

Department of Consumer and Business Services

Annual Performance Progress Report

Reporting Year 2025

Published: 1/30/2026 11:11:22 PM

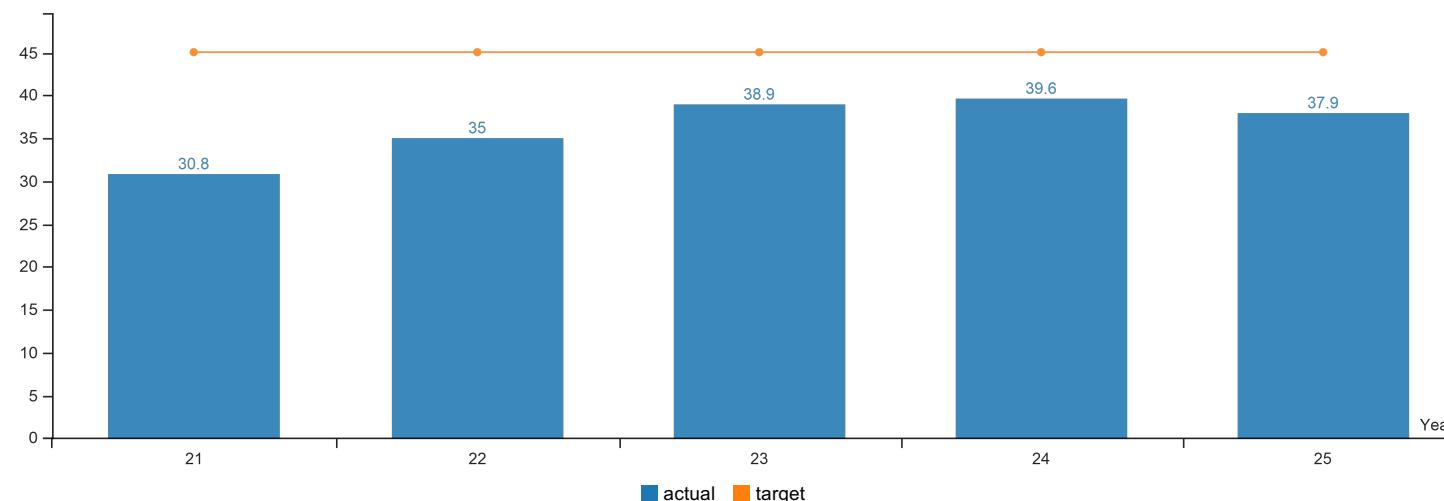

KPM #	Approved Key Performance Measures (KPMs)
1	CUSTOMER RESPONSE TIME - Average elapsed time, in days, between a customer's initial contact with office and internal owner's communication of decision.
2	EFFECTIVE REGULATION - Percent of licensees receiving a satisfactory examination score.
3	OCCUPATIONAL INJURY AND ILLNESS INCIDENCE RATES - Number of occupational injury and illness cases per 100 full-time workers.
4	TIMELY WORKER BENEFITS - Percent of injured workers who receive timely benefits from insurers.
5	ACCURATE WORKER BENEFITS - Percent of injured workers who receive accurate benefits from insurers.
6	RE-EMPLOYMENT OF INJURED WORKERS - Difference in percentage from workers with disabling injuries from those without disabling injuries.
8	WORKERS' COMPENSATION COVERAGE - Number of claims against employers without workers' compensation coverage per 1,000 accepted disabling claims.
9	WORKERS' COMPENSATION INSURER PERFORMANCE - Percentage of workers' compensation insurers meeting standards for benefit delivery and reporting.
10	UPHELD WORKERS' COMPENSATION DECISIONS - Percent of Workers' Compensation Board decisions affirmed on appeal to the Judiciary.
11	POLICY AND TECHNICAL CUSTOMER RESPONSIVENESS - Percentage of customer calls returned within one business day
12	ON-TIME WORK - Percent of timelines for key department activities that are met.
13	E-TRANSACTIONS FOR CUSTOMERS - Percent of customer transactions completed electronically.
14	CUSTOMER SERVICE - Percent of customers rating their satisfaction with the agency's customer service as "good" or "excellent": overall customer service, timeliness, accuracy, helpfulness, expertise, and availability of information.

Performance Summary		Green	Yellow	Red
Summary Stats:		= Target to -5% 84.62%	= Target -5% to -15% 7.69%	= Target > -15% 7.69%

KPM #1	CUSTOMER RESPONSE TIME - Average elapsed time, in days, between a customer's initial contact with office and internal owner's communication of decision.
	Data Collection Period: Jul 01 - Jun 30

* Upward Trend = negative result

Report Year	2021	2022	2023	2024	2025
CUSTOMER RESPONSE TIME					
Actual	30.80	35	38.90	39.60	37.90
Target	45	45	45	45	45

