

Mental Health & Addiction Services Division  
Community Mental Health Program  
Residential Services

6/13/2017

Multnomah County PSRB Provider:

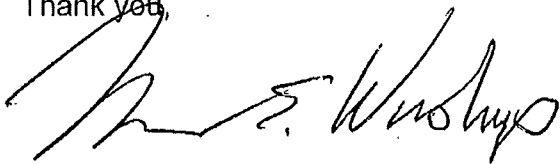

Historically, in serving individuals under PSRB Jurisdiction in Multnomah County, Residential Services has required the participating Community Mental Health Programs to provide additional information to the County for those individuals who they are planning to place in the County, who may add additional risks to community safety. This group includes individuals:

- Whose Instance Offense was of a Capital nature or serious Arson
- Who have a sex offence history, even if not the Instance Offense
- Who have more than two revocations of their Conditional Release
- Who have problematic responses to medication changes which would warrant additional monitoring.

For these individuals, we require a copy of the community provider's psychiatric evaluation and QMHP evaluation prepared for the Board, along with a letter that would address how the provider will mitigate these potential risks to the community. These documents shall be sent to your assigned Residential Specialist who will forward them to Neal Rotman, the Senior Program Manager of Mental Health and Addictions for his approval prior to scheduling a screening at the residential site. That approval may require the submission of ongoing updates from the program relating to the status of the risk factors involved.

If you have any questions, do not hesitate to contact our assigned Residential Specialist.

Thank you,

Thomas Wirshup MA
