

Did you know?

eXPRS Pro Tip for DD Foster Care (FC) Providers Claiming for Multiple Dates of Service in eXPRS

Did you know ...

... that DD foster care services can be claimed for multiple dates or a date range? FC providers do not need to enter separate claims day by day.

The FC service claiming process will allow providers to enter claims for a date range when billing for foster care services. Provider do not need to create a single claim for each day separately.

That means that FC providers can claim for an entire month of service at one time for an individual, if they choose. Simply enter the first date of the service date range to be billed in the **Service Begin** field, and the last date of service in the date range in the **Service End** field, then click **CONTINUE** to create a draft claim.

PA Adj #	Client Name	SE	DHS Contract Num	Provider	Effective Date	End Date
19*****18	NBWWKFT DGAYOFJ	158	14****8	2*****0	1/1/2018	5/31/2018

Service Begin: 1/1/2018 **Service End:** 1/31/2018

Detailed instructions on how to create FC service claims can be found in the assistance guide [How to Enter Claims for Foster Care Services](#) found on the [eXPRS Help Menu](#).

Remember ... after the service has been provided, FC providers can bill by creating claims for a date range for those dates that FC services were received by the individual.