How Are We Doing

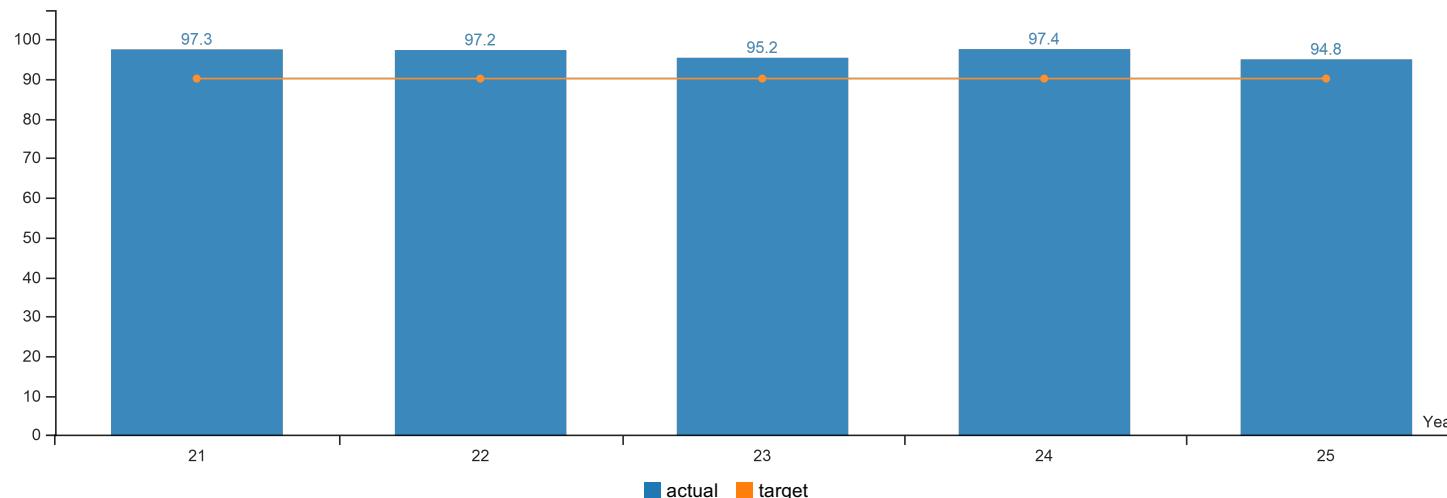

The Division of Financial Regulation's consumer advocates respond to thousands of complaints each year from consumers who believe financial and insurance companies have treated them unfairly. In fiscal year 2025, the division communicated the results of its decision an average of 38 days after initial contact with the consumer.

Factors Affecting Results

The Consumer Advocacy Unit's improved processes help handle more complaints while improving levels of performance, resulting in increased service and protection for Oregonians. For example, the unit allows consumers to file complaints online and encourages the use of e-mail and electronic responses by insurers. The Advocacy Unit has received more exposure through outreach and education efforts. As a result, complaints are often submitted to the Advocacy Unit earlier in the process, increasing the ease of resolution. Externally, changes in policies and procedures by financial and insurance companies can affect the number of complaints and the results. For example, an insurer might add a mechanism for consumers to appeal decisions, which would decrease the number of complaints the division receives because more cases would be settled between the consumer and the insurer.

KPM #2	EFFECTIVE REGULATION - Percent of licensees receiving a satisfactory examination score.
	Data Collection Period: Jul 01 - Jun 30

* Upward Trend = positive result

Report Year	2021	2022	2023	2024	2025
EFFECTIVE REGULATION					
Actual	97.30%	97.20%	95.20%	97.40%	94.80%
Target	90%	90%	90%	90%	90%

How Are We Doing

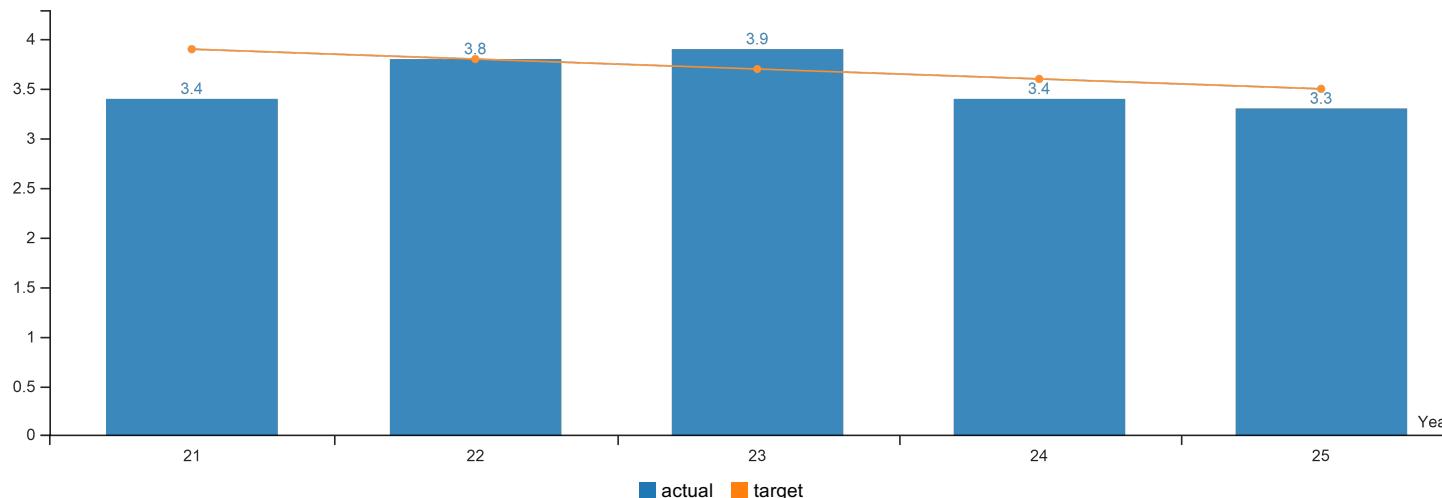

For fiscal year 2025, the Division of Financial Regulation examined financial companies (such as banks, credit unions, mortgage lenders, and payday lenders) and insurance companies and found that 95 percent were operating at or above desirable levels of compliance or safety and soundness.

Factors Affecting Results

The economy has a direct impact on the compliance or safety and soundness of our financial and insurance institutions. As economic conditions in the state evolve, the overall condition of our financial and insurance institutions may be expected to continue to change as well.

KPM #3	OCCUPATIONAL INJURY AND ILLNESS INCIDENCE RATES - Number of occupational injury and illness cases per 100 full-time workers.
	Data Collection Period: Jan 01 - Dec 31

* Upward Trend = negative result

Report Year	2021	2022	2023	2024	2025
Occupational Injury and Illness Incidence Rates Per 100 Full-time Workers					
Actual	3.40	3.80	3.90	3.40	3.30
Target	3.90	3.80	3.70	3.60	3.50

