment directly to a U.S. bank account must enter and maintain valid, current banking information in SAM.

D4. Submission Dates and Times

Due Date for Applications

06/23/2023

Application Due Date Explanation

Grant application packages must be submitted in GrantSolutions.gov or Grants.gov no later than Friday, June 23, 2023, at 11:59 p.m. EDT. We recommend that you submit your application early enough to address any unforeseen technical complications. All letters of financial commitment are due with the application by the deadline. To ensure submission of your application by the deadline, we recommend you submit a copy of your entire application in PDF format to your WSFR Regional Office. We will not consider applications or letters received after the deadline.

Early and frequent communication between your WSFR Regional Office and/or Coastal Program points of contact, your project partners, and your State's Federal Aid Coordinator can help you avoid potentially disqualifying errors in your application. We

strongly encourage you to email a draft of your application to your WSFR Regional Office and/or Coastal Program contact at least four weeks prior to the due date (i.e., by May 26, 2023) for pre-deadline review. WSFR Regional Office and Coastal Program staff may review and provide input on applications at their discretion and as time permits. Feedback may include recommendations to improve the application, including identification of errors or omissions that could result in disqualification of your application. If you do not email your draft application to your WSFR Regional Office and/or Coastal Program point of contact at least four weeks prior to the due date, you should have no expectation that regional staff will be able to provide input or recommendations.

D5. Intergovernmental Review

An intergovernmental review may be required for applications submissions from a U.S. state or local government prior to submission. Applicants must contact their State's Single Point of Contact (SPOC) to comply with the state's process under [Executive Order 12372](#). The State Single Point of Contact list is available on the [OMB Office of Federal Financial Management website](#).

D6. Funding Restrictions

Indirect Costs: Individuals

Individuals applying for and receiving funds separate from a business or non-profit organization they may operate are not eligible to charge indirect costs to their award. If you are an individual applying for funding, you must not include any indirect costs in your proposed budget.

Indirect Costs: Organizations

The Federal awarding agency that provides the largest amount of direct funding to your organization is your cognizant agency for indirect costs, unless otherwise assigned by the White House Office of Management and Budget (OMB). If the Department of the Interior (DOI) is your organization's cognizant agency, the Interior Business Center (IBC) will negotiate your indirect cost rate. Contact the IBC by phone 916-930-3803 or using the [IBC Email Submission Form](#). See the [IBC Website](#) for more information.

Organizations must have an active Federal award before they can submit an indirect cost rate proposal to their cognizant agency. Failure to establish an approved rate during the award period renders all costs otherwise allocable as indirect costs unallowable under the award. Recipients may not shift unallowable indirect costs to another Federal award unless specifically authorized to do so by legislation.

Required Indirect Cost Statement to be submitted by Organization:

U.S. state or local government entities receiving more than \$35 million in direct Federal funding must include the following statement in their application and attach a copy of their most recently negotiated rate agreement:

- We are a U.S. state or local government entity receiving more than \$35 million in direct Federal funding. We submit our indirect cost rate proposals to our cognizant agency. Our current indirect cost rate is [insert rate]. Attached is a copy of our most recently negotiated rate agreement/certification.

U.S. state or local government entities receiving \$35 million or less in direct Federal funding must include the applicable statement from this list:

- We are a U.S. state or local government entity receiving \$35 million or less in direct Federal funding. We prepare and retain for audit an indirect cost rate proposal and documentation per 2 CFR 200, Appendix VII. Our current indirect cost rate is [insert rate], which is charged against [insert a complete description of the direct cost base used to distribute indirect costs to the award].
- We are a U.S. state or local government entity receiving \$35 million or less in direct Federal funding. We have not prepared an indirect cost rate proposal and documentation per 2 CFR §200, Appendix VII and elect to charge the de minimis rate of 10% of Modified Total Direct Costs as defined in 2 CFR §200.1. We understand we must use this methodology consistently for all Federal awards until we choose to establish a rate per 2 CFR §200. We understand we must notify the Service in writing if we establish a rate that changes the methodology used to charge indirect costs during the award period. We understand that additional Federal funds may not be available to support an unexpected increase in indirect costs during the project period and that such changes are subject to review, negotiation, and prior approval by the Service.

