(3) ELIGIBILITY FOR MENTAL RETARDATION.

(a) A history demonstrating mental retardation must be in place by the individual's 18th birth date. Diagnosing mental retardation is done by measuring intellectual functioning and adaptive behavior as assessed by standardized tests administered by a qualified professional as described in section (2) of this rule.

(A) Mental retardation is defined as IQ's under 70 with significant impairment in adaptive behavior directly related to mental retardation. Individuals with an IQ pattern of 70 to 75 with significant impairment to adaptive behavior as defined in OAR 411-320-0020 directly related to the issues of mental retardation may be considered as having mental retardation.

(B) For individuals who have a consistent pattern of IQ results of 65 and under, no adaptive behavior assessment as,

described in section (10) of this rule, may be needed if current documentation continues to support eligibility.

(C) Verification of mental retardation for individuals with IQ patterns of 66-75 require an adaptive behavior assessment as described in section (10) of this rule indicating significant impairment in adaptive behavior as defined in OAR 411-320-0020.

(b) Eligibility for mental retardation must include all historical information and requires documentation of significant impairment in adaptive behavior as defined in OAR 411-320-0020.

(A) The adaptive impairments cannot be primarily attributed to mental or emotional disorders, sensory impairments, substance abuse, personality, disorder, learning disability, or ADHD.

(4) ELIGIBILITY FOR OTHER DEVELOPMENTAL DISABILITIES.

(a) A history of a developmental disability other than mental retardation must be in place prior to the individual's 22nd birth date. IQ scores are not used in verifying the presence of a non-mental retardation developmental disability. Diagnosing a developmental disability requires a medical or clinical diagnosis of a developmental disability with significant impairment in adaptive behavior, as defined in OAR 411-320-0020, related to the diagnosis.

(A) The disability must have originated in and directly affect the brain; and

(B) The individual must require supports similar to those required by individuals with mental retardation.

(b) Eligibility for developmental disabilities must include all historical information and requires documentation of significant impairment in adaptive behavior as defined in OAR 411-320-0020.

(A) The adaptive impairments must be primarily related to the developmental disability and cannot be primarily attributed to mental or emotional disorders, sensory impairments, substance abuse, personality disorder, learning disability, or ADHD.

(B) The condition or impairment must be expected to last indefinitely.

(5) ELIGIBILITY FOR CHILDREN 5 YEARS OF AGE OR YOUNGER.

(B) Receptive and expressive language;

(C) Learning;

(D) Mobility; and

(E) Self-direction; OR

(d) The condition or impairment must be expected to last indefinitely.

(6) ELIGIBILITY FOR CHILDREN 6 YEARS OF AGE AND OLDER.

Eligibility for children 6 years of age and older is always provisional. This means eligibility may change in the future when new information is obtained. Eligibility documentation for children 6 years of age and older must be based on school age documents that are no more than three years old and must include:

(a) Documentation of mental retardation as described in section (3) of this rule; or

(b) A diagnosis and documentation of a developmental disability as described in section (4) of this rule

(7) ELIGIBILITY FOR ADULTS. Eligibility determination for individuals under 21 years of age must be based on information no more than three years old. Eligibility determination for individuals 21 years of age or older must be based on information obtained after the individual's 17th birth date. At or after age 18, adult evaluation instruments must be used to determine eligibility for adults. Eligibility for adults must include:

(b) If there is evidence or a history of head trauma, significant mental or emotional disorder, or substance abuse, then a clinical impression by a qualified professional regarding how the individual's adaptive functioning may be impacted by the identified condition must be obtained in order to determine if the individual's need for support is directly related to a developmental disability and not primarily related to a head trauma, significant mental or emotional disorder, or substance abuse.

(9) REDETERMINATION OF PROVISIONAL ELIGIBILITY.

(a) Eligibility for school age children must be redetermined no later than age 7.

(b) Eligibility for adult services must be redetermined by age 18 for mental retardation and by age 22 for developmental disabilities other than mental retardation.

(10) ADAPTIVE BEHAVIOR ASSESSMENT.

