New information

Additions

- **Oregon 529 College Savings Plan withdrawals.** If you withdrew funds from an Oregon 529 College Savings Network plan for the enrollment or attendance at an elementary or secondary (K-12) school, you must report an addition (code 117) for the amount you previously subtracted from your income and for the earnings on the withdrawal. For more information, see “Oregon 529 College Savings Plan deposits” and Publication OR-17.
- **Repatriated foreign income.** There is a new addition if you repatriated deferred foreign income in 2018. See the “Additions” section and Publication OR-17 for more information.

Subtractions

- **Special Oregon medical subtraction.** For tax year 2018, you or your spouse must be age 65 or older on December 31, 2018 to qualify for the subtraction.
- **Oregon 529 College Savings Network and ABLE Account limits.** Contribution limits have increased to \$4,750 for taxpayers filing joint returns and \$2,375 for all others. For more information, see Publication OR-17.

Credits

- **Working family household and dependent care (WFHDC) credit.** If you are not married and you paid dependent care expenses while you attended school, these expenses may now qualify for the WFHDC credit. For more information see the instructions for Schedule OR-WFHDC-NP.
- **College Opportunity Grant Tax Credit Auction.** There was a new tax credit auction in tax year 2018. If you made a contribution to the Oregon Opportunity Grant Fund through the tax credit auction, see Publication OR-17 for additional information. If you claim this credit, don't include the amount you paid as an itemized deduction on your Oregon return. See the instructions for Schedule OR-A.
- **Bovine manure production/collection credit.** There is a new transferable tax credit available for the 2018 tax year for producers or collectors of bovine manure who use the manure as biofuel in Oregon. See Publication OR-17 for more information.
- **Expired credit.** The biomass production or collection credit expired on December 31, 2017. You can only claim this credit if you have a carryforward amount from a previous year.

Form instructions

If you have more items than will fit on a single schedule, provide the codes and amounts on additional schedules and add the total on your tax return. Include all the schedules with your Form OR-40-N or Form OR-40-P.

If you're claiming multiple items (adjustments, additions, subtractions, modifications, or credits) with the same code, report the items together. **Enter the code only once and add the claimed amounts together.**

Round all cents to the nearest dollar. For example, \$99.49 becomes \$99, and \$99.50 becomes \$100.

A list of the codes can be found at the end of these instructions in Publication OR-CODES. These instructions have explanations of the most common items. See Publication OR-17 for more details and explanations of other items.

Section 1: Adjustments (codes 002–005)

Adjustments claimed on your federal return reduce your federal taxable income. For detailed information, see Publication OR-17.

- Step 1: Complete the table in Section 1 with adjustments you claimed on your federal return that aren't listed on Form OR-40-N or Form OR-40-P. Fill in the code and both the federal and Oregon amount reported for each adjustment. Each code should only be listed once.

The federal and Oregon amounts may be different. The Oregon column is for the time you were in Oregon or the income that is attributable to Oregon. The federal column shows the amount as if you were an Oregon resident all year.

- Step 2: Fill in the total of these adjustments to federal and Oregon income. Enter these totals on Form OR-40-N or Form OR-40-P, lines 27F and 27S.

Section 2: Additions (codes 103–184)

Additions are items the federal government doesn't tax but Oregon does. For detailed information, see Publication OR-17.

- Step 1: Complete the table in Section 2 with the code, the federal amount, and the Oregon amount reported for each addition. The federal and Oregon amounts may be different. Each code should only be listed once.

- Step 2: Fill in the total of all additions to federal and Oregon income. Enter these totals on Form OR-40-N or Form OR-40-P, lines 30F and 30S.

Repatriated foreign income [code 184]. Did you repatriate deferred foreign income in 2018? If so, the income must be reported on your Oregon return, even if it wasn't actually received during the year. You must claim an addition for the amount of this income that was deducted on your federal return. For the Oregon column, you will claim an addition if you were an Oregon resident at the time you were deemed to have received the distribution or if the income is from property employed in a business, trade, profession, or occupation carried on in Oregon when you were a nonresident. See Publication OR-17 for more information.