All other organizations must include the applicable statement from this list and any related documentation in their application. Please note, an organization with a current negotiated (including provisional) rate may not elect to charge the 10% de minimis rate of Modified Total Direct Costs during the period covered by their current negotiated rate.

- We are an organization with a current negotiated indirect cost rate. In the event we receive an award, we will charge indirect costs per our current negotiated rate agreement. Attached is a copy of our current rate agreement.
- We are an organization with a negotiated indirect cost rate that has expired. Attached is copy of our most recently negotiated rate agreement. If we receive an award, we will submit an indirect cost rate proposal to our cognizant agency within 90 calendar days after the award date. We understand we must provide the Service a copy of our approved rate agreement before charging indirect costs to the Federal award.
- We are an organization that has never negotiated an indirect cost rate with our cognizant agency. Our indirect cost rate is [insert rate], which is charged against [insert a complete description of the direct cost base used to distribute indirect costs to the award]. If we receive an award, we will submit an indirect cost rate proposal to our cognizant agency within 90 calendar days after the award date. We understand we must provide the Service a copy of our approved rate agreement before charging indirect costs to the Federal award.
- We are an organization that does not have a current negotiated (including provisional) rate. In the event an award is made, we elect to charge the de minimis rate of 10% of Modified Total Direct Costs as defined in 2 CFR §200.1. We understand we must use this methodology consistently for all Federal awards until such time as we negotiate a

different rate with our cognizant agency. We understand that we must notify the Service in writing if during the award period we establish a rate that changes the methodology used to charge indirect costs to the award. We understand that additional Federal funds may not be available to support an unexpected increase in indirect costs and that such changes are subject to review, negotiation, and prior approval by the Service.

- We are an organization submitting a [insert either “Cooperative Fish and Wildlife Research Unit Program” or “Cooperative Ecosystem Studies Unit Network”] project proposal, which has an indirect cost rate cap of [insert rate; CRU is currently 15%; CESU is currently 17.5%]. In the event we receive an award, we understand that if we have a current negotiated (including provisional) indirect cost rate agreement we must charge the capped indirect cost rate to the same base identified in our approved indirect cost rate agreement. We understand we must request prior approval from the awarding program to use the [2 CFR 200.1 Modified Total Direct Costs](#) (MTDC) base instead of our approved base and that we must submit such requests with our application, including a calculation showing how use of the MTDC base results in an overall reduction in the total indirect costs recovered. If we do not have current negotiated (including provisional) rate, we understand we must charge the capped indirect cost rate against Modified Total Direct Costs (MTDC) as defined in 2 CFR §200.1. If we have never negotiated a rate, we understand we must use the de minimis rate of 10% of MTDC.
- We are an organization that will charge all costs directly.

Eligible Activities

1. Acquisition of a real property interest in coastal lands or waters (coastal wetlands ecosystems) from willing sellers or partners, provided that the terms and conditions will ensure the real property will be managed for long-term conservation; and
2. The restoration, enhancement, or management of coastal wetlands ecosystems, provided that restoration, enhancement, or management will be administered for long-term conservation.

Ineligible Activities

1. Projects that primarily benefit navigation, irrigation, flood control, or mariculture;
2. Acquisition, restoration, enhancement, or management of lands to mitigate habitat losses;
3. Creation of wetlands where wetlands did not previously exist;
4. Enforcement of fish and wildlife laws and regulations, except when necessary for the accomplishment of approved project purposes;
5. Research;
6. Planning, engineering, design, permitting, or monitoring as a primary project purpose;
7. Operations and maintenance, including long-term invasive species management;
8. Acquisition and/or restoration of upper portions of watersheds where benefits to the coastal wetlands ecosystem are not significant and direct; and
9. Projects providing less than 20 years of conservation benefits.

Note: these lists are not comprehensive. If you have questions about the eligibility of specific activities, contact your WSFR Regional Office.

Funding Restrictions for Construction and Real Property Acquisition Projects

If your project involves construction or real property acquisition, you certify that you accept and will comply with the following conditions upon acceptance of the award (see Section F1. Federal Award Notices):

1. You will not dispose of, modify the use of, or change the terms of the real property title or other interest in the site and facilities without the permission and instructions from the awarding agency. You will record the Federal awarding agency directives and include a covenant in the title of real property acquired in whole or in part with Federal assistance funds to assure non-discrimination during the useful life of the project;
2. You will comply with the requirements of the assistance awarding agency with regard to the drafting, review, and approval of construction plans and specifications; and
3. You will provide and maintain competent and adequate engineering supervision at the construction site to ensure that the completed work conforms with the approved plans and specifications and will furnish progressive reports and such other information as may be required by the assistance awarding agency or State.