(a) For individuals who have a consistent pattern of IQ results of 65 and under, no adaptive behavior assessment may be needed if current documentation continues to support eligibility. However, there may be a need for an adaptive behavior assessment to verify mental retardation if there is an inconsistent IQ pattern, mental or emotional issues, sensory impairments, or substance abuse that may have an affect on cognitive functioning.

(b) IQ patterns of 66-75 require an adaptive behavior assessment indicating significant impairment in adaptive behavior as defined in OAR 411-320-0020.

(c) An informal adaptive behavior assessment may be completed for individuals who have been diagnosed with a developmental disability, who obviously have a significant impairment in adaptive behavior, and who require an adaptive behavior assessment to redetermine eligibility.

(A) A services coordinator or a trained eligibility specialist with at least two years experience working with individuals with developmental disabilities may record their observations of the adaptive behavior impairments in the individual's progress notes.

(B) A standardized measurement of adaptive behavior such as a Vineland Adaptive Behavior Scale or Adaptive Behavior Assessment System may be administered and scored by a psychologist, social worker, or other professional with a graduate degree and specific training and experience in individual assessment, administration, and test interpretation of adaptive behavior scales for individuals with developmental disabilities.

(11) SECURING EVALUATIONS. In the event that the services coordinator has exhausted all local resources to secure the necessary evaluations for an eligibility determination, SPD shall assist in obtaining additional testing if required to complete the eligibility determination.

(12) PROCESSING ELIGIBILITY DETERMINATION. The CDDP in the county of origin is responsible for making the eligibility determination.

If the review is not in the individual's favor, the individual may be required to pay back any benefits received during the review process.

(a) The CDDP must issue a notice of eligibility determination to the individual in accordance with section (14) of this rule. The notice must also include:

(A) Notification of the individual's right to receive continuing services at the same level during the eligibility review and at the request of the individual;

(B) Notification of the time frame within which the individual must request continuing services;

If an individual did not receive case management services in any county in Oregon for a period exceeding 12 calendar months, a new wait list enrollment date shall be assigned. The new wait list enrollment date must be the date the individual first meets all the criteria described in section (4)(k) of this rule.

(m) When funding and resources are available, the CDDP must facilitate selection of individuals from the comprehensive services wait list using the date of enrollment on the comprehensive services wait list. An individual in crisis according to OAR 411-320-0160(2) and in need of service must be given first consideration for comprehensive services regardless of the date of enrollment on the comprehensive services wait list.

For individuals who are expected to enroll in support services, the services coordinator must complete the initial Title XIX waiver form after the individual's 18th birth date and no more than 30 days prior to enrollment into the support services brokerage. The support services brokerage staff must assess the individual's level of care annually thereafter for continued Title XIX waiver eligibility or at anytime there are significant changes.

(x) The services coordinator must participate in the appointment of a health care representative per OAR chapter 411, division 365.

(y) The services coordinator must coordinate with other state, public, and private agencies regarding services to individuals.

If the reason for the need for the variance could not have been reasonably anticipated by the CDDP, the CDDP has 15 working days to submit the variance request to SPD. The variance request must:

(a) Document the reason the service prioritization is necessary (including any alternatives considered);

(b) Detail the specific service priorities being proposed; and

(c) Provide assurances that the basic health and safety of individuals shall continue to be addressed and monitored.

(6) FAMILY RECONNECTION. The CDDP and the services coordinator must provide assistance to SPD when a family member is attempting to reconnect with an individual who was previously discharged from Fairview Training Center or Eastern Oregon Training Center or the individual is currently receiving developmental disability services.

(a) If a family member contacts a CDDP for assistance in locating a family member they shall be referred to SPD. A family member may contact SPD directly.

(b) SPD shall send the family member an SPD form requesting further information to be used in providing notification to the individual. The form shall include the following information:

(B) If the personal representative is different from the requesting family member, the personal representative shall be contacted for permission to share the information to the requesting family member. In the event of this situation, SPD must make a good faith effort at finding the personal representative and obtaining a decision concerning the sharing of information as soon as practicable.

(g) When an individual is located, the services coordinator when the individual is enrolled in case management, or the CDDP in conjunction with the support services brokerage when the individual is enrolled in a support services brokerage, must facilitate a meeting with the individual or the individual's guardian to discuss and determine if the individual wishes to have contact with the family member.

