PURPOSE: This rule provides guidance to taxpayers to determine the correct amounts of corporate activity estimated tax payments and establishes the requirements for imposing interest on underpayment of estimated tax.

1 **150-317-1310**

2 **Estimated Tax Payments: Delinquent or Underestimated Payment or Both, Constitutes**
3 **Underpayment**

4 (1) An underpayment of Corporate Activity Tax (CAT) estimated tax exists when the payments received
5 on or before a payment due date are less than the required payment due as determined under section (3)
6 of this rule.

7 (2) *Returns processed on or after January 1, 2021.* If none of the exceptions as provided in section (3) of
8 this rule are met, interest on underpayment of estimated tax is computed on the difference between the
9 lowest amount determined under section (3) of this rule and the total estimated tax payments for the
10 installment period made on or before the due date.

11 (3) *Exceptions.* Underpayment charges will not be imposed if each estimated tax payment is equal to or
12 more than 25 percent (or the appropriate percentage of tax for short periods provided in OAR 150-317-
13 1300) of any one of the following:

14 (a) For tax years beginning on or after January 1, 2020 and ending before January 1, 2021, 80 percent of
15 the tax for the tax year.

16 (b) For tax years beginning on or after January 1, 2021, 100 percent of the tax.

17 (c) For tax years beginning on or after January 1, 2021, 100 percent of the tax shown on the return for the
18 preceding tax year (after credits) provided that the preceding tax year was a period of twelve months and
19 an Oregon return showing a liability was filed for such tax year. When applying this subsection to a
20 current taxable year of less than 12 months, the tax for the preceding tax year is reduced by multiplying it
21 by the number of months in the short tax year and dividing the resulting amount by 12.

22 (d) An amount equal to 100 percent of the tax computed on annualized taxable commercial activity. For
23 purposes of this computation, tax credits available on the date of the payment may be deducted from the
24 annualized tax. An estimated or anticipated tax credit may not be used. Annualized taxable commercial
25 activity is computed by entering the taxable commercial activity on an annualized basis:

- 12 (4) *Unitary group returns.* If a unitary group CAT return is filed, any underpayment shall be computed
- 13 on a combined basis. In computing the underpayment on a combined basis, the tax and facts shown on
- 14 the returns for the preceding year must be aggregated, regardless of whether combined or separate returns
- 15 were filed.
- 16 (5) If separate returns are filed and estimated tax is paid on a combined basis, the payments and prior
- 17 year's tax may be divided between the various persons' liabilities in any manner designated by the
- 18 taxpayers.
- 19 (6) *Interest on underpayment.* When an estimated tax payment is underpaid, interest accrues on the
- 20 underpaid amount at the rate provided in OAR 150-305-0140 from the due date of the payment to the
- 21 earlier of:
- 22 (A) the date the tax is paid, or