D7. Other Submission Requirements

The Service uses the GrantSolutions system to manage financial assistance applications and awards. Applicants must register in and conduct any subsequent award business with the Service in GrantSolutions. To apply, your organization and organization officials must be established in GrantSolutions. To register your organization in GrantSolutions, send an email to help@grantsolutions.gov with the following information:

Subject: New Organization Request

- Organization/Individual Name
- Point of Contact first and last name, email, and phone number
- Organization Type
- SAM.gov Unique Entity Identifier (not required for individuals or Service-waived entities)
- Organization Employer Identification Number (Applicants that are INDIVIDUALS DO NOT include your social security number)
- Address

Organizational details should match those in the organization's SAM.gov registration. To establish organization official accounts and user role(s), complete a Recipient User Account Request Form for each official and email it to help@grantsolutions.gov. The GrantSolutions entity user roles are: Authorizing Official (ADO); Principal Investigator/Program Director (PI/PD); Support Specialist (GSS); Financial Officer (FO); and Financial Support Staff (FSS). All roles can do the following: enter applications, amendments, and reports, view awards, and view and create notes. The ADO and the PI/PD roles can also submit applications, amendments, and reports. The FO role can also submit reports. At a minimum, registered organizations must assign someone to the ADO and PI/PD roles. For more information, see the GrantSolutions Recipient Training and FAQs web page. For GrantSolutions registration, submission, and other

assistance contact their Customer Support by telephone at 1-866-577-0771 or by email at help@grantsolutions.gov.

In accepting Federal funds, you must comply with all applicable Federal laws, regulations, and policies. If we select your application for award, you must provide evidence of compliance with NEPA, ESA, NHPA, and other Federal laws or regulations as part of the post-selection approval process.

Please review this announcement carefully before you apply for a NCWCG Program grant. WSFR is required to annually update information in this announcement, including program requirements and/or application instructions, and requirements may have changed in the past year. Use the following list of items to make sure your application is complete, and your project is eligible for funding. Some of the following items are conditionally required and may not apply to your application or agency. If you have questions about this list, please contact your [WSFR Regional Office](#) (scroll to “Regional Contacts”).

- SF-424, Application for Federal Assistance
- Project Abstract Summary Form (OMB Form Number: 4040-0019)
- Project Narrative (7-page limit)
- Responses to Ranking Criteria (20-page limit)
- Drawings/Maps/Photographs (no page limit)
- A complete SF-424A, SF-424C, or equivalent budget information in another format.
- If applicable, a completed Request to Acquire, Improve, or Furnish form (SF-429B) for all real properties, including those you propose for acquisition with NCWCG Program funds and those you propose as cost share
- Budget Narrative
- If applicable, a Conflict of Interest Disclosure
- Any required letter(s) of match commitment identifying specific financial or other commitments that are signed by an authorized entity with budgetary authority
- Uniform Audit Reporting Statement
- Certification Regarding Lobbying
- If applicable, a completed SF-LLL Disclosure of Lobbying Activities form
- Required Overlap or Duplication of Effort Statement
- Statement on applicability of Intergovernmental Review
- Indirect Cost Statement and if applicable, a copy of your current NICRA (only if a current copy is not on file in your WSFR Regional Office)
- If applicable, any attachments or appendices

E. Application Review Information

E1. Criteria

Criterion 1: Wetlands conservation	Maximum Points: 7
---	--------------------------

How will the project reverse coastal wetland loss or habitat degradation in decreasing or stable coastal wetland types? Reference project location information provided in your Project Narrative. Include a citation for your wetland type determinations and reference any maps, diagrams, or other information demonstrating that targeted lands or waters meet the definition of a coastal wetland ecosystem ([50 CFR 84.11](#)).

Criterion 2: Maritime forests on coastal barriers	Maximum Points: 7
How will the project significantly benefit maritime forests on coastal barriers?	