(A) The services coordinator when the individual is enrolled in case management, or the CDDP in conjunction with the support services brokerage when the individual is enrolled in a support services brokerage, must assist the individual or the individual's guardian in evaluating the information to make a decision regarding initiating contact including providing the information from the form and any relevant history with the family member that might support contact or present a risk to the individual.

(B) If the individual does not have a guardian or is unable to express his or her wishes, the ISP team must be convened to review factors and choose the best response for the individual after evaluating the situation.

(h) If the individual or the individual's guardian wishes to have contact, the individual or ISP team designee may directly contact the family member to make arrangements for the contact.

(i) If the individual or the individual's guardian does not wish to have contact, the services coordinator must notify SPD with the information

(b) The individual receiving services or the individual's legal guardian may request a new services coordinator within the same CDDP. The CDDP must develop standards and procedures for evaluating and acting upon requests for change of services coordinators. The CDDP must terminate case management services when any of the following occur:

(A) The individual or the individual's legal representative delivers a signed written request that case management services be terminated or such a request by telephone is documented in the individual's file. (D) The individual moves out of state or to another county in Oregon. If an individual moves to another county, case management services must be referred and transferred to the new county, unless an individual requests otherwise and both the referring CDDP and the CDDP in the new county mutually

agree. In the case of a child moving into a foster home or 24-hour residential home, the county of parental residency or court jurisdiction must retain case management responsibility.

(E) An individual cannot be located after repeated attempts by letter and telephone.

(b) If an individual is determined ineligible or cannot be located, then the CDDP must issue a written notification of intent to terminate services in 30 days as well as notification of the individual's right to a hearing.

(4) TERMINATION FROM SPD PAYMENT AND REPORTING SYSTEMS. A CDDP retains responsibility for maintaining enrollment in SPD payment and reporting systems for individuals enrolled in support services until the responsibility is terminated in accordance with section (3) of this rule. 411-320-0120 Service Planning
(Amended 7/13/2009)

(1) PRINCIPLES FOR PLANNING. These rules prescribe standards for the development and implementation of plans for individuals. As such, plans for individuals must be developed in a manner that address issues of independence, integration and productivity, enhance the quality of life of the individual with developmental disabilities, and consistent with the following principles:

(a) Personal Control and Family Participation. While the service system reflects the value of family member participation in the planning process, adult individuals have the right to make informed choices about the level of participation by family members. It is the intent of this rule to fully support the provision of education about personal control and decision-making to individuals who are receiving services.

(b) Choice and Preferences. The planning process is critical in determining the individual's and the family's preferences for services and supports. The preferences of the individual and family must serve to guide the ISP team. The individual's active participation and input must be facilitated throughout the planning process.

(c) Barriers. The planning process is designed to identify the types of services and supports necessary to achieve the individual's and family's preferences, identify the barriers to providing those preferred services, and develop strategies for reducing the barriers.

(d) Health and Safety. The planning process must also identify strategies to assist the individual in the exercise of the individual's rights. This may create tensions between the freedom of choice and interventions necessary to protect the individual from harm. The ISP team must carefully nurture the individual's exercise of rights while being equally sensitive to protecting the individual's health and safety.

(e) Children in Alternate Living Situations. When planning for children in 24-hour residential or foster care services, maintaining family connections is an important consideration. The following must apply:

(A) Unless contraindicated there must be a goal for family reunification;

(B) The number of moves or transfers must be kept to a minimum; and

(C) If the placement is distant from the family, the services coordinator must continue to seek a placement that would bring the child closer to the family.

(2) RESPONSIBILITY FOR ANNUAL ISP OR ANNUAL PLAN. Individuals enrolled in SPD-funded services must have an annual ISP or Annual Plan. Plans must be developed, implemented, and authorized as follows:

(a) Persons in Foster Care, 24-Hour Residential Services, and Related Employment or Alternatives to Employment Services. A services coordinator, or the services coordinator's qualified designee, must attend and assure that an annual ISP meeting is held. The services coordinator, or the services coordinator's qualified designee, must participate in the development of the ISP for individuals enrolled in comprehensive services. ISP's for children in SPD direct contracted children's 24 hour residential services must be coordinated by SPD staff.

