The claimants, Todd and Barbara Alluis, filed a claim with the state under ORS 197.352 (2005) (Measure 37) on November 30, 2006, for property located at 394 Loar Road, near Silverton, in Marion County. ORS 195.300 to ORS 195.336 (Measure 49) entitles claimants who filed Measure 37 claims to elect supplemental review of their claims. The claimants have elected supplemental review of their Measure 37 claim under Section 6 of Measure 49, which allows the Department of Land Conservation and Development (the department) to authorize up to three home site approvals to qualified claimants.

This Final Order of Denial is the conclusion of the supplemental review of this claim.

I. ANALYSIS OF CLAIM

A. Maximum Number of Home Sites for Which the Claimants May Qualify

Under Section 6 of Measure 49, the number of home site approvals authorized by the department cannot exceed the lesser of the following: three; the number stated by the claimant in the election materials; or the number described in a Measure 37 waiver issued by the state, or if no waiver was issued, the number of home sites described in the Measure 37 claim filed with the state. The

¹ The Measure 37 claim property consisted of tax lot 600, which was then 40.60 acres. After the Measure 37 claim was filed, Marion County approved a property line adjustment for this property that remapped and reconfigured the land area of tax lot 600 from 40.60 acres to 65.33 acres.

claimants have requested three home site approvals in the election material. No waiver was issued for this claim. The Measure 37 claim filed with the state describes three home sites. Therefore, the claimants may qualify for a maximum of three home site approvals under Section 6 of Measure 49.

B. Qualification Requirements

To qualify for a home site approval under Section 6 of Measure 49, the claimants must meet each of the following requirements:

1. Timeliness of Claim

A claimant must have filed a Measure 37 claim for the property with either the state or the county in which the property is located on or before June 28, 2007, and must have filed a Measure 37 claim with both the state and the county before Measure 49 became effective on December 6, 2007. If the state Measure 37 claim was filed after December 4, 2006, the claim must also have been filed in compliance with the provisions of OAR 660-041-0020 then in effect.

Findings of Fact and Conclusions

The claimants, Todd and Barbara Alluis, filed a Measure 37 claim, M132197, with the state on November 30, 2006. The claimants filed a Measure 37 claim, M06-233, with Marion County on November 30, 2006. The state claim was filed prior to December 4, 2006.

The claimants timely filed a Measure 37 claim with both the state and Marion County.

2. The Claimant Is an Owner of the Property

Measure 49 defines "Owner" as: "(a) The owner of fee title to the property as shown in the deed records of the county where the property is located; (b) The purchaser under a land sale contract, if there is a recorded land sale contract in force for the property; or (c) If the property is owned by the trustee of a revocable trust, the settlor of a revocable trust, except that when the trust becomes irrevocable only the trustee is the owner."

Findings of Fact and Conclusions:

According to the deeds submitted by the claimants, Todd and Barbara Alluis are the owners of fee title to the property as shown in the Marion County deed records and, therefore, are owners of the property under Measure 49.

Marion County has confirmed that the claimants are the current owners of the property.

3. All Owners of the Property Have Consented in Writing to the Claim

All owners of the property must consent to the claim in writing.

Findings of Fact and Conclusions:

All owners of the property have consented to the claim in writing.

4. The Property Is Located Entirely Outside Any Urban Growth Boundary and Entirely Outside the Boundaries of Any City

The Measure 37 claim property must be located entirely outside any urban growth boundary and entirely outside the boundaries of any city.

Findings of Fact and Conclusions:

The Measure 37 claim property is located in Marion County, outside the urban growth boundary and outside the city limits of the nearest city, Silverton.

5. One or More Land Use Regulations Prohibit Establishing the Lot, Parcel or Dwelling

One or more land use regulations must prohibit establishing the requested lot, parcel or dwelling.

Findings of Fact and Conclusions:

The property is currently zoned Exclusive Farm Use (EFU) by Marion County, in accordance with ORS chapter 215 and OAR 660, division 33, because the property is "agricultural land" as defined by Goal 3. Goal 3 requires agricultural land to be zoned exclusive farm use. Applicable provisions of ORS chapter 215 and OAR 660, division 33, enacted or adopted pursuant to Goal 3, generally prohibit the establishment of a lot or parcel less than 80 acres in size in an EFU zone, and regulate the establishment of dwellings on new or existing lots or parcels.

The claimants' property consists of 40.60 acres. Therefore, state land use regulations prohibit the claimants from establishing on the Measure 37 claim property the three home sites the claimants may qualify for under Section 6 of Measure 49.

6. The Establishment of the Lot, Parcel or Dwelling Is Not Prohibited by a Land Use Regulation Described in ORS 195.305(3)

ORS 195.305(3) exempts from claims under Measure 49 land use regulations:

- (a) Restricting or prohibiting activities commonly and historically recognized as public nuisances under common law;
- (b) Restricting or prohibiting activities for the protection of public health and safety;
- (c) To the extent the land use regulation is required to comply with federal law; or

(d) Restricting or prohibiting the use of a property for the purpose of selling pornography or performing nude dancing.