Criterion 3: Long-term conservation	Maximum Points: 7
How will the project ensure long-term conservation of coastal wetland functions? The project must provide at least 20 years of conservation benefits to be eligible. Reference any published data, modelling, design features, and/or similar information supporting the expected longevity of natural resource benefits resulting from project activities.	

Criterion 4: Coastal watershed management	Maximum Points: 3
How will the completed project help accomplish the natural resources goals and objectives of one or more formal, ongoing coastal watershed management plan or effort?	

Criterion 5: Conservation of threatened and endangered species	Maximum Points: 5
How will the project benefit any federally listed endangered or threatened species, species proposed for Federal listing, recently delisted species, or designated or proposed critical habitat in coastal wetlands? Describe any expected benefits to your State-listed species.	

Criterion 6: Benefits to fish	Maximum Points: 5
How will the project provide, restore, or enhance important fisheries habitat?	

Criterion 7: Benefits to coastal-dependent or migratory birds	Maximum Points: 5
How will the project provide, restore, or enhance important habitat for coastal-dependent or migratory birds?	

Criterion 8: Prevent or reduce contamination	Maximum Points: 5
How will the project prevent or reduce input of contaminants, or remove existing contaminants from the coastal wetlands and associated coastal waters?	

Criterion 9: Catalyst for future conservation	Maximum Points: 4
How will the project leverage other ongoing coastal wetlands conservation efforts in an area or provide additional impetus for conservation?	

Criterion 10: Partners in conservation	Maximum Points: 4
Will the project receive financial support, including in-kind match, from private, local, or other Federal partners?	

Criterion 11: Federal share reduced	Maximum Points: 5
Does the application add to the non-Federal share of the project by contributing additional cash? See 50 CFR 84.32 (a)(11) .	

Criterion 12: Education/outreach program or wildlife-oriented recreation	Maximum Points: 3
Does the proposed project include a site-specific, substantive outreach/education program? Does it provide recreational opportunities that are consistent with the conservation goals of the site?	

Criterion 13: Other factors	Maximum Points: 4
Please summarize how any other factors not covered in the previous criteria make your proposed project or site particularly unique and valuable. Other factors may include but are not limited to the following examples (see 50 CFR 84.32(a)(13)). You must provide evidence supporting the expected benefits.	
<ol style="list-style-type: none"> 1. Projects providing significant benefits to rare or threatened habitat types, biodiverse habitats, rare and declining species, and/or the local community; 2. Projects that are particularly cost-effective; 3. Projects that assist in the prevention or control of invasive species; 4. Projects that provide important cultural or historical resource benefits; 5. Projects designed to significantly advance climate change adaptation, especially those that indicate the targeted parcel(s) will be conserved, and function as intended, in perpetuity; 6. Projects that help build the capacity of underserved insular jurisdictions to conserve coastal wetlands ecosystems, including Guam, the Commonwealth of the Northern Mariana Islands, American Samoa, Puerto Rico, and the U.S. Virgin Islands. 	

E2. Review and Selection Process

Prior to award, the program will review any applicant statement regarding potential overlap or duplication between the project to be funded and any other funded or proposed project in terms of activities, funding, or time commitment of key personnel. Depending on the circumstances, the program may request modification to the application, other pending applications, or an active award, as needed to eliminate any duplication of effort, or the FWS may choose not to fund the selected project.

Prior to award, the program will conduct and document a review of the proposed budget to ensure figures are calculated correctly, proposed costs are clearly linked to the project narrative and seem necessary and reasonable, no obviously unallowable costs are included, costs requiring prior approval are identified and described, indirect cost are applied correctly, and any program match or cost share requirements are addressed.

The program may not make a Federal award to an applicant that has not completed the SAM.gov registration. If an applicant selected for funding has not completed their SAM.gov registration by the time the Bureau is ready to make an award, the program may determine that the applicant is not qualified to receive an award. The program can use that determination as a basis for making an award to another applicant.

Prior to award, the program will evaluate the risk posed by applicants as required in [2 CFR §200.206](#). Prior to approving awards for Federal funding in excess of the simplified acquisition threshold (currently \$250,000), the Bureau is required to review and consider any information about or from the applicant found in the Federal Awardee Performance and Integrity Information System. The Bureau will consider this information when completing the risk review. The Bureau uses the results of the risk evaluation to establish monitoring plans, recipient reporting frequency requirements, and to determine if one or more of the specific award conditions in [2 CFR §200.208](#) should be applied to the award.