(A) The services coordinator must ensure that the plan for individuals in foster care or 24-hour residential services is developed and updated in accordance with state guidelines. The services coordinator must track the plan timelines and coordinate the resolution of complaints and conflicts arising from ISP discussions.

(B) At a minimum, the ISP team for an individual in services described in section (2)(a)(A) of this rule must include the individual, the individual's guardian, representatives from the 24-hour residential program, a representative from the employment or alternatives to employment program (if any), the services coordinator, any person requested by the individual, and any treatment professional requested by the individual or the ISP team on behalf of the individual.

(b) Supported Living Services. The services coordinator for an adult in supported living services and any associated employment or

alternative to employment program must ensure the development of an annual ISP. The services coordinator must attend such ISP meetings and participate in the development of an ISP in conformance with the ISP content described in section (3) of this rule.

(c) Family Support. The services coordinator must coordinate with the individual's family or the individual's legal guardian in the development of the Annual Plan for a child receiving family support services. The Annual Plan must be in accordance with OAR 411-305-0080.

(d) Comprehensive In-Home Supports. The services coordinator must coordinate with the individual, the individual's family, or the individual's legal guardian, in the development of the annual In-Home Support Plan for the individual enrolled in comprehensive in-home supports in accordance with OAR 411-330-0050(3).

(e) Long-Term Supports for Children. The services coordinator must coordinate with the individual, the individual's family, or the individual's legal guardian, in the development of the child's Annual Support Plan in accordance with OAR chapter 411, division 308.

(f) Annual Plan. For individuals not enrolled or not yet enrolled in any other SPD-funded developmental disability service, the services coordinator must ensure the completion of an Annual Plan. The Annual Plan must be completed within 60 days of enrollment into case management services, and annually thereafter if not enrolled in any other SPD-funded developmental disability service.

(A) For an adult, a written Annual Plan must be documented in the individual's record as an Annual Plan or as a comprehensive progress note and consist of:

(i) A review of the individual's current living situation;

(ii) A review of any personal health, safety, or behavioral concerns;

(iii) A summary of support needs of the individual; and

(iv) Actions to be taken by the services coordinator and others.

(B) For a child, the services coordinator must ensure the completion of a child's Annual Plan in accordance with OAR 411-305-0080.

(3) PLAN CONTENT. The services coordinator must ensure that individual plans conform to the requirements of this rule.

(a) The services coordinator must ensure that a plan for an individual in SPD-funded comprehensive services is developed and documents a person centered process that identifies what is important to and for an individual, and also identifies the supports necessary to address issues of health, behavior, safety, and financial supports. There must be documentation of an action plan or discussion record resulting from the ISP team's discussion addressing issues of conflict between personal preferences and issues of health and safety.

(b) The services coordinator must ensure that a plan developed for a child receiving SPD-funded family support services conforms to requirements of OAR chapter 411, division 305.

(c) The services coordinator must ensure that an In-Home Support Plan for adults conforms to the requirements described in OAR 411-330-0050(3).

(d) The services coordinator must ensure that a child's Annual Support Plan for long-term support conforms to the requirements in OAR 411-308-0080.

(4) PLAN FORMATS. The ISP, Annual Plan, or In-Home Support Plan developed at the annual or update meeting must be conducted in a manner specified by and on forms required by SPD. In the absence of a SPD-mandated form, the CDDP with the affected service providers may develop an ISP format that conforms to the licensing or certification service provider rule and provides for an integrated plan across the funded developmental disability service settings.

(5) PLAN UPDATES. Plans for individuals must be kept current. The services coordinator or the SPD Residential Services Coordinator for children in SPD directed contracted 24-hour residential services must ensure that a current plan for individuals enrolled in comprehensive services, long-term supports for children, or in family support services is authorized and maintained.

- (a) The plan must be kept in the individual's record.
- (b) Plan updates must occur as required by this rule and any rules governing the operation of the service.
- (c) When there is a significant change the plan must be updated.