How Are We Doing

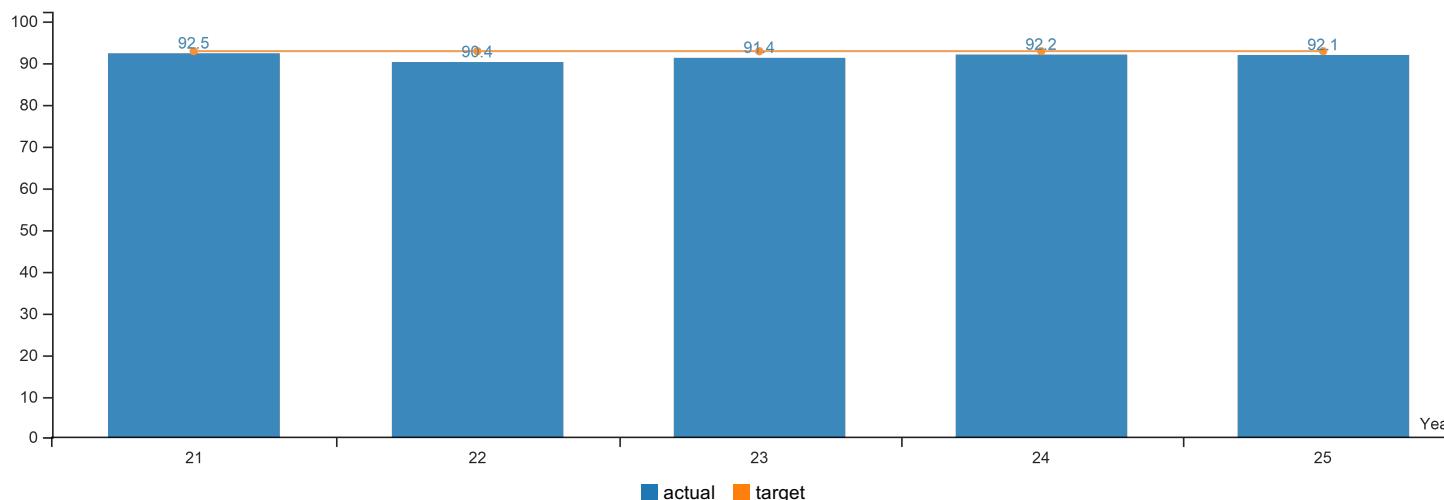

During calendar year 2024, Oregon's occupational injury and illness incidence rate was 3.3 per 100 full-time workers. This represents nearly a 20 percent rate decrease since 2014, indicating our continued success in partnering with employers to promote safer work environments in Oregon.

Factors Affecting Results

The injury and illness incidence rates are based on an annual survey of Oregon employers. The Federal Bureau of Labor and Statistics guides the survey sample selection. For the survey, approximately 4,000 Oregon employers are selected to participate and the sample size is consistent with other states. Ultimately, the safety and health practices of Oregon employers and employees affect this measure. Also, economic factors, such as the relative number of new employees in the workforce or the availability of employer resources to invest in safety training and equipment can affect the injury and illness incidence rates.

KPM #4	TIMELY WORKER BENEFITS - Percent of injured workers who receive timely benefits from insurers.
	Data Collection Period: Jul 01 - Jun 30

* Upward Trend = positive result

Report Year	2021	2022	2023	2024	2025
Percent of Timely Worker Benefits					
Actual	92.50%	90.40%	91.40%	92.20%	92.10%
Target	93%	93%	93%	93%	93%

How Are We Doing

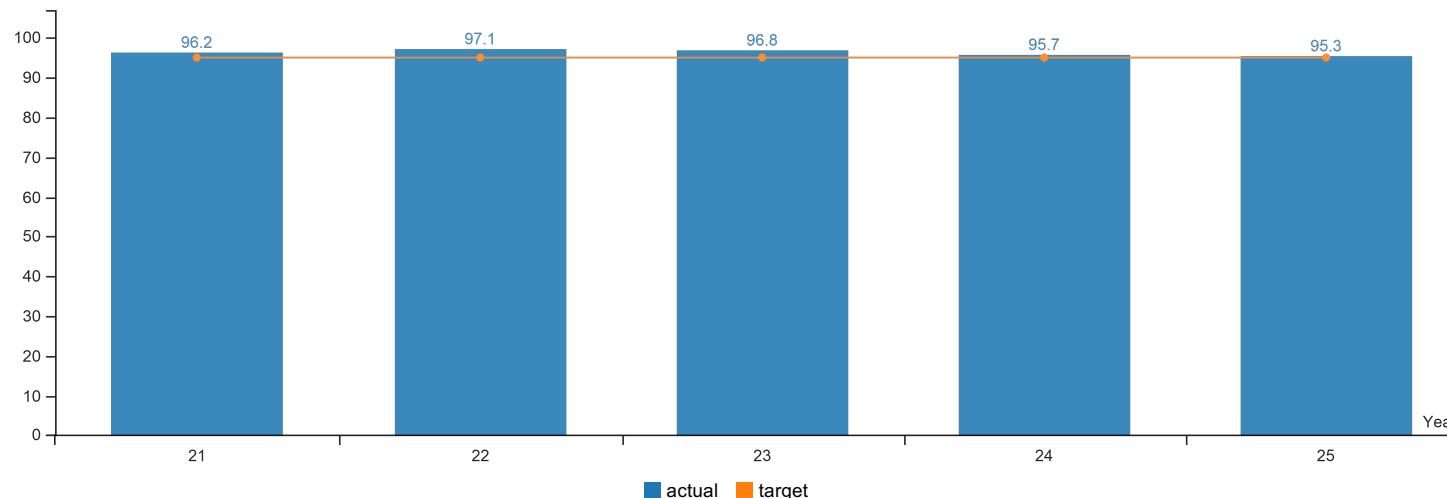

In fiscal year 2025, the department found 92 percent of the approximately 30,000 benefit payments audited by the department were made to injured workers in a timely manner.

Factors Affecting Results

Education and enforcement efforts by the department can help further improve insurer performance. For example, when the Workers' Compensation Division (WCD) finds incorrect reporting of benefit payments or untimely payments during audits, we assess civil penalties for performance below standards, provide specific training to the insurer, and may conduct follow-up audits. Factors beyond the insurer's control can impact results as well, such as when the employer delays notifying the insurer of an injury. When employers do not notify insurers in a timely fashion, this may lead to a late first benefit payment to the injured worker. To improve performance in this area, WCD continues to encourage insurers to educate their insured employers of the importance of notifying them of claims quickly to ensure workers receive their benefits on time.