Section 3: Subtractions (codes 300–360)

Subtractions are items the federal government taxes but Oregon doesn't. See below for information regarding commonly claimed subtractions. For detailed information, see Publication OR-17.

Step 1: Complete the table in Section 3 with the code and the federal and Oregon amounts reported for each subtraction that isn't listed on the return. The federal and Oregon amounts may be different. You can't subtract something in the Oregon column unless it is included in your Oregon income. Generally, the subtraction in the Oregon column will be less than or equal to the subtraction in the federal column. Each code should only be listed once.

Step 2: Fill in the total of all subtractions to federal and Oregon income. Enter these totals on Form OR-40-N or Form OR-40-P, lines 33F and 33S.

Federal pension income [code 307]. You may be able to subtract some or all of your federal pension included in 2018 federal income. This includes retirement benefits paid to the retiree or the beneficiary. It does not include disability payments if you have not reached the minimum retirement age. The subtraction amount is based on the number of months of federal service or points earned before and after October 1, 1991:

- **If all your months of federal service or points were before October 1, 1991,** subtract 100 percent of the taxable amount of federal pension income you reported on your federal return.
- **If you have no months of service or points before October 1, 1991,** you cannot subtract any federal pension income.
- **If your service or points occurred both before and after October 1, 1991,** subtract a percentage of the taxable federal pension income you reported on your federal return. To determine your percentage, divide your months of service or points earned before October 1, 1991, by your total months of service or points earned. Round to three places (example: $0.4576 = 45.8$ percent). Once you determine your percentage, it will remain the same year to year.

For more than one pension, figure the percentage and subtraction amount separately for each pension. Add the separate amounts together to be reported on one line of Schedule OR-ASC-NP.

Use the following worksheet to determine your subtraction amount for each column:

Federal column

- | | |
|---|----------|
| 1. Federal pension included in the federal column, Form OR-40-N or Form OR-40-P, line 15F. | 1. _____ |
| 2. Divide months of service or points earned before October 1, 1991, by total months of service or points earned. Enter your percentage here. | 2. _____ |
| 3. Multiply line 1 by line 2. Enter here and in the federal column of Section 3, using code 307. | 3. _____ |

Oregon column

- | | |

| 4. Federal pension included in the Oregon column, Form OR-40-N or Form OR-40-P, line 15S. | 4. _____ |
| 5. Your percentage from line 2. | 5. _____ |
| 6. Multiply line 4 by line 5. Enter here and in the Oregon column of Section 3. | 6. _____ |

Federal education credits (tuition and fees deduction) [code 308]. *Note: This deduction was expired at the time this publication was printed. If Congress didn't reinstate this deduction, you aren't allowed a tuition and fees deduction for Oregon.* Did you claim the American Opportunity or Lifetime Learning credit on your federal return? If so, you may qualify for this subtraction if you weren't allowed a federal tuition and fees deduction because you claimed the federal credit. Because Oregon does not have credits similar to the American Opportunity or Lifetime Learning credits, you can deduct the federal tuition and fees deduction on your Oregon return up to the amount you would have been allowed on your federal return. You can claim the lesser of the federal limit (\$4,000 or \$2,000, depending on your income) or your actual expenses. You can't claim the deduction if:

- You file married filing separately;
- You can be claimed as a dependent by another person;
- Your federal modified adjusted gross income is more than \$80,000 (\$160,000 if married filing jointly); or
- You already subtracted these expenses as a tuition and fees deduction on your federal return.

Federal column. In Section 3 of Schedule OR-ASC-NP, enter the amount of the federal tuition and fees deduction you would have claimed on your federal return if you hadn't claimed the federal credit. The maximum deduction you can claim is \$4,000 or \$2,000, depending on your income.

Oregon column. For the part of the year you were a nonresident, calculate your subtraction using the following formula:

$$\frac{\text{Oregon source income while a nonresident}}{\text{Total income while a nonresident}} \times \frac{\text{Qualified tuition and fees paid while a nonresident}}{\text{Total income while a nonresident}} = \text{Nonresident deduction}$$

Add the amount of qualified education expenses you paid while an Oregon resident. Enter the smaller of the results or the amount you would have deducted on your federal return, but not more than the federal limit.