Findings of Fact and Conclusions

Based on the documentation submitted by the claimants, it does not appear that the establishment of the three home sites for which the claimants may qualify on the property is prohibited by land use regulations described in ORS 195.305(3).

7. On the Claimant's Acquisition Date, the Claimant Lawfully Was Permitted to Establish at Least the Number of Lots, Parcels or Dwellings on the Property That Are Authorized Under Section 6 of Measure 49

A claimant's acquisition date is "the date the claimant became the owner of the property as shown in the deed records of the county in which the property is located. If there is more than one claimant for the same property under the same claim and the claimants have different acquisition dates, the acquisition date is the earliest of those dates."

Findings of Fact and Conclusions

Marion County deed records indicate that claimant Todd Alluis acquired the property on September 10, 1980, and claimant Barbara Alluis acquired the property on June 2, 1986. Therefore, for purposes of Measure 49, the claimants' acquisition date is September 10, 1980.

The claimants acquired the Measure 37 claim property after adoption of the statewide planning goals, but before the Land Conservation and Development Commission (the Commission) acknowledged Marion County's comprehensive plan and land use regulations to be in compliance with those goals pursuant to ORS 197.250 and 197.251. At that time, the Measure 37 claim property was zoned Exclusive Farm Use (EFU) by Marion County. Marion County's EFU zone included fixed minimum acreage standards of 60 acres for property consisting of predominantly class III soils and 80 acres for property consisting of predominantly class IV soils. However, the Commission had not acknowledged that zone for compliance with the goals when the claimants acquired the property on September 10, 1980. Accordingly, the statewide planning goals, and in particular Goal 3, and ORS chapter 215 applied directly to the Measure 37 claim property when the claimants acquired it.

On October 18, 1981, the Commission acknowledged the application of Marion County's Exclusive Farm Use (EFU) zone to the Measure 37 claim property. The Commission's acknowledgement of Marion County's EFU zone confirmed that zone's compliance with Goal 3 and ORS chapter 215. Marion County's acknowledged EFU zone required 60 acres for the creation of a new lot or parcel on which a dwelling could be established on property consisting of class II or III soils and 80 acres on property consisting of class IV soils. The claimants' property consists of 40.60 acres including primarily class III and IV soils, and is developed with one dwelling. Therefore, on the claimants' acquisition date, they could not have established any home sites in the zone that was ultimately acknowledged to comply with the statewide planning goals and implementing regulations.

However, because of uncertainty during the time period between adoption of the statewide planning goals in 1975 and each county's acknowledgment of its plan and land use regulations regarding the factual and legal requirements for establishing compliance with the statewide planning goals, the 2010 Legislative Assembly amended Measure 49. SB 1049 (2010) specifies the number of home sites considered lawfully permitted, for purposes of Measure 49, for property acquired during this period unless the record for the claim otherwise demonstrates the number of home sites that a claimant would have been lawfully permitted to establish. Those amendments provide, in relevant part, that eligibility for home site approval is subject to consistency with local land use regulations in effect when the claimant acquired the subject property.

The Measure 37 claim property was subject to Marion County's EFU zone on the claimants' date of acquisition. That zone included fixed minimum acreage standards of 60 acres for property consisting of predominantly class III soils and 80 acres for property consisting of predominantly class IV soils. The Measure 37 claim property consists of 40.60 acres including primarily class III and IV soils.

Therefore, based on the analysis under SB 1049 (2010), the claimants were not lawfully permitted to establish any home sites on the Measure 37 claim property on their date of acquisition.

II. COMMENTS ON THE PRELIMINARY EVALUATION

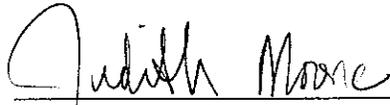

The department issued its Preliminary Evaluation for this claim on December 11, 2009. Pursuant to OAR 660-041-0090, the department provided written notice to the owners of surrounding properties. Comments received have been taken into account by the department in the issuance of this Final Order of Denial. An agent for the claimant submitted comments asserting that Todd Alluis became an owner of the property on May 24, 1979, under an assignment of contract assigning vendees' rights to Golden West Land Co. Although Todd Alluis was a partner in Golden West Land Co. at that time, he was not an owner of the property for purposes of Measure 49. Golden West Land Co. was the owner of the property on May 24, 1979.

III. CONCLUSION

Based on the analysis above, the claimants, Todd and Barbara Alluis do not qualify for Measure 49 home site approvals because the claimants were not lawfully permitted to establish the lots, parcels or dwellings on the claimants' date of acquisition.

IT IS HEREBY ORDERED that this Final Order of Denial is entered by the Director of the Department of Land Conservation and Development as a final order of the department and the Land Conservation and Development Commission under ORS 197.300 to ORS 195.336 and OAR 660-041-0000 to 660-041-0160.
