

Oregon Marijuana Tax Statistics: Accounting Information

*Note: Starting February 2017, the split between state and local is estimated due to the collection of state and local taxes together.

Local taxes collected by the Department of Revenue first took effect during January 2017 and were due in February 2017.

Actual state and local amounts will be known when quarterly tax returns are filed.

Note 2: Amounts are payments made by businesses during the month, rather than tax liability. Liability is determined by a tax return.

Amounts cannot be directly translated to sales made by businesses to consumers.

Retailers retain 2 percent of taxes collected to reimburse the cost of tax collection.

Payments might have been made later than when they were due.