KPM #5	ACCURATE WORKER BENEFITS - Percent of injured workers who receive accurate benefits from insurers.
	Data Collection Period: Jul 01 - Jun 30

* Upward Trend = positive result

Report Year	2021	2022	2023	2024	2025
Percent of Accurate Worker Benefits					
Actual	96.20%	97.10%	96.80%	95.70%	95.30%
Target	95%	95%	95%	95%	95%

How Are We Doing

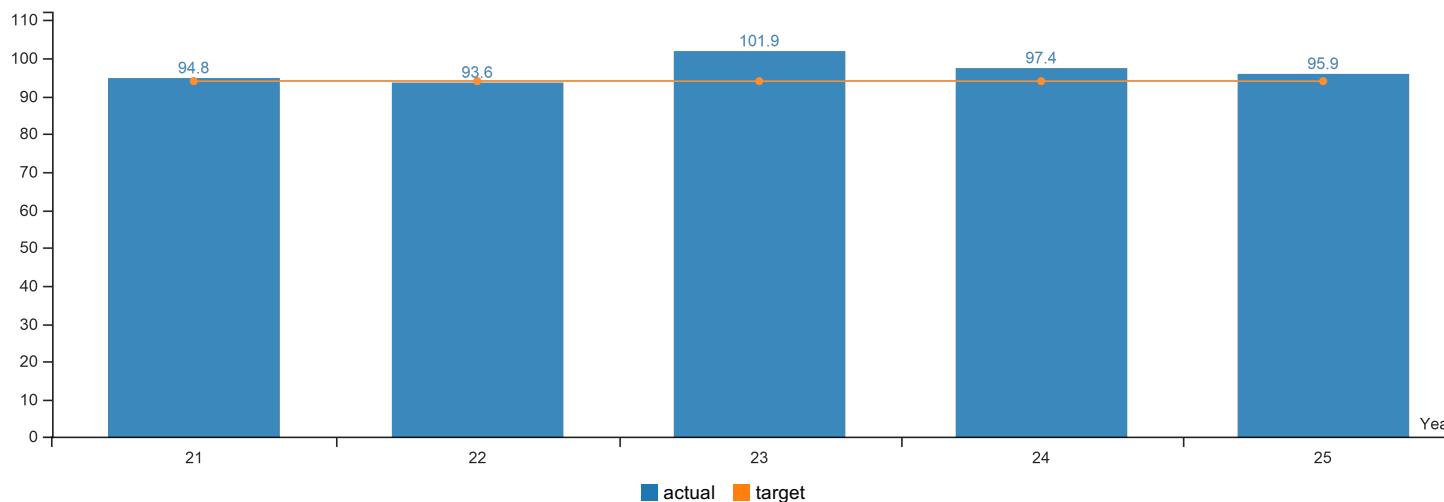

In fiscal year 2025, the department found 95 percent of the approximately 3,700 benefit payments audited by department were made to injured workers in an accurate manner.

Factors Affecting Results

The majority of factors that can impact results are within an insurer's control, such as its employees' knowledge and skills in calculating benefit payments. To improve insurer performance in this area, the Workers' Compensation Division (WCD) assesses civil penalties against insurers that do not meet performance standards, provides training on accurate benefit calculation and payment requirements for individual insurers, and may conduct follow-up audits. Additionally, WCD provides tools, such as a Web-based benefit calculator, to help companies ensure their benefit payments are accurate. With the implementation of a risk-based audit methodology, what and who WCD audits within the fiscal year may vary and can influence the results from year-to-year.

KPM #6	RE-EMPLOYMENT OF INJURED WORKERS - Difference in percentage from workers with disabling injuries from those without disabling injuries.
	Data Collection Period: Jul 01 - Jun 30

* Upward Trend = positive result

Report Year	2021	2022	2023	2024	2025
RE-EMPLOYMENT OF INJURED WORKERS					
Actual	94.80%	93.60%	101.90%	97.40%	95.90%
Target	94%	94%	94%	94%	94%

How Are We Doing

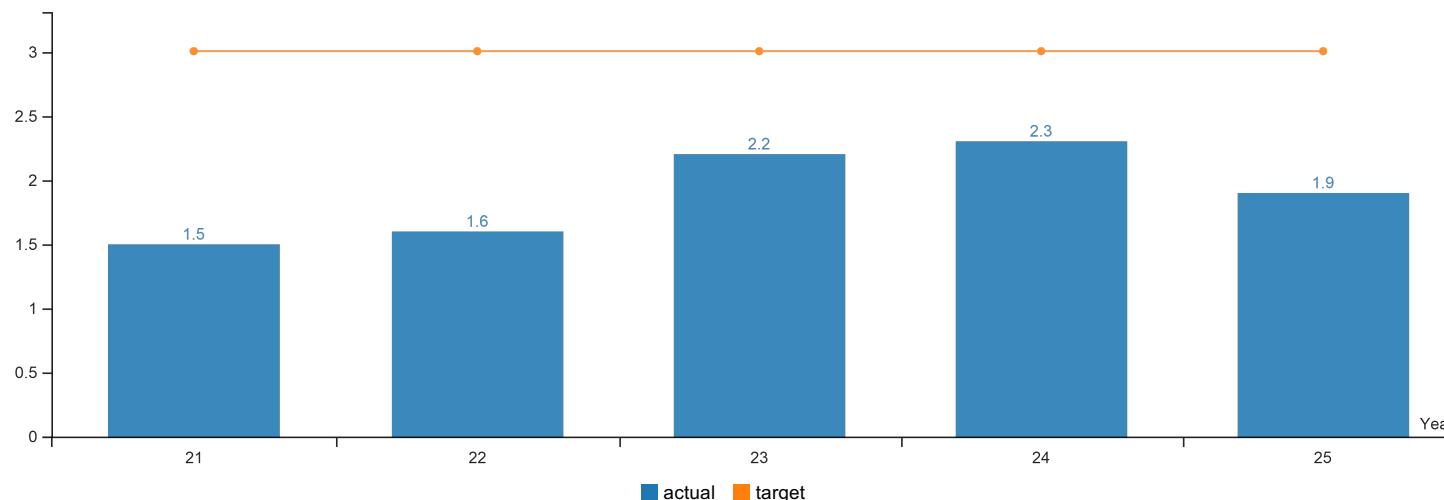

In fiscal year 2025, the rate that workers with disabling injuries were re-employed two years after their injury was 95.9 percentage points of the rate that injured workers with non-disabling injuries were re-employed. A target of 94 percentage points reflects the department's goal of getting injured workers back to regular employment quickly so they can become self-sufficient.

