

INTRASTATE FUNDING FORMULA

Oregon's Older Americans Act grant award, Oregon Project Independence, and Legislatively special purpose appropriations are allocated to individual Area Agencies on Aging based on a combination of a Base Amount formula, a Land Area formula, and a Population formula on a biennial basis. OAA Sections 305(a)(2)(C) have been met, and criteria set forth in Sections 305(a)(2)(C)(i) and (ii) have been considered and factor weights in the funding formula are based upon the most current census data released.

The base amount formula allocates a predetermined amount to each area agency.

The land area formula allocates a percentage based on the square mileage of the AAA planning and service area (PSA) within Oregon's total square mileage:

- 5% of Older Americans Act award after subtracting base amount for applicable titles
- 5% of Oregon Project Independence appropriation

The method used to meet the needs for services in rural areas are percentages of the OAA allocation distribution based upon each AAA share of Oregon's total square mileage. The land area formula is used in allocating Title IIIB, IIIE and VII funds and Oregon Project Independence.

The population formula bases an agency's percentage of the grant allocation on the agency's share of population factors compared to Oregon's total for each factor. The amount allocated based on population is the total amount less allocations for base amount and/or land area where applicable.

The population factors overlap: For example, those who are 75+ are counted once in the 60+ factor and again in the 75+ factor. Those who are in poverty are counted once in the 60+ and again in this separate factor. Similarly, those who are a minority senior 65+ are counted twice (once in the 60+ and once in the factor for minority). The result is that those 75+, minority 65+, and poverty 65+ are weighted twice that of those 60+. If a senior were 75+, minority and in poverty, they would be counted in all four demographic factors.

Formula 1 (Titles IIIB, IIIC-1, IIIC-2, VIIB, and OPI)

- a. population 60 years and older, plus
- b. population 75 years and older, plus
- c. minority population 65 years and older, plus
- d. poverty population 65 years and older with incomes below 125% of federal poverty level.

Formula 2 (Title IIID)

- a. population 75 years and older, plus
- b. minority population 65 years and older, plus
- c. poverty population 65 years and older with incomes below 125% of federal poverty level.

Formula 3: (Title IIIE)

- a. population 70 years and older, plus
- b. minority population 65 years and older, plus
- c. poverty population 65 years and older with incomes below 125% of federal poverty level.

INTRASTATE FUNDING FORMULA

The number of minority older Oregonians was used in calculating the allocations for Title IIIB, IIIC, IIIE and VII. Minority plus poverty was the primary factor used in allocating Title IIID Preventive Health funds. Each funding source has a separate allocation (supportive services, congregate meals, home delivered meals, family caregiver support, elder abuse prevention, preventive health, Oregon Project Independence and when applicable, Legislative special purpose appropriations). The chart below demonstrates how the three formulas detail on page one are used to allocate the available funds.

	BIENNIAL BASE AMOUNT	LAND AREA	POPULATION FORMULA 1	POPULATION FORMULA 2	POPULATION FORMULA 3
OAA Title IIIB: Supportive Services	\$55,000	5.0%	Remaining 95%	Not used	Not used
OAA Title IIIC-1: Congregate Meals	Not Used	Not Used	100%	Not used	Not used
OAA Title IIIC-2: Home Delivered Meals	Not Used	Not Used	100%	Not used	Not used
OAA Title IIID: Preventive Health	\$3,000	Not Used	Not used	Remaining 100%	Not used
Title IIIE: Family Caregiver Support	Not Used	5.0%	Not used	Not used	Remaining 95%
Title VII: Elder Abuse Prevention	\$1,000	5.0%	Remaining 95%	Not used	Not used
Oregon Project Independence	Not Used	5.0%	Remaining 95%	Not used	Not used
Legislatively Special Purpose Appropriation	Not Used	Varies depending upon purpose of funds: General use – 5% land, 95% population; health promotion use – \$3K base and Population Formula 2.