Interest and dividends on U.S. bonds and notes [code 315]. Subtract interest and dividends from qualifying U.S. bonds reported on your federal return, such as interest from U.S. Series EE and I Bonds. See Publication OR-17 for a complete list of qualifying bonds and notes.

Federal column. Enter qualifying interest or dividends that you reported on line 8F or 9F of the federal column.

Oregon column. Enter qualifying interest or dividends that you reported on line 8S or 9S of the Oregon column.

Oregon income tax refund [code 325]. This subtraction is for Oregon state income tax refunds only. Do not include other local, county, or other states' tax refunds.

Federal column. Enter your Oregon state income tax refund only if you included it on line 10F of the federal column.

Oregon column. Enter your Oregon state income tax refund only if you included it on line 10S of the Oregon column.

Special Oregon medical subtraction [code 351]. If you or your spouse were age 65 or older on December 31, 2018 and have qualifying medical and/or dental expenses, you may qualify for the special Oregon medical subtraction. See the 2018 IRS Publication 502 for types of qualifying medical and dental expenses. You cannot subtract medical and dental expenses:

- For anyone under age 65;
- For dependents, regardless of their age; or
- That have already been deducted on your return.

You may not claim a subtraction if your federal adjusted gross income (AGI) exceeds \$200,000 (\$100,000 for those who file single or married filing separately). Use the special Oregon medical subtraction worksheet to determine the amount of your subtraction.

Shared expenses. Did you have medical expenses or dental expenses for more than one person? If so, you must determine which expenses belong to each qualifying taxpayer. Start by totaling all expenses for each qualifying taxpayer. If you have expenses that are for more than one person, such as insurance premiums, split the expense by the most reasonable method. For example, two qualifying taxpayers filing jointly who paid \$4,000 in insurance premiums during the year would split the expenses in half, or \$2,000 each. For more information and examples on how to split shared expenses, see Publication OR-17.

Special Oregon medical subtraction worksheet instructions

For worksheet lines 1 through 7, complete column A for yourself first and then column B for your spouse using the following instructions.

Line 1: Medical and dental expenses for each taxpayer—If you were age 65 or older on December 31, 2018, enter your total qualifying medical and dental expenses. See “Shared expenses” for information about splitting expenses, such as insurance premiums. If your medical expenses aren't included in your Oregon itemized deductions or you're claiming the standard deduction on your Oregon return, skip lines 2–4, enter the amount from line 1 on line 5, and go to line 6. If you don't have qualifying expenses or were not age 65 or older on December 31, 2018—**stop**. You don't qualify for the subtraction. Complete column B for your spouse to see if they qualify for the subtraction based on their expenses.

Line 2: Total medical and dental expenses—Enter the total medical and dental expenses you claimed as an itemized deduction (Schedule OR-A, line 1).

Line 3: Divide line 1 by line 2 and round to three decimal places. For example: 0.7308 is rounded to 0.731.

Line 4: Enter the lesser of the medical and dental expenses claimed on line 1 of your Schedule OR-A or the amount claimed on line 3 of your Schedule OR-A.

Line 5: Multiply line 3 and line 4 and round to whole dollars. For example: \$101.49 is rounded to \$101.

Line 6: Enter the maximum allowable medical subtraction for your filing status and federal AGI from the maximum allowable medical subtraction table. Don't enter more than \$1,800.

Line 7: Enter the lesser of line 5 or line 6.

Line 8: Add the amounts from line 7 column (A) and column (B). This is your special Oregon medical subtraction. Enter this amount in both the federal and Oregon columns on Schedule OR-ASC-NP, Section 3, using code 351.

Example 1: Jerry and Claudia were ages 66 and 65 on December 31, 2018. They are filing a joint nonresident return with a federal AGI of \$55,000 and Oregon source income of \$40,000. They are itemizing deductions for Oregon. In 2018, they paid \$5,700 in medical expenses that they claimed on Schedule OR-A. Of that, \$3,500 was for Jerry’s expenses, \$1,000 for Claudia’s expenses, and \$1,200 for Claudia’s mother, who they claim as a dependent. Both Jerry’s and Claudia’s expenses qualify for the special Oregon medical subtraction. Since Claudia’s mother is a dependent, her

expenses don’t qualify for the subtraction. Jerry and Claudia determine their subtraction as follows.