Factors Affecting Results

Changes in the Oregon economy or in business practices may affect this measure by reducing or increasing opportunities for job openings. Also, affecting results are changes in laws, rules, or department initiatives during the various times employees or employers trigger the use of return-to-work programs offered by the department. To see the effects department's efforts, it is necessary to track injured workers' employment over time. The data reported for fiscal year 2025 represents re-employment levels for workers who were injured in fiscal year 2022.

KPM #8	WORKERS' COMPENSATION COVERAGE - Number of claims against employers without workers' compensation coverage per 1,000 accepted disabling claims.
	Data Collection Period: Jul 01 - Jun 30

* Upward Trend = negative result

Report Year	2021	2022	2023	2024	2025
Claims Against Employers w/o WC Coverage					
Actual	1.50	1.60	2.20	2.30	1.90
Target	3	3	3	3	3

How Are We Doing

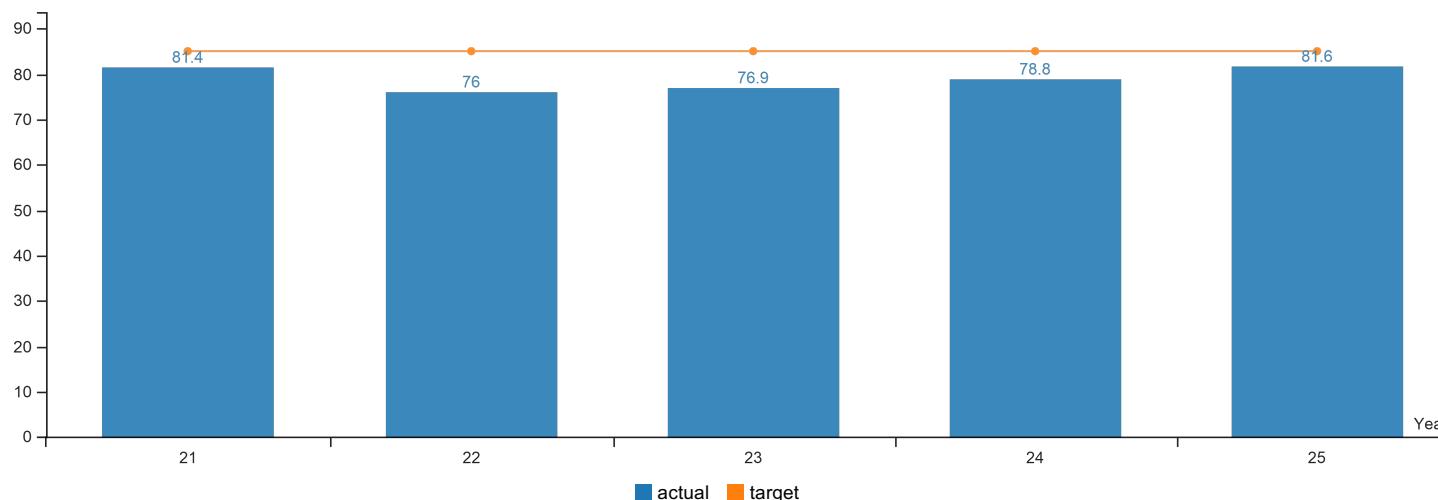

The department continues to achieve a high level of compliance with workers' compensation coverage laws, which protects both the employer and the employee in the event of a workplace injury. For fiscal year 2025, two out of every 1,000 accepted disabling injured worker claims were made against an employer without workers' compensation coverage. This indicates that, on average, 98 percent out of every 1,000 accepted disabling workers' compensation claims were filed by employees whose employers provided workers' compensation coverage.

Factors Affecting Results

Small changes in the number of noncomplying employer claims (claims from employers who do not provide workers' compensation insurance) can significantly alter the results since the number of noncomplying employer claims is so low. In the past three years, the department has recorded on average 22,429 accepted disabling claims annually, and of these less than 0.5 percent were from noncomplying employers. Also, changes in the Workers' Compensation Division (WCD) investigation processes or insurance coverage costs may affect results. Mandatory electronic reporting of workers' compensation insurance policies, which became effective July 1, 2009, gives WCD additional information that helps improve compliance of employers to purchase workers' compensation insurance coverage for Oregon workers.

KPM #9	WORKERS' COMPENSATION INSURER PERFORMANCE - Percentage of workers' compensation insurers meeting standards for benefit delivery and reporting.
	Data Collection Period: Jul 01 - Jun 30

* Upward Trend = positive result

Report Year	2021	2022	2023	2024	2025
Percent of Workers' Compensation Insurers Meeting Standards					
Actual	81.40%	76%	76.90%	78.80%	81.60%
Target	85%	85%	85%	85%	85%