We will conduct an initial review of applications to verify project eligibility. If we identify any minor errors or omissions we may contact you to clarify information. We will not accept revised Project Narratives, significant budget revisions, or letters of commitment after the deadline.

After review for eligibility, a panel of Service program specialists scores eligible applications using criteria published in this announcement. We may reject applications that do not meet application requirements or are not substantial in character and design, as determined by the review panel, even if NCWCG Program funds are available. Any funds not awarded in a fiscal year carry over to the next fiscal year, are combined with new funds, and are distributed nationally through competitive grants approved by the Service Director.

After ranking of eligible projects based on scoring on these criteria, WSFR staff recommend a project list to the Assistant Director for WSFR, who then recommends a final list of projects to the Service Director. The Service Director makes the final project selections.

Prior to participating in any review or evaluation process, all staff and peer reviewers, evaluators, panel members, and advisors must sign and return to the program office point of contact the Department of the Interior Conflict of Interest Certification form. For a copy of this form, contact your [WSFR Regional Office](#).

E3. CFR – Regulatory Information

See the [Service’s General Award Terms and Conditions](#) for the general administrative and national policy requirements applicable to Service awards. The Service will communicate any other program- or project-specific special terms and conditions to recipients in their notices of award.

E4. Anticipated Announcement and Federal Award Dates

We estimate we will announce awards by January 2024.

F. Federal Award Administration Information

F1. Federal Award Notices

If your project is selected for funding, the WSFR Regional Office will notify you of the pending award and the process needed to receive a grant, including satisfactory completion of compliance requirements. We encourage you to submit all required compliance documentation to the WSFR Regional Office within three months of receipt of the pre-award notification. When compliance and other requirements are met, you will receive a notice of award via GrantSolutions detailing the terms and conditions of the award. You are not required to sign/return the notice of award. Acceptance of an award is defined as starting work, drawing down funds, or accepting the award via electronic means. Awards are based on the application submitted to and as approved by us. The notice of award document(s) will include specific instructions on how to request payment. If applicable, the instructions will detail any additional information/forms required and where to submit payment requests.

F2. Administrative and National Policy Requirements

See the [DOI Standard Terms and Conditions](#) for the administrative and national policy requirements applicable to DOI awards.

See the [Service’s General Award Terms and Conditions](#) for the general administrative and national policy requirements applicable to Service awards.

Buy America Provision for Infrastructure: Required Use of American Iron, Steel, Manufactured Products, and Construction Materials.

As required by Section 70914 of the Infrastructure Investment and Jobs Act (Pub. L. 117-58), on or after May 14, 2022, none of the funds under a federal award that are part of a Federal financial assistance program for infrastructure may be obligated for a project unless all the iron, steel, manufactured products, and construction materials used in the project are produced in the United

States, unless subject to an approved waiver. Recipients conducting infrastructure projects under the award must include related requirements all subawards, including all contracts and purchase orders for infrastructure work or products under this program. For the full text term applicable to infrastructure and related waiver request standards and procedures, see the Service's General Award Terms and Conditions.

Contact your WSFR Regional Office if you have questions about this requirement.

F3. Reporting

Financial Reports

All recipients must use the [SF-425, Federal Financial Report](#) form for financial reporting. At a minimum, all recipients must submit a **final** financial report. Final reports are due no later than 120 calendar days after the award period of performance end date or termination date. For awards with periods of performance longer than 12 months, recipients are required to submit **interim** financial reports on the frequency established in the Notice of Award. The only exception to the interim financial reporting requirement is if the recipient is required to use the SF 270/271 to request payment and requests payment at least once annually through the entire award period of performance. We will describe all financial reporting requirements in the Notice of Award.

You must submit all performance reports in TRACS and GrantSolutions as described in the terms and conditions specified in the notice of award. You should complete your performance reports in TRACS first. Once completed, TRACS will generate a performance report that you can upload in GrantSolutions.

