

Cómo verificar la velocidad de su internet

Un día antes de la evaluación, usted debe asegurar que su velocidad de internet sea lo suficientemente rápida para que su estudiante tome una evaluación en casa, siguiendo las instrucciones indicadas abajo. La velocidad recomendada es de 200 kilobits por segundo.

Si su conexión de internet se pierde mientras su estudiante toma la evaluación, sus respuestas a las preguntas de la evaluación se guardarán y su estudiante podrá reanudar la evaluación después de reconectarse a la internet e ingresar nuevamente. Si esto sucede durante una evaluación, hágale saber al maestro de su estudiante.

Siga estos pasos para verificar la velocidad de su internet:

1. Abra Chrome o Firefox y vaya a:

[Check my Speed](#) o https://bit.ly/check_my_speed

2. Seleccione "I am a student who will be taking a test remotely".

Bandwidth Diagnostic

There are variety of tests that can be conducted to determine if you have the adequate network bandwidth available. Please choose the appropriate test below for your unique situation and follow the steps.

I work for the school or district and I'd like to know how many students I can expect to test concurrently at my location.

I am a student who will be taking a test remotely.

I am a test administrator who will be proctoring an exam remotely.

Will your webcam be enabled?

Yes

No

Run Test

3. Seleccione si su estudiante estará usando una cámara web durante la evaluación remota.

4. Haga clic en "Run Test".

No

Download Speed: 48.016 Mbps Upload Speed: 14.172 Mbps

Given the current network conditions, your available bandwidth meets or exceeds the necessary requirements. (Please note: The throughput estimates include the encryption/decryption overhead for data transfer. Throughput estimates change as the network conditions change and can vary from run to run.)

Run Test

5. La prueba le indicará si su velocidad tiene la rapidez suficiente.
