

# Oregon Health Education Standards and Performance Indicators (Grades K-12)

## Color Coded by Topic Categories - Table

The mission of the Oregon Department of Education is to foster equity and excellence for every learner through collaboration with educators, partners, and communities.

Health Education Standards help define the knowledge and skills students will need throughout their K-12 experience. Standards also provide consistency in what is taught to students across our state to ensure equity in education.

In order to provide context and make the number of standards easier to manage, Oregon Department of Education Health and Sexuality Education specialists, in partnership with a group of statewide collaborators, categorized the standards into key health categories and sub-topics. Please see also our [Oregon Health and Sexuality Education Topic Categories and Essential Questions](#) document that outlines a set of essential questions, per grade band, that are meant to serve as an umbrella over the specific grade-level standards and performance indicators that exist for that category. Performance indicators are sorted into tables, by the following Health Education Anchor Standards:

- Standard 1: Students will comprehend concepts related to health promotion and disease prevention to enhance health.
- Standard 2: Students will analyze the influence of family, peers, culture, media, technology, and other factors on health behaviors.
- Standard 3: Students will demonstrate the ability to access valid information, products, and services to enhance health.
- Standard 4: Students will demonstrate the ability to use interpersonal communication skills to enhance health and avoid or reduce health risks.
- Standard 5: Students will demonstrate the ability to use decision-making skills to enhance health.
- Standard 6: Students will demonstrate the ability to use goal-setting skills to enhance health.
- Standard 7: Students will demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks.
- Standard 8: Students will demonstrate the ability to advocate for personal, family, and community health.

## Topic Categories, Sub Topics, & Color Coding

Topic Categories	Color & Category Code	Sub-topics
<b>Affirming Identities and Anti-Oppression (AIAO)</b>	AIAO	<ul style="list-style-type: none"> <li>- Advocacy for self, others, and safe environments</li> <li>- Understanding of systemic oppression that negatively impacts health and wellbeing (e.g. harm from racism, sexism, classism, ableism, heterosexism, cissexism, sizeism, ageism, antisemitism, colonization, xenophobia, etc.)</li> <li>- Recognizing, respecting, and affirming personal and cultural identities (race, ethnicity, gender identity, sexual orientation, socio-economic class, body size, age, physical and intellectual ability, citizenship status, spiritual and religious beliefs, etc.)</li> </ul>
<b>Wellness and Health Promotion (WHP)</b>	WHP	<ul style="list-style-type: none"> <li>- Understanding the dimensions of health and wellbeing</li> <li>- Developing health literacy</li> <li>- Promoting access to health services, resources, and information</li> <li>- Communicable disease prevention</li> </ul>
<b>Alcohol, Tobacco, and Other Drug Use Prevention (ATOD)</b>	ATOD	<ul style="list-style-type: none"> <li>- Substance use and abuse prevention and harm reduction</li> <li>- Accessing information and health services about addiction</li> </ul>
<b>Social, Emotional, and Mental Health (SEM)</b>	SEM	<ul style="list-style-type: none"> <li>- Processing feelings and emotions</li> <li>- Mental health promotion and support (e.g. stress)</li> <li>- Developing social skills</li> </ul>
<b>Healthy Relationships and Violence Prevention (HRVP)</b>	HRVP	<ul style="list-style-type: none"> <li>- Bullying prevention and bystander advocacy</li> <li>- Healthy and unhealthy friendships</li> <li>- Healthy and unhealthy romantic and sexual relationships</li> <li>- Healthy and unhealthy family relationships</li> <li>- Communication strategies within relationships</li> <li>- Setting boundaries and understanding consent</li> <li>- Child abuse prevention</li> <li>- Communication with and reporting violence or abuse to trusted adults</li> </ul>

Topic Categories	Color & Category Code	Sub-topics
<b>Growth and Development (GD)</b>	<b>GD</b>	<ul style="list-style-type: none"> <li>- Developing body literacy</li> <li>- Physical, social, and emotional changes of puberty</li> <li>- Medically accurate, inclusive reproductive anatomy and physiology (LGBTQ2SIA+ inclusive)</li> <li>- Sexual response cycle and definitions of sexual activity (LGBTQ2SIA+ inclusive)</li> <li>- Signs, symptoms, and stages of pregnancy (LGBTQ2SIA+ inclusive)</li> <li>- Positive identity development (race, ethnicity, gender identity, sexual orientation, socio-economic class, body size, age, physical and intellectual ability, citizenship status, spiritual and religious beliefs, etc.)</li> <li>- Body image and sense of self</li> <li>- Identifying personal values &amp; beliefs</li> </ul>
<b>Sexual Health Promotion (SHP)</b>	<b>SHP</b>	<ul style="list-style-type: none"> <li>- Personal Hygiene Strategies</li> <li>- Communicable disease, STI, and HIV/AIDS Prevention</li> <li>- Methods for preventing unwanted pregnancy</li> <li>- Pregnancy and parenting healthcare</li> <li>- Sexual decision making (LGBTQ2SIA+ inclusive)</li> <li>- Access and information about sexual healthcare services</li> </ul>
<b>Safety and First Aid (SFA)</b>	<b>SFA</b>	<ul style="list-style-type: none"> <li>- Environmental health (transportation, unsafe objects, sun exposure, natural disasters, etc.)</li> <li>- All risks to personal health and safety, unrelated to interpersonal violence</li> </ul>
<b>Nutrition and Physical Activity (NPA)</b>	<b>NPA</b>	<ul style="list-style-type: none"> <li>- Understanding physical health and maintaining an active lifestyle</li> <li>- Relationship between nutrition and health</li> <li>- Accessing information and health services about disordered eating</li> </ul>