Your performance report information must provide quantitative outputs for the approved Standard Objectives, and narrative responses to the following questions:

1. What progress has been made towards completing the objective(s) of the project?
2. Please describe and justify any changes in the implementation of your objective(s) or approach(es).
3. If applicable, please share if your project resulted in any unexpected benefits, promising practices, new understandings, cost efficiencies, management recommendations, or lessons learned.
4. For survey projects only: If applicable, does this project continue work from a previous award? If so, how do the current results compare to prior results? (you may elect to add attachments such as tables, figures, or graphs to provide further detail when answering this question).
5. If applicable, identify and attach selected publications, photographs, screenshots of websites, or other documentation (including articles in popular literature, scientific literature, or other public information products) that have resulted from this project that highlight the accomplishments of the project.
6. Is this a project you wish to highlight for communication purposes?
7. For CMS States only: If the grant is a CMS, has the agency submitted an updated report every three years detailing the CMS components: (a) inventory and scanning; (b) strategic plan; (c)

operational plan; and (d) evaluation and control have been reviewed and summaries included which provide detailed review results and recommendations?

Non-Construction Performance Reports

Performance reports must contain a comparison of actual accomplishments with the established goals and objectives of the award; a description of reasons why established goals was not met, if appropriate; and any other pertinent information relevant to the project results. **Final** reports are due no later than 120 calendar days after the award period of performance end date or termination date. For awards with periods of performance longer than 12 months, recipients are required to submit **interim performance** reports on the frequency established in the Notice of Award.

Construction Performance Reports

For construction awards, onsite technical inspections and certified percentage of completion data may be relied on to monitor progress for construction. Additional performance reports for construction activities may be required only when considered necessary. However, awards that include both construction and non-construction activities require performance reporting for the non-construction activities. See [2 CFR§200.329](#) for more information. The USFWS will describe all performance reporting requirements in the Notice of Award.

Significant Development Reports

Events may occur between the scheduled performance reporting dates which have significant impact upon the supported activity. In such cases, recipients are required to notify the Bureau in writing as soon as the recipient becomes aware of any problems, delays, or adverse conditions that will materially impair the ability to meet the objective of the Federal award. This disclosure must include a statement of any corrective action(s) taken or contemplated, and any assistance needed to resolve the situation. The recipient should also notify the Service in writing of any favorable developments that enable meeting time schedules and objectives sooner or at less cost than anticipated or producing more or different beneficial results than originally planned.

Real Property Reports

Recipients and subrecipients are required to submit status reports on the status of real property acquired under the award in which the Federal government retains an interest. The required frequency of these reports will depend on the anticipated length of the Federal interest period. The Bureau will include recipient-specific real property reporting requirements, including the required standard form or data elements, reporting frequency, and report due dates, in the Notice of Award when applicable.

Real property interests may include, but are not limited to, fee simple, fee with exceptions to title, easements, water rights, and mineral rights. Leaseholds acquired by a recipient or subrecipient must also be reported regardless of their status as real or personal property under State law. The real property and leaseholds to be reported are those that required a Notice of Federal Participation to be recorded in the public recorder's office of the local jurisdiction. They include real property and leaseholds that were:

1. Purchased for a financially assisted project with Federal funds or non-Federal cost-sharing or matching funds;
2. Acquired previously by the recipient or subrecipient for another purpose, but committed to the financially assisted project as an in-kind contribution; or
3. Accepted by the recipient or subrecipient as an in-kind contribution from a non-Federal third

party for the financially assisted project.

If your award includes real property or facility acquisition or construction, you are responsible for entering information in the TRACS inventory modules to create real property/facility record(s). We will use these real property/facility records to ensure your periodic requirement to submit reports on the status of real property acquired or constructed under a Federal award as outlined in the notice of award is met. The Director, Office of Grants Management, has approved the Service's use of TRACS as an alternate equivalent format for the collection of data needed for the OMB approved form, *Real Property Status Report SF 429-A* (2 CFR 1402.329(d)(4)). If the real property will be held for less than 15 years, reports must be submitted annually. If the real property will be held for 15 years or more, the first report will be due within a year of the end of the period of performance, and subsequent reporting on a schedule determined by us. Reports for real property held for 15 years or more will be due at least once every five years but could be required more often.

