The effectiveness of Oregon OSHA's enforcement program in reducing occupational injuries and illnesses depends to a large degree on the performance of its compliance officers while inspecting Oregon workplaces. To assess the quality of work done by Oregon OSHA compliance officers, the department's Central Services Division (CSD) conducts an ongoing survey of employers for Oregon OSHA. The survey's results are given to the Legislature and help guide the training of compliance officers to improve the effectiveness of Oregon OSHA inspections.

## Methods

Employers are surveyed about inspections conducted by Oregon OSHA's safety and health compliance officers. The safety compliance officers are randomly divided into two groups and assigned to one of two three-month periods. Period one is from July 1 to Sept. 30, and period two covers Oct. 1 to Dec. 31. The Central Services Division sends surveys to every employer inspected by the safety compliance officers during their assigned period. To ensure a representative sample for health inspections, all employers inspected by health compliance officers are surveyed during the two survey periods. CSD sends the cover letter and questionnaire to the employer following the issuance of a citation (or closure of the case, if no citation). CSD asks the employer or employer's representative during the inspection to complete the survey. If a survey has not been returned after two weeks, CSD sends a reminder postcard.

The portion of the survey questionnaire reported in this publication was shortened in state fiscal year 2007 to allow space for an additional set of customer satisfaction questions required by the Department of Administrative Services.

## Results

This report covers the surveys returned for inspections that took place in the two periods from July 2014 through December 2014.

Of the total 995 questionnaires mailed out, 532 were returned (a response rate of 53.5 percent). Of these, 529 were usable. Overall, responses to questions about the skills, knowledge, and attitude of compliance officers were favorable. As shown in the following tables and charts, more than 90 percent of the responses for most questions were in categories such as "very good" and "good" or "very clear" and "fairly clear." Compliance officers were also given high ratings on a four-point scale for characteristics, including professionalism, respectfulness, responsiveness, and reasonableness.