(6) TEAM PROCESS IN COMPREHENSIVE SERVICES. Except in comprehensive in-home supports or long-term supports for children, the following applies to ISPs developed for individuals in comprehensive services:

- (a) ISPs must be developed by an ISP team. The ISP team assigns responsibility for obtaining or providing services to meet the identified needs.
 - (A) Membership on ISP teams must at a minimum conform to this rule and any relevant service provider rules.
 - (B) Unless refused by the adult individual, family participation must be encouraged.
 - (C) The individual may also suggest additional participants, friends, or significant others.
 - (D) The individual may raise an objection to a particular person. When an individual raises objections to a person, the ISP team must attempt to accommodate the objection while allowing participation by agency representatives.

- (b) Plans developed by an ISP team must utilize a team approach and work toward consensus for a meaningful plan for the individual.

(A) No one member of the ISP team has the authority to make decisions for the team except as agreed to on the ISP.

(B) When consensus cannot be achieved, majority agreement shall prevail. For purposes of the ISP team process and for the reaching majority agreement, representatives from each service provider agency, the individual's family, the CDDP, or advocacy agencies shall be considered as one member.

(C) The individual or the individual's legal representative retains the right to consent to treatment and training or to note any specific areas of the plan that they object to and wish to file a complaint.

(D) The ISP team members must keep the team informed whenever there are significant needs or changes, or there is a crisis or potential for a crisis. The services coordinator must be notified in all such instances.

411-320-0130 Site Visits and Monitoring of Services

(Amended 7/13/2009)

(1) VISITS TO SPD LICENSED OR CERTIFIED RESIDENTIAL SERVICE PROVIDER SITES. The CDDP must ensure that regular visits responding to SPD questions are conducted at each child or adult foster home and each 24-hour residential program site licensed or certified by SPD to serve individuals. Visits must focus on areas addressing health and safety, behavior support, and financial services to individuals.

(a) The CDDP must establish a review schedule based on the number of individuals served in each home. Visits must be scheduled to occur as follows:

(A) Homes or sites actively serving one or two individuals must be visited at least quarterly.

(B) Homes or sites actively serving three or more individuals must be visited at least ten months each year.

(C) The CDDP must develop a procedure for the conduct of the visits to these homes.

(D) For homes or sites visited at least ten months each year, there must never be two consecutive months when a residential site is not visited.

(E) In the months the home is not visited, the CDDP may conduct a visit to an employment site or attend a school IEP meeting as a substitute for an employment visit for children who are still in school.

(F) If there are no SPD-funded individuals residing in the home, a visit by the CDDP is not required.

(b) When the service provider is a SPD-contracted and licensed 24-hour residential program for children or is a child foster proctor agency and a SPD Children's Residential Services Coordinator is assigned to monitor services, the SPD Children's Residential Services Coordinator and CDDP staff shall coordinate who shall visit the home. If the visit is made by SPD staff, SPD staff shall provide the results of the monitoring to the local services coordinator.

(c) The CDDP must document visits to the residential service and provide information concerning such visits to SPD upon request.

(2) SERVICE DELIVERY. The services coordinator must monitor the delivery of services for individuals enrolled in case management services at least annually.

(a) Every individual enrolled in case management services and not enrolled in any other funded developmental disability service must have at least an annual contact with a services coordinator.

(A) Whenever possible, annual contact must be made in person. If annual contact is not made in person, the progress note must document how contact was achieved.

(B) The services coordinator must document annual contact in an Annual Plan in accordance with OAR 411-320-0120(2)(f).

(C) If the individual has any identified high-risk medical issue including but not limited to risk of death due to aspiration, seizures, constipation, dehydration, diabetes, or significant behavioral issues, the services coordinator must maintain contact in accordance with planned actions described in the Annual Plan.

(D) Any follow-up must be documented in progress notes.

(E) The services coordinator may, to the extent resources are available, monitor the Annual Plan of other individuals.

(b) The services coordinator must monitor services for individuals enrolled in SPD-funded comprehensive services or for children enrolled in long-term supports for children. For individuals residing in 24-hour residential programs or foster care, this service monitoring may be combined with the monthly site visits as described in section (1) of this rule. For individuals receiving supported living services, service monitoring shall whenever possible occur at least once annually in the individual's home. The services coordinator must determine if services are in accordance with the ISP, In-Home Support Plan, or the child's Annual Plan and take appropriate actions to ensure services.

