Best Practices for Finding Qualified Workers

How can you get started hiring employees with disabilities? Here are some ideas:

1. Learn about local available resources for training, awareness, and support.
2. Create opportunities for job shadowing.
3. Conduct informational interviews.
4. Host a Disability Mentoring Day.
5. Participate in National Disability Employment Awareness Month.
6. Embed disability components into training for HR and new employees, and include disability in diversity training.
7. Participate in job fairs.
8. Create internships.
10. Connect with Vocational Rehabilitation Agencies in your state and work with them on how you can participate; distribute position announcements to them.