How Are We Doing

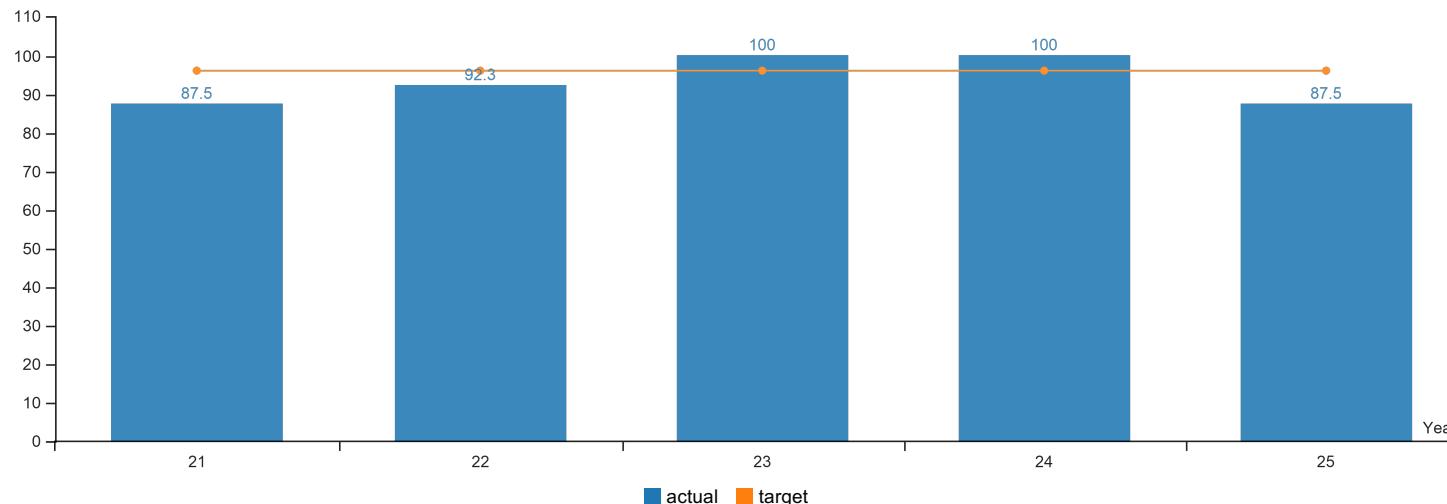

For fiscal year 2025, we found that 82 percent of workers' compensation insurers regulated by WCD were meeting performance standards in the three areas measured for this performance measure. To achieve increased protection for workers WCD focuses on thresholds of insurers' performance in three regulatory areas: 1) 90 percent of first payments to workers are paid timely; 2) 90 percent of decisions to accept or deny a claim are made timely; and 3) 80 percent of first-claim reports to the department are made timely.

Factors Affecting Results

This data is self-reported by the insurers which mean the results could be influenced by an individual insurer's reporting. There is also the risk of incorrect reporting if not properly monitored. WCD verifies the accuracy of insurer reporting during the annual audit. Ongoing education, further clarification of standards, and focused auditing and enforcement should improve insurer compliance with requirements and use audit resources more efficiently over time.

KPM #10	UPHELD WORKERS' COMPENSATION DECISIONS - Percent of Workers' Compensation Board decisions affirmed on appeal to the Judiciary.
	Data Collection Period: Jul 01 - Jun 30

* Upward Trend = positive result

Report Year	2021	2022	2023	2024	2025
Percent of WCB Decisions Affirmed on Appeal					
Actual	87.50%	92.30%	100%	100%	87.50%
Target	96%	96%	96%	96%	96%

How Are We Doing

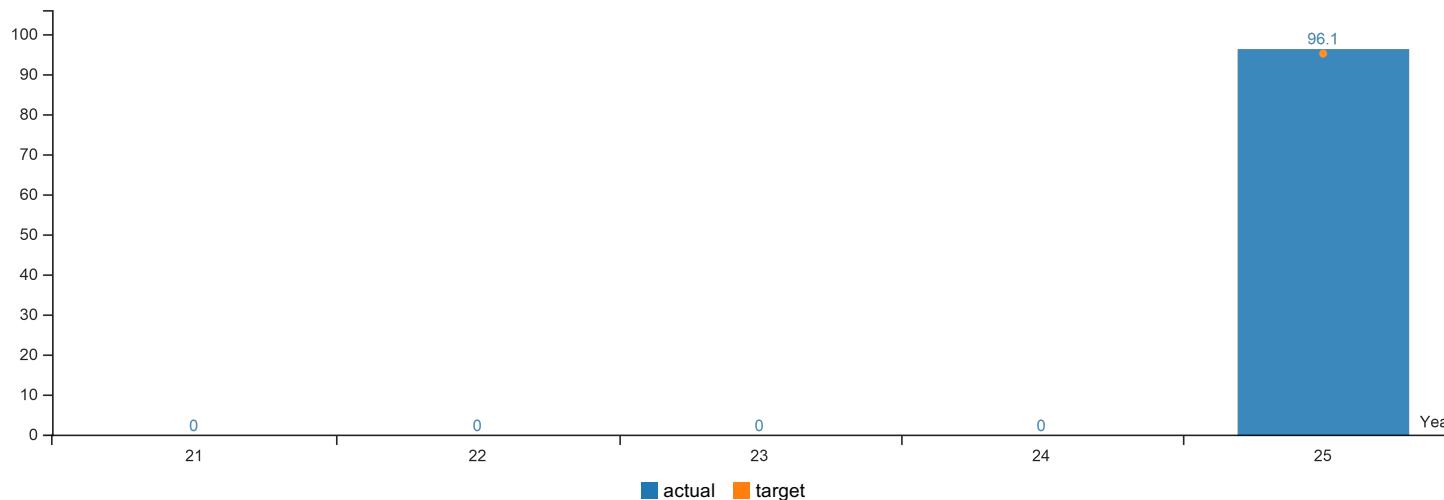

Of the 16 decisions issued by the court regarding Board orders in fiscal year 2025 there were two reversals. The overall affirmation of 87.5 percent is below the desired target of 96 percent.

Factors Affecting Results

Our goal is to achieve substantial justice by providing fair and impartial decisions that are legally sound. The Workers' Compensation Board, consisting of five members appointed by the Governor and confirmed by the Senate, provides timely and impartial resolution of disputes arising under the workers' compensation law. Over the past five years, the Board has reviewed and resolved over 200 cases per year, most of which involve appealed ALJ decisions. That number does not include decisions regarding claim disputes arising under the Board's Own Motion authority pursuant to ORS 656.278. The Board resolves approximately 20 of those cases per year. A Board decision may be appealed to the Court of Appeals if one of the parties believes the decision is not supported by substantial reason or evidence or includes an error of law. Over the last five years, parties have appealed only about ten percent of Board orders to the court.

KPM #11	POLICY AND TECHNICAL CUSTOMER RESPONSIVENESS - Percentage of customer calls returned within one business day
	Data Collection Period: Jul 01 - Jun 30

* Upward Trend = positive result

Report Year	2021	2022	2023	2024	2025
POLICY AND TECHNICAL CUSTOMER RESPONSIVENESS					
Actual					96.10%
Target					95%

How Are We Doing

This a new measure for the Building Codes Division that reflects the responsiveness of the Policy and Technical Services Team and the Housing and Building Safety Team to customer contacts. Specifically, the measure includes what percentage of customer contacts are responded to within one business day.