Special Oregon medical subtraction worksheet

	Column (A) Jerry	Column (B) Claudia
1. Medical and dental expenses for each qualifying taxpayer.	1. <u>\$3,500</u>	1. <u>\$1,000</u>
2. Total medical and dental expenses claimed (Schedule OR-A, line 1).	2. <u>\$5,700</u>	2. <u>\$5,700</u>
3. Divide line 1 by line 2 and round to three decimal places.	3. <u>0.614</u>	3. <u>0.175</u>
4. Enter the lesser of the expenses claimed on line 1 of your Schedule OR-A, or the amount on line 3 of your Schedule OR-A.	4. <u>\$4,125</u>	4. <u>\$4,125</u>
5. Multiply line 3 by line 4 and round to whole dollars.	5. <u>\$2,533</u>	5. <u>\$722</u>
6. Maximum allowable medical subtraction from the table.	6. <u>\$1,400</u>	6. <u>\$1,400</u>
7. Enter the lesser of line 5 or line 6.	7. <u>\$1,400</u>	7. <u>\$722</u>
8. Add line 7, columns (A) and (B), and enter the total. This is your special Oregon medical subtraction. Enter this amount in both the federal and Oregon columns of Section 3.	8. <u>\$2,122</u>	

Section 4: Modifications (codes 600–652)

Modifications are items that further adjust your Oregon taxable income. For detailed information, see “Additions” or “Subtractions” in Publication OR-17.

- Step 1: Complete the table in Section 4 with modifications you’re claiming that aren’t listed on the return. Fill in the code and amount claimed for each modification. Each code should only be listed once.
- Step 2: Fill in the total of all modifications. Enter this number on Form OR-40-N or Form OR-40-P, line 41.

Section 5: Standard credits (codes 802–815)

Standard credits are nonrefundable credits that can only be claimed on the current year's tax return. Credit amounts awarded and not used in the current tax year will be lost. If you have both standard credits and carryforward credits, use your standard credits first. For detailed information, see Publication OR-17.

Some Oregon credits must be multiplied by your Oregon percentage. These prorated credits are signified with a "PR" on Publication OR-CODES. This means you need to multiply your total credit by your Oregon percentage to figure the amount you can claim on your Oregon return.

- Step 1: Complete the table in Section 5 with credits you're claiming that have a code between 802–815. Fill in the code and the amount being claimed for each standard credit. Each code should only be listed once (unless you are claiming code 802 or 815 for multiple states; these should be listed on separate lines). For prorated credits, first multiply the credit amount by the Oregon percentage (Form OR-40-N or Form OR-40-P, line 35) before filling in the amount.
- Step 2: If you're claiming a credit for income taxes paid to another state on income that was also taxed by Oregon using code 802 or 815, enter that state's abbreviation in the corresponding box. If you aren't claiming this credit, leave this box blank.
- Step 3: Fill in the total of all standard credits. Enter this amount on Form OR-40-N, line 50; or Form OR-40-P, line 49.

Section 6: Carryforward credits (codes 835–871)

Carryforward credits are nonrefundable credits for which any unused portion in the current tax year may be carried forward to the following tax year. The number of years that a credit can be carried forward varies according to the carryforward rules of that credit. For detailed information, see Publication OR-17.

Some Oregon credits must be multiplied by your Oregon percentage. These prorated credits are signified with a "PR" in Publication OR-CODES. This means you need to multiply your total credit amount awarded this year by your Oregon percentage to figure the amount you can claim on your Oregon return.

- Step 1: Complete the table in Section 6 for credits you're claiming that have a code between 835–871. Fill in the carryforward codes in the order that you would like to claim the credits (usually this will be by listing the credits with earlier carryforward expirations first).

If you received the same credit in back-to-back years, or more than once in the same year, don't list the same code twice within the table. Instead, report

these credits on the same line (see Example 3). Each code should only be listed once.

List credits that are available to you even if you are not able to use them this year (see Example 4).