(A) The review of plans for individuals must include the following:

(i) Consideration of any serious events and unusual incident reports and the results of any monthly monitoring visits conducted in residential programs;

(ii) A semi-annual review of the process by which an individual accesses and utilizes funds according to standards specified in OAR 411-325-0380 for 24-hour residential services or OAR 411-360-0170 for adult foster care. The services coordinator must report any misuse of

funds to the CDDP and SPD. SPD shall determine whether a referral to the Medicaid Fraud Control Unit is warranted; and

(iii) Review of the ISP document to determine if the goals and objectives or actions to be taken by the service provider, the services coordinator, or others are implemented. The review must include a discussion of the following:

(I) Are services being provided as described in the plan document and do they result in the achievement of the identified action plans;

(II) Are the personal, civil, and legal rights of the individual protected in accordance with this rule;

(III) Are the personal desires of the individual, the individual's legal representative, or family addressed; and

(IV) Do the services provided for in the plan continue to meet what is important to and for the individual.

(B) The frequency of the monitoring must be determined by the needs of the individual. At a minimum, the results of the ISP for individuals enrolled in comprehensive services must be reviewed at least once within the first six months of the plan year and again in preparation for the annual ISP process. The frequency with which individuals presenting with serious health, safety, or behavioral risks are monitored must be based on ISP team decisions and CDDP policy. For individuals receiving supported living services, monitoring of services shall whenever possible occur at least once annually in the individual's home. Scheduled visits must be negotiated between the services coordinator, the individual, and the service provider.

(C) In monitoring the plan, the services coordinator must document his or her findings and any resulting actions in the individual's CDDP record.

(3) MONITORING FOLLOW-UP. The services coordinator and the CDDP are responsible for ensuring the appropriate follow-up to monitoring of services, except in the instance of children in a SPD direct contract 24-hour residential service when SPD may conduct the follow-up.

(a) If the services coordinator determines that comprehensive services are not being delivered as agreed in the plan, or that an individual's service needs have changed since the last review, the services coordinator must initiate action to update the plan.

(b) If there are concerns regarding the service provider's ability to provide services, the CDDP, in consultation with the services coordinator, must determine the need for technical assistance or other follow-up activities. This may include coordination or provision of technical assistance, referral to the CDDP manager for consultation or corrective action, requesting assistance from SPD for licensing or other administrative support, or meeting with the service provider executive director or board of directors. In addition to conducting abuse or other investigations as necessary, the CDDP must notify SPD when:

(A) A service provider demonstrates substantial failure to comply with any applicable licensing or certification rules for SPD-funded programs;

(B) The CDDP finds a serious and current threat endangering the health, safety, or welfare of individuals in a program for which an immediate action by SPD is required; or

(C) Any individual receiving SPD-funded developmental disability services dies. Notification must be made to SPD's Medical Director or his or her designee within one working day of the death.

(Amended 7/13/2009)

(1) **GENERAL DUTIES OF THE CDDP.** For the purpose of conducting abuse investigations and provision of protective services for adults, the CDDP is the designee of SPD. Each CDDP must conduct abuse investigations and provide protective services or arrange for the conduct of abuse investigations and the provision of protective services through cooperation and coordination with other CDDPs. If determined necessary or appropriate, SPD may conduct an investigation itself rather than allow the CDDP to investigate the alleged abuse. Under such circumstances, the CDDP must receive authorization from SPD before conducting a separate investigation.

(2) **ELIGIBILITY FOR PROTECTIVE SERVICES.** Unless otherwise directed by SPD, the CDDP must investigate allegations of abuse of individuals who are developmentally disabled and are:

- (a) Eighteen years of age or older; and
- (b) Receiving case management services; or
- (c) Receiving any SPD-funded services for individuals; or
- (d) Adults previously determined eligible for developmental disability services and voluntarily terminated from services in accordance with OAR 411-320-0100(3) and (4).