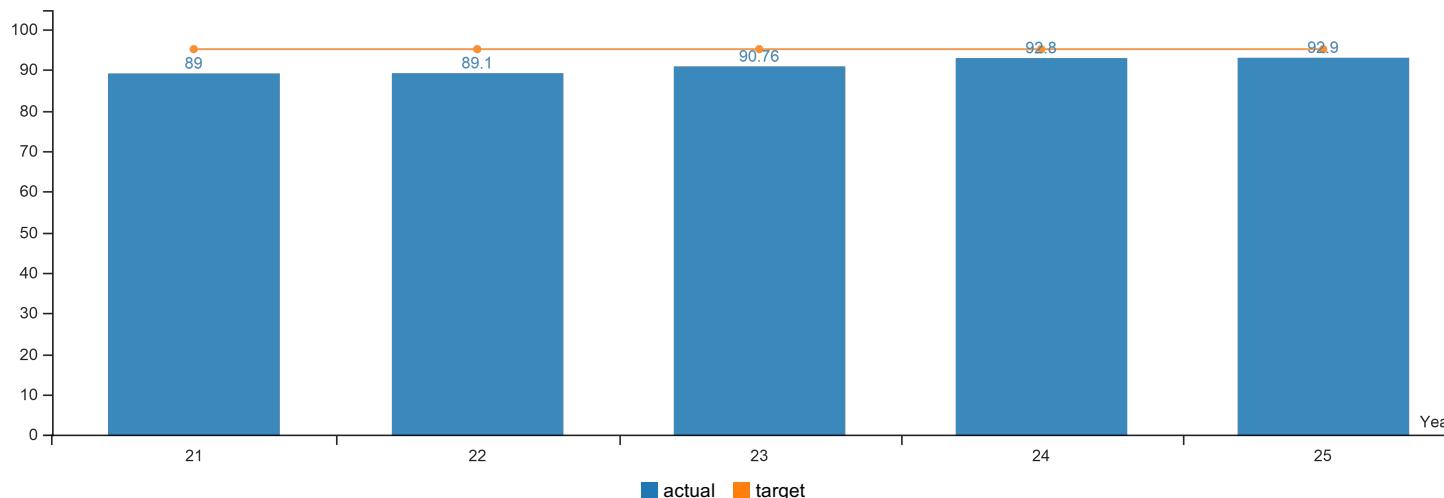

In fiscal year 2025, over 96 percent of customer calls were returned within one business day. The Policy and Technical Services team consists of 22 FTE and is responsible for adopting the state building code, helping local government and contractors navigate the code, resolving disputes about code provisions, administering seven advisory boards, and performing all of the division's rulemaking activities. The target of 95 percentage points reflects BCD's goal of providing efficient and responsive customer service.

Factors Affecting Results

Reaching customer responsiveness targets can be affected by fluctuations in staffing levels and available resources. This effort underscores how the statewide building code is successfully implemented to provide consistency across the state, because it reflects customer service work specific to ensuring everyone has access to the experts that promulgate the code and can get answers about how to interpret the code in a timely fashion, keeping construction moving and avoiding disputes and delays.

KPM #12	ON-TIME WORK - Percent of timelines for key department activities that are met.
	Data Collection Period: Jul 01 - Jun 30

* Upward Trend = positive result

Report Year	2021	2022	2023	2024	2025
Percent of DCBS Timelines Met					
Actual	89%	89.10%	90.76%	92.80%	92.90%
Target	95%	95%	95%	95%	95%

How Are We Doing

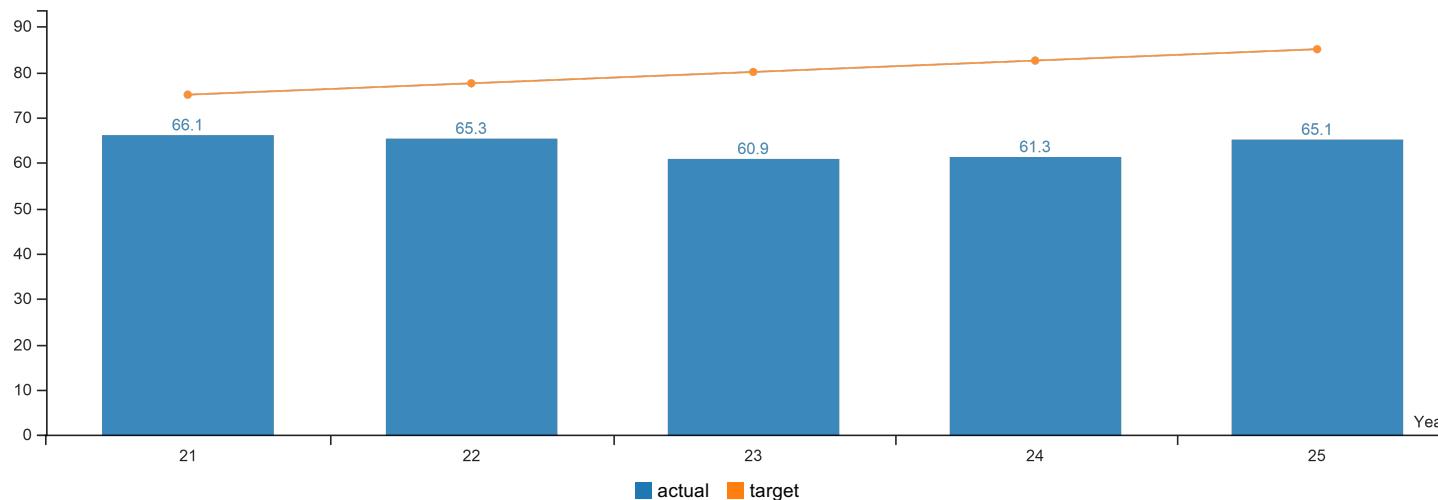

DCBS has maintained high performance levels by continuing to streamline processes and expand use of technology. In fiscal year 2025, we met our timelines for key department activities 93 percent of the time.

