

Child Safety in Foster Care Independent Review

External Advisory Committee

Welcome note to External Advisory Committee:

Good morning,

Thank you for your willingness to participate in the external advisory committee for the child safety in foster care independent review. We have selected you for this external advisory committee for your expertise, commitment to children and your experience with child foster care services and the system. Your participation will guide the independent reviewer toward a comprehensive independent assessment with meaningful recommendations for improvement.

As an essential task in our first meeting, we ask for your assistance with clearly setting out the priorities and focus for the committee. We do expect to gather together once in December and twice in January. This committee's focus is primarily as advisor, support and sounding board to the child foster care services independent third party contractor; DAS Procurement Services posted the contract opportunity on December 2nd and we look forward to reviewing proposals mid-December.