(3) **ABUSE INVESTIGATIONS.** The CDDP must have and implement written protocols that describe the conduct of an investigation, a risk assessment, implementation of any actions, and the report writing process. Investigations must be conducted in accordance with OAR 407-045-0250 to 407-045-0360.

(5) INITIAL COMPLAINTS. Initial complaints must immediately be submitted electronically, using SPD's system for reporting serious events.

(6) CONFLICT OF INTEREST. The CDDP must develop and implement procedures to ensure a thorough and unbiased investigation that is timely and avoids actual or potential conflicts of interest where a services coordinator or CDDP employee may fall within the scope of the investigation or the perception of bias on the part of the investigator or CDDP.

(7) NOTIFICATION. Upon the initiation of an investigation of an alleged abuse, the CDDP must assure the immediate notification of the individual and the individual's legal guardian or representative. The parent, next of kin, or other significant person may also be notified unless the individual requests the parent, next of kin, or other significant person not be notified about the investigation or protective services, unless specifically prohibited by rule or statute.

(8) REPORTS. SPD, or its designee, must complete an abuse investigation and protective service report according to OAR 407-045-0320. Abuse investigations and protective service reports must be maintained by the CDDP. The sections of a report that are not exempt from disclosure under the public record's law or subject to confidentiality laws must be provided to any service provider organization involved in the allegation. The CDDP must ensure that any actions to prevent further abuse listed in the report are implemented within the deadlines listed.

(C) The nature of the complaint;

(D) The name of the person making the complaint, if known;

(2) COMPLAINTS. The CDDP must address all complaints by individuals or subcontractors in accordance with CDDP policies, procedures, and these rules. Copies of the procedures for resolving complaints must be maintained on file at the CDDP offices. The complaint procedures must be available to county employees who work with individuals, individuals who are receiving services from the county and the individual's families, the individual's legal representatives, advocates, service providers, and SPD.

(a) Subcontractor Complaints. When a dispute exists between a CDDP and a subcontracted service provider regarding the terms of their contract or the interpretation of a SPD administrative rule and local dispute resolution efforts have been unsuccessful, either party may request assistance from SPD in mediating the dispute.

(A) The parties must demonstrate a spirit of cooperation, mutual respect, and good faith in all aspects of the mediation process. Mediation must be conducted as follows:

(i) The party requesting mediation must send a written request to the SPD Assistant Director, the CDDP director,

and the service provider agency director, unless other persons are named as official contact persons in the specific rule or contract under dispute. The request must describe the nature of the dispute and identify the specific rule or contract provisions that are central to the dispute.

(ii) SPD staff shall arrange the first meeting of the parties at the earliest possible date. The agenda for the first meeting shall include:

(II) Development of rules and procedures that shall be followed by all parties during the mediation; and

(III) Agreement on a date by which mediation shall be completed, unless extended by mutual agreement.

(iii) Unless otherwise agreed to by all parties:

(I) Each party shall be responsible for the compensation and expenses of their own employees and representatives; and

(B) A written statement documenting the outcome of the mediation must be prepared. This statement must consist of a brief written statement signed by all parties or separate statements from each party declaring their position on the dispute at the conclusion of the mediation process. In the absence of written statements from other parties, SPD shall

prepare the final report. A final report on each mediation must be retained on file at SPD.

(b) Contract Not Substantially Similar. A service provider may appeal the imposition of a disputed term or condition in the contract if the service provider believes that the contract offered by the CDDP contains terms or conditions that are not substantially similar to those established by DHS in its model contract. The service provider's appeal of the imposition of the disputed terms or conditions must be in writing and sent to the SPD Assistant Director within 30 calendar days after the effective date of the contract requirement.

(A) A copy of notice of appeal must be sent to the CDDP. The notice of appeal must include:

(ii) The panel must meet with the parties, consider their respective arguments, and send written recommendations to the SPD Assistant Director within 45 business days after an impasse is declared, unless the SPD Assistant Director grants an extension.

(iii) If an appeal requiring panel consideration has been received from more than one contractor, SPD may organize materials and discussion in any manner it deems necessary, including combining appeals from multiple contractors, to assist the panel in understanding the issues and operating efficiently.