Conflict of Interest Disclosures

Per 2 CFR §1402.112, non-Federal entities and their employees must take appropriate steps to avoid conflicts of interest in their responsibilities under or with respect to Federal financial assistance agreements. In the procurement of supplies, equipment, construction, and services by recipients and by subrecipients, the provisions in [2 CFR §200.318](#) apply. Non-Federal entities, including applicants for financial assistance awards, must disclose in writing any conflict of interest to the DOI awarding agency or pass-through entity in accordance with [2 CFR §200.112](#). Recipients must establish internal controls that include, at a minimum, procedures to identify, disclose, and mitigate or eliminate identified conflicts of interest. The recipient is responsible for notifying the Service Project Officer identified in their notice of award in writing of any conflicts of interest that may arise during the life of the award, including those that reported by subrecipients. The Service will examine each disclosure to determine whether a significant potential conflict exists and, if it does, work with the applicant or recipient to develop an appropriate resolution. Failure to resolve conflicts of interest in a manner that satisfies the government may be cause for termination of the award.

Other Mandatory Disclosures

The Non-Federal entity or applicant for a Federal award must disclose, in a timely manner, in writing to the Federal awarding agency or pass-through entity all violations of Federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the Federal award. Non-Federal entities that receive a Federal award including the terms and conditions outlined in 2 CFR 200, Appendix XII—Award Term and Condition for Recipient Integrity and Performance Matters are required to report certain civil, criminal, or administrative proceedings to SAM. Failure to make required disclosures can result in any of the remedies for noncompliance described in 2 CFR §200.339, including suspension or debarment.

Reporting Matters Related to Recipient Integrity and Performance

If the total value of your currently active grants, cooperative agreements, and procurement contracts from all Federal awarding agencies exceeds \$10,000,000 for any period of time during the period of performance of this Federal award, then you as the recipient during that period of time must maintain the currency of information reported to the [System for Award Management](#) that is made available in the designated integrity and performance system

(currently the [Federal Awardee Performance and Integrity Information System](#)) about civil, criminal, or administrative proceedings in accordance with [Appendix XII to 2 CFR 200](#).

H. Other Information

Payments

Domestic recipients are required to register in and receive payment through the U.S. Treasury's Automated Standard Application for Payments (ASAP), unless approved for a waiver by the Service program. Foreign recipients receiving funds to a final destination bank outside the U.S. are required to receive payment through the U.S. Treasury's International Treasury Services (ITS) System. Foreign recipients receiving funds to a final destination bank in the U.S. are required to enter and maintain current banking details in their SAM.gov entity profile and receive payment through the Automated Clearing House network by electronic funds transfer (EFT). The Bureau will include recipient-specific instructions on how to request payment, including identification of any additional information required and where to submit payment requests, as applicable, in all Notices of Award.

PAPERWORK REDUCTION ACT STATEMENT:

OMB Control Number: 1018-0100

Per the Paperwork Reduction Act of 1995 (PRA; 44 U.S.C. 3501 et seq.), the U.S. Fish and Wildlife Service (Service) collects information in accordance with program authorizing legislation to conduct a review and select projects for funding and, if awarded, to evaluate performance. Your response is required to obtain or retain a benefit. We may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Privacy Act Statement: This information collection is authorized by 5 U.S.C. 5701 et seq. The information provided will be used to administer all Service financial assistance programs and activities including to: (1) determine eligibility under the authorizing legislation and applicable program regulations; (2) determine allowability of major cost items under the Cost Principles at 2 CFR 200; (3) select those projects that will provide the highest return on the Federal investment; and (4) assist in compliance with laws, as applicable, such as the National Environmental Policy Act, the National Historic Preservation Act, and the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970. This information may be shared in accordance with the Privacy Act of 1974 and the routine uses listed in INTERIOR/DOI-89, Grants and Cooperative Agreements: FBMS - 73 FR 43775 (July 28, 2008). Furnishing this information is voluntary; however, failure to provide all requested information may prevent the Service from awarding funds.

Estimated Burden Statement: We estimate that it will take you on average about 40 hours to complete an initial application, about 3 hours to revise the terms of an award, and about 8 hours per report to prepare and submit financial and performance reports, including time to maintain records and gather information. Actual times for these activities will vary depending on program-specific requirements. Direct comments regarding the burden estimates or any other aspect of the specific forms to the Service Information Clearance Officer, USFWS, U.S. Department of the Interior, 5275 Leesburg Pike, MS: PRB (JAO/3W), Falls Church, VA 22041-3803, or by email to Info_Coll@fws.gov.
