State and local government (OWN 20, 30)	3	3	2	5	2
Total	28	30	30	31	27

¹Compensable fatalities are claims, accepted by insurers, arising from a fatal occupational injury or disease that entitles workers, their survivors, or both to compensation.

Data exclude deaths of workers not subject to Oregon workers' compensation coverage, such as workers who were self-employed, worked in Oregon for out-of-state employers, city of Portland police and fire employees, or federal employees.

² North American Industry Classification System (NAICS), 2002 Edition

Note: Dashes indicate no claims were received.

Counts for 2015 are preliminary and subject to change as source data for fatalities are received throughout the year. Fatality counts for previous years are final.

Data are based on the date the Department of Consumer and Business Services received notification that the fatality claim was accepted, which may be different than the date of injury or the date of death.