(iv) The SPD Assistant Director must notify all parties of his or her decision within 15 business days after receipt of the panel's recommendations. The decision of SPD is final. The CDDP must take immediate action to amend contracts as needed to comply with the decision.

(v) Notwithstanding section (2)(b)(C) of this rule, the SPD Assistant Director has the right to deny the appeal or a portion of the appeal if, upon receipt and review of the notice of appeal, the SPD Assistant Director finds that the contract language being contested is identical to the current language in the county financial assistance agreement with SPD.

(D) The CDDP or the contractor may request an expedited appeal process that provides a temporary resolution if it can be shown that the time needed to follow procedures to reach a final resolution would cause imminent risk of serious harm to individuals or organizations.

(i) The request must be made in writing to the SPD Assistant Director. The request must describe the potential harm and level of risk that shall be incurred by following the appeal process.

(ii) SPD must notify all parties of its decision to approve an expedited appeal process within two business days.

(iii) If an expedited process is approved, SPD shall notify all parties of SPD's decision concerning the dispute within three additional business days. The decision resulting from an expedited appeal process shall be binding, but temporary, pending completion of the appeal process. All parties must act according to the temporary decision until notified of a final decision.

(c) Complaints By or On Behalf of Individuals. An individual, the individual's guardian or other legal representative, a family member, or advocate may file a complaint with the CDDP under the following conditions:

(A) An individual or someone acting on behalf of the individual must have an opportunity to informally discuss and resolve any allegation that is contrary to law, rule, policy, or that is otherwise contrary to the interest of the individual and that does not meet the criteria for an abuse investigation. Choosing an informal resolution does not preclude an individual or someone acting on behalf of the individual to pursue resolution through formal complaint processes. Any agreement to resolve the complaint must be reduced to writing and must be specifically approved by the complainant. The complainant must be provided with a copy of such agreement.

(B) A complaint may be filed regarding an inability to resolve a dispute concerning the appropriateness of services described in the service plan provided by a CDDP subcontractor or regarding dissatisfaction with services provided by the CDDP.

(i) The CDDP must follow its policies and procedures regarding receipt and resolution of a complaint.

(ii) The CMHDDP or CDDP director must provide to the complainant a written decision regarding the complaint within 30 days following receipt of the complaint.

(I) The written decision regarding the complaint must contain the rationale for the decision, and must list the reports, documents, or other information relied upon in making the decision.

(II) Along with the written decision, the complainant must also be provided a notice that the documents relied upon in making the decision may be reviewed by the individual or the person who filed the complaint.

(III) Along with the written decision, the complainant must also be provided a notice that the complainant has the right to request a review of the decision by SPD. Such notice, must be written in clear, simple language and at a minimum explain how and when to request such a review and when a final decision must be rendered by the SPD Assistant Director.

(iii) Following a decision by the CMHDDP director regarding a complaint, the complainant may request an administrative review by the SPD Assistant Director.

(I) The complainant must submit to SPD a request for an administrative review within 15 days from the date of the decision by the CMHDDP director.

(II) Upon receipt of a request for an administrative review, the SPD Assistant Director shall appoint an administrative review committee and name the chairperson. The administrative review committee shall be comprised of a representative of SPD, a CDDP representative, and a service provider who provides a similar service as the service being reviewed, i.e., residential, employment, foster care,

etc. Committee representatives must not have any direct involvement in the provision of services to the complainant or have a conflict of interest in the specific case being reviewed.

(III) The administrative review committee must review the complaint and the decision by the CMHDDP director and make a recommendation to the SPD Assistant Director within 45 days of receipt of the complaint unless the complainant and the administrative review committee mutually agree to an extension.

(IV) The SPD Assistant Director shall consider the report and recommendations of the administrative review committee and make a final decision. The decision must be in writing and issued within 10 days of receipt of the recommendation by the administrative review committee. The written decision must contain the rationale for the decision.

(V) The decision of the SPD Assistant Director is final. Any further review is pursuant to the provisions of ORS 183.484.

(d) Specific Complaints. Individuals, or the individual's guardian or legal representative may request a review of specific decisions by the CDDP, a service provider, or a state training center as follows:
