

Forest Management Plan Draft Goals

August 4, 2021

ODF has developed a set of draft goals to guide development of the FMP. The goals will enable ODF to provide the economic, environmental, and social values required of state forests over time. The goals are currently in draft form and the agency is seeking input on the goals internally and with stakeholders and the public. The FMP is being developed alongside a draft HCP that will form the basis for many of the strategies.

Resource Type	Goal
Forest Health	Ensure healthy, sustainable, and resilient forest ecosystems that over time help achieve environmental, social, and economic goals to benefit all Oregonians.
Climate Change	Lead by example in demonstrating climate-smart forest management that supports climate adaptation, mitigation, and the achievement of forest resource goals.
Wildfire	Mitigate the risk of wildland fire effects on forest production, wildlife habitat, landscape function and to support wildfire resilience of local communities.
Wildlife	Maintain, protect, and enhance functional and resilient systems and landscapes that provide the variety and quality of habitat types and features necessary for long-term persistence of native wildlife species.
Aquatics & Riparian	Maintain, protect, and restore dynamic, resilient, and functioning aquatic habitats that support the life history needs of a full range of aquatic and riparian-dependent fish and wildlife species.
Aquatics & Riparian	Maintain and protect forest drinking water sources that provide high quality drinking water for private and public domestic use.
Pollinators and Invertebrates	Provide suitable habitats across the landscape that contribute to maintaining or enhancing native, sensitive, and endangered pollinator and invertebrate populations.
Plants	Maintain understory vegetation representing a diversity of native vegetation associations and seral stages across the landscape including sensitive and endangered plant populations.
Timber Production	Provide sustainable and predictable production of forest products that generate revenues and jobs for benefit of the state, counties, local taxing districts and communities.
Timber Production	Manage Common School Forest Lands to secure the greatest permanent value to the people of the State of Oregon and generate long-term revenues to the Common School Fund.
Forest Carbon	Contribute to Oregon's carbon stores within State Forest lands.

Forest Management Plan Draft Goals

August 4, 2021

Air Quality	Maintain and protect healthy air quality standards.
Soil	Maintain, protect, and enhance soils.
Recreation, Education, and Interpretation	Provide high-quality forest recreation, interpretation, and education opportunities to create meaningful and enjoyable experiences which foster appreciation and understanding of forests and contribute to community health, forest stewardship, and economic wellbeing.
Recreation, Education, and Interpretation	Manage REI infrastructure and recreational use in an environmentally sustainable manner that seeks to minimize adverse impacts to natural resources and forest ecosystems.
Cultural	<i>*under development – written comments welcome</i>
Transportation System	Manage the transportation system to facilitate the anticipated activities in a manner which provides for resource protection, transportation efficiency, safety, and sound fiscal management.
Scenic	Manage forests in ways that value scenery and forested settings that are visually appealing.
Special Forest Products	Provide opportunities to obtain special forest products.
Mining, Agriculture, Administrative Sites and Grazing	Permit mining, agricultural use, administrative sites and grazing when resource use is compatible with other forest resource goals.