- Step 2: Fill in the total amount of the credit that could not be used in 2017 that was carried forward to tax year 2018, if any. Don't enter amounts used in 2017; only enter unused amounts from 2017. Enter the amount into the "Amount from prior year" column (see Example 3).
- Step 3: Fill in the credit amount you were awarded in 2018, if any, in the "Amount awarded this year" column. For prorated credits, multiply the credit amount by your Oregon percentage (Form OR-40-N or Form OR-40-P, line 35) before entering it in the "Amount awarded this year" column. Enter this amount even if this is more than the amount that can be used this year.

If the total awarded amount of your credit can be claimed in one year, enter the entire amount awarded (multiplied by your Oregon percentage, if applicable) in the "Amount awarded this year" column (see Example 2).

If the total awarded amount of your credit must be claimed over multiple years, enter only the portion that is allowed to be claimed in tax year 2018 (multiplied by your Oregon percentage, if applicable) (see Example 5).

- Step 4: Fill in the credit amount you're using this year. The "Total used this year" box can't be more than the combined total of the "Amount from prior year" and the "Amount awarded this year" boxes. This amount also can't be more than any credit limitation for that credit. Any excess credit not used in 2018 may be carried forward to the following tax year if it doesn't expire according to the carryforward rules of the credit (see Example 6).
- Step 5: Fill in the total of all carryforward credits being used. Enter this number on Form OR-40-N, line 53; or Form OR-40-P, line 52. The total of all carryforward credits can't be more than your tax reported on Form OR-40-N, line 52; or Form OR-40-P, line 51. If your carryforward credits are more than the tax reported on Form OR-40-N, line 52; or Form OR-40-P, line 51, you must reduce how much you are using on one or more of your carryforward credits. If you have more than one carryforward credit, consider using the maximum allowed on credits with earlier expirations first (see Example 6).

Example 2. In 2018, Neil and David received a \$25,000 credit for contributing to the Child Care Fund. For 2018, their tax reported on Form OR-40-P, line 51 is \$16,500. This credit is not multiplied by the Oregon percentage. Here's how they will complete the table:

Code	Amount from prior year	Amount awarded this year	Total used this year
841	\$0.00	\$25,000.00	\$16,500.00
	.00	.00	.00
	.00	.00	.00

Neil and David will carry forward \$8,500 (\$25,000–\$16,500) to tax year 2019.

Example 3. The same as example 2, except that Neil and David also contributed to the Child Care Fund in 2017. Their 2017 credit was \$10,000. They were able to use \$3,000 and carried forward \$7,000 to 2018. Here’s how they will complete the table, reporting the 2017 and 2018 credits on the same line:

Code	Amount from prior year	Amount awarded this year	Total used this year
841	\$7,000.00	\$25,000.00	\$16,500.00
	.00	.00	.00
	.00	.00	.00

They will carry forward \$15,500 [(\$7,000+\$25,000)–\$16,500] of their 2018 credit to tax year 2019.

Example 4. Valerie and Tony received a \$6,000 credit for contributing to the University Venture Development Fund in 2018. This credit is multiplied by the Oregon percentage. Their 2018 Oregon percentage reported on Form OR-40-N, line 35 is 100 percent. Their 2018 tax reported on Form OR-40-N, line 52 is \$0.00. Here’s how they will complete the table:

Code	Amount from prior year	Amount awarded this year	Total used this year
864	\$0.00	\$6,000.00	\$0.00
	.00	.00	.00
	.00	.00	.00

They will carry forward \$6,000 to tax year 2019.

Example 5. Senait installed a solar heating system for her backyard swimming pool in 2017. She was awarded a \$6,000 residential energy tax credit. The provisions of this credit limit the amount that can be used each year to \$1,500 multiplied by the Oregon percentage, plus any amount carried forward from the previous year. In 2017, Senait’s credit of \$1,500 was reduced to \$1,050 after she multiplied it by her Oregon percentage. She was only able to use \$700, so the remaining \$350 was carried forward to 2018. Her credit is \$1,500 each year for 2018, 2019, and 2020, but each year’s credit must be multiplied by her Oregon percentage for that year.

Senait was also awarded a \$500 credit for participating in the College Opportunity Grant Tax Credit Auction. This credit is not multiplied by the Oregon percentage for that year.