Factors Affecting Results

Reaching our targets can be challenging because in many cases we hold ourselves to a higher standard than what is required by law. There are many factors the department evaluates as a result of this data: staffing levels and available resources; clarity of our processes and ease of customer compliance; and customer completeness and follow-through. Regardless of the contributing factor, we strive to perform at high levels and take action to constantly improve our performance.

KPM #13	E-TRANSACTIONS FOR CUSTOMERS - Percent of customer transactions completed electronically.
	Data Collection Period: Jul 01 - Jun 30

* Upward Trend = positive result

Report Year	2021	2022	2023	2024	2025
Percent of Transactions Completed Electronically					
Actual	66.10%	65.30%	60.90%	61.30%	65.10%
Target	75%	77.50%	80%	82.50%	85%

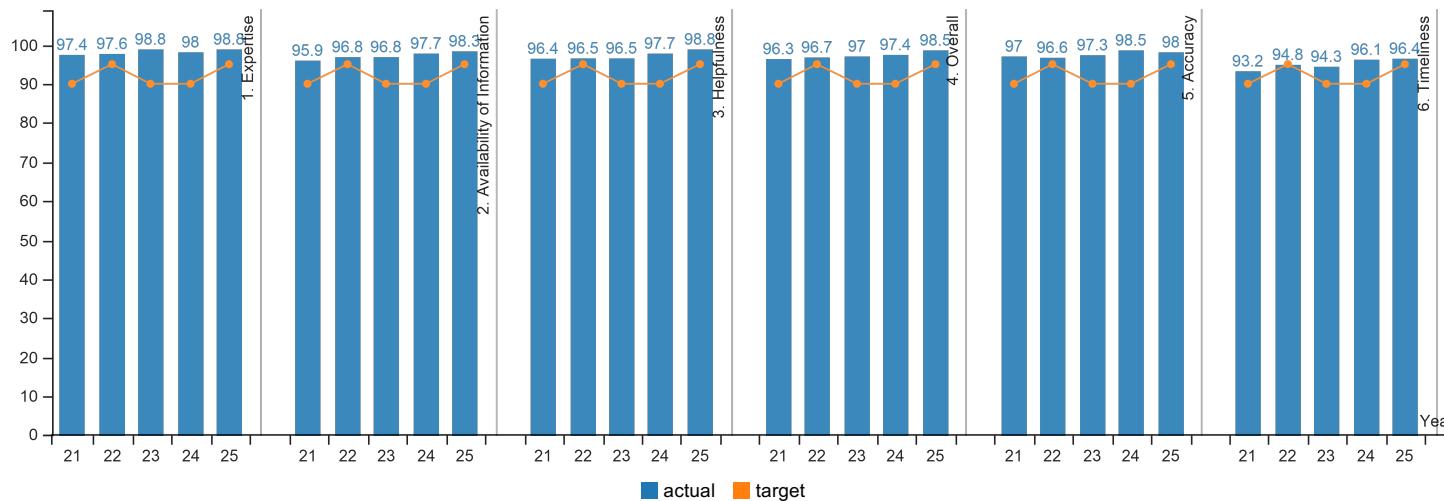

How Are We Doing

During fiscal year 2025, 65 percent of applicable transactions between businesses and consumers and DCBS were completed electronically. We continue to undertake projects to increase the types and numbers of electronic transactions for companies, workers, and other stakeholders, and we are continually expanding and improving existing systems. Many of our systems are equipped with built-in surveys and e-mail feedback to ensure they are user-friendly and meet changing needs.

Factors Affecting Results

The primary factor affecting results is customers' and businesses' willingness to conduct business electronically with DCBS. Customers' belief in the security of their online information, knowledge that services are available online, and preference for online vs. paper transactions affect the overall percent of transactions that are conducted electronically. When electronic systems are available, our customers tend to embrace them. We will continue to focus on making more services available electronically for business and consumers as funds are available to do so. With limited resources, we must balance the need to develop new electronic systems with other priorities such as maintaining existing services.

KPM #14	CUSTOMER SERVICE - Percent of customers rating their satisfaction with the agency's customer service as "good" or "excellent": overall customer service, timeliness, accuracy, helpfulness, expertise, and availability of information.
	Data Collection Period: Jul 01 - Jun 30

Report Year	2021	2022	2023	2024	2025
1. Expertise					
Actual	97.40%	97.60%	98.80%	98%	98.80%
Target	90%	95%	90%	90%	95%
2. Availability of Information					
Actual	95.90%	96.80%	96.80%	97.70%	98.30%
Target	90%	95%	90%	90%	95%
3. Helpfulness					
Actual	96.40%	96.50%	96.50%	97.70%	98.80%
Target	90%	95%	90%	90%	95%
4. Overall					
Actual	96.30%	96.70%	97%	97.40%	98.50%
Target	90%	95%	90%	90%	95%
5. Accuracy					
Actual	97%	96.60%	97.30%	98.50%	98%
Target	90%	95%	90%	90%	95%
6. Timeliness					
Actual	93.20%	94.80%	94.30%	96.10%	96.40%
Target	90%	95%	90%	90%	95%

How Are We Doing

The department's overall rating of 98.5 percent in fiscal year 2025 is a strong performance, especially since many of our customers are entities we regulate, audit, or inspect. Our ongoing focus on customer satisfaction has resulted in high ratings that have consistently performed well compared to our target since measurement began in 2007. Three of the agency's divisions provided data for the measure, based on surveys of their customers. Participating divisions were Oregon OSHA, Workers' Compensation Division, and the Division of Finance Regulation. Data from each division are combined to give an agency-wide value reflecting the divisions' relative level of service to Oregonians and the customers being served.

Factors Affecting Results

Many of the customers we survey are entities that we regulate, which could affect our results. However, even though we have a regulatory relationship with many of our customers, we have continued to perform well on this measure. Further, many of our customers are individuals we are helping with complaints, and the outcome of the complaint can influence how the customer rates our service. We try to mitigate this effect by managing expectations and making it a priority to do everything we can to provide customers with a high level of service, even if the customer may not get the desired outcome. The response rate for these surveys can also impact results. We encourage our customers to provide us with feedback by responding to our surveys, but the percent of customers who respond to surveys is often low.
