

## **eXPRS Training Information for DD Foster Care Providers**

To support the Foster Care services transition to using the Express Payment & Reporting System (eXPRS), ODDS is creating training materials to assist Foster Care providers in using the eXPRS System.

This training will be available as a series of short video presentations available via the internet, allowing Foster Care providers to view them at their location and as often as they would like or need. Information and web links to the training videos will be made available once the videos are ready for viewing.

In addition to the video presentations, ODDS has scheduled eXPRS User Lab Sessions for Foster Care providers to attend, if so desired. These are designed as user assistance labs and no specific training presentation or curriculum will be provided. Lab attendance is voluntary.

### **eXPRS User Labs for DD Foster Care Providers**