Her 2018 Oregon percentage reported on Form OR-40-N line 35 is 80 percent. Her 2018 tax reported on line 52 is \$3,000. Here’s how she will complete the table for 2018:

Code	Amount from prior year	Amount awarded this year	Total used this year
861	\$350.00	\$1,200.00	\$1,550.00
871	\$0.00	\$500.00	\$500.00
	.00	.00	.00

The \$1,500 residential energy credit amount allowed for 2018 is reduced to \$1,200 after being multiplied by her 2018 Oregon percentage (\$1,500 × 0.80). Senait will report \$1,200 in the “Amount awarded this year” column. She will report her prior year credit and enter \$350 in the “Amount from prior year” column (it was already prorated in the prior year). She will also list \$500 in the “Amount awarded this year” column for the college opportunity grant credit.

Because Senait’s tax is \$3,000, she is able to use the entire \$1,550 residential energy credit and the \$500 college opportunity credit. She will list these amounts in the “Total used this year” column. Senait is not able to carry forward the remaining \$300 (\$1,500–\$1,200) of her 2018 residential energy tax credit to another tax year, because the credit was prorated.

Example 6: Chad and Jolene have \$3,200 of unused child and dependent care credit originally awarded in 2015 that can be claimed in 2018. They also qualified for a 2017 residential energy credit of \$4,000, of which they may use up to \$1,500 in 2018 and \$1,000 in 2019 (multiplied by their Oregon percentage each year). Their 2018 Oregon percentage reported on Form OR-40-P, line 35 is 100 percent. Their 2018 tax reported on Form OR-40-P, line 51 is \$4,500.

Both of these credits have five-year carryforward provisions. Because the child and dependent care credit carryforward expires in 2020 before the residential energy credit carryforward expires (in 2023 for the \$1,500 that can be claimed in 2018 and 2024 for the \$1,000 that can be claimed in 2019), they will use all of the \$3,200 child and dependent care credit first. Chad and Jolene will also use \$1,300 of the \$1,500 awarded for 2018 from their 2017 residential energy credit. Here’s how they will complete the table:

Code	Amount from prior year	Amount awarded this year	Total used this year
840	\$3,200.00	\$0.00	\$3,200.00
861	\$0.00	\$1,500.00	\$1,300.00
	.00	.00	.00

Chad and Jolene are only able to use \$1,300 of the residential energy credit because their total amount used this year cannot equal more than their tax reported on Form OR-40-P, line 51 [\$4,500–(\$3,200+\$1,300)]. The remaining \$200 (\$1,500–\$1,300) of the residential energy credit that cannot be used in 2018 will be carried forward to 2019.

Section 7: Refundable credits (codes 890–895)

Refundable credits can only be claimed on the current year's tax return; however any amount that is more than your tax will be refunded to you. For detailed information, see Schedule OR-WFHDC-NP or Publication OR-17.

Some Oregon credits on your return must be multiplied by your Oregon percentage. These credits are signified with a "PR" in Publication OR-CODES. This means you need to multiply your total credit by your Oregon percentage to figure the amount you can claim on your Oregon return.

- Step 1: Complete the table in Section 7 with credits you're claiming that have a code between 890–895. Fill in the code and amount being claimed for each refundable credit. Each code should only be listed once. For prorated credits, first multiply the credit amount by the Oregon percentage (Form OR-40-N or Form OR-40-P, line 35).
- Step 2: Fill in the total of all refundable credits. Enter this amount on Form OR-40-N, line 61; or Form OR-40-P, line 60.

Publication OR-CODES

**Numeric Codes for Oregon
Adjustments, Additions, Subtractions, Modifications, and Credits**
Effective for tax year 2018

Numeric codes are required when you are claiming or reporting an adjustment, addition, subtraction, modification, or credit on Schedule OR-ASC or OR-ASC-NP. If you have multiple items that use the same code, other than a credit for income taxes paid to another state, add them together and enter the total as a single item. Include Schedule OR-ASC or OR-ASC-NP when you file your return. (**Note:** For page numbers, see the item’s listing in the Publication OR-17 Index.)
