Re: Ballot Measure 37 (ORS 197.352) Claim Number M131050

Claimants: Paul and Addie Deanne Maddux

Enclosed, in regard to the above-referenced claim for compensation under Ballot Measure 37 (ORS 197.352), is the Department of Land Conservation and Development's Draft Staff Report and Recommendation.

This Draft Staff Report and Recommendation sets forth the department's evaluation of and recommendation on the claim. Oregon Administrative Rule 125-145-0100(3) provides that the claimant (or the claimant's agent) and any third parties who submitted comments on the claim may submit written comments, evidence, and information in response to any third-party comments contained in the report, and to the staff report and recommendation itself. Such response must be filed no more than 15 calendar days after the date of mailing of this report. Any response from you must be delivered to the Oregon Department of Administrative Services (DAS), 1225 Ferry Street SE, U160, Salem, Oregon 97301, and will be deemed timely filed if either postmarked on the 15th day or actually delivered to DAS by the close of business on the 15th day.

This department will review any responses submitted, and a Final Order on the claim will be issued after such review.

ORS 197.352 (BALLOT MEASURE 37) CLAIM FOR COMPENSATION
OREGON DEPARTMENT OF LAND CONSERVATION AND DEVELOPMENT
Draft Staff Report and Recommendation

October 17, 2007

STATE CLAIM NUMBER: M131050

NAMES OF CLAIMANTS: Paul and Addie Deanne Maddux

MAILING ADDRESS: 18540 Maple Grove Road
Monmouth, Oregon 97361

PROPERTY IDENTIFICATION: Township 8S, Range 5W, Section 32
Tax lot 602
Polk County

DATE RECEIVED BY DAS: November 22, 2006

DEADLINE FOR FINAL ACTION:¹ May 15, 2008

I. SUMMARY OF CLAIM

The claimants, Paul and Addie Maddux, seek compensation in the amount of \$487,150 for the reduction in fair market value as a result of land use regulations that are alleged to restrict the use of certain private real property. The claimants desire compensation or the right to divide the 58.87-acre subject property into five approximately 10-acre parcels and to develop a dwelling on each parcel. The subject property is located at 14695 Fishback Road, near Monmouth, in Polk County. (See claim.)

II. SUMMARY OF STAFF RECOMMENDATION

Based on the preliminary findings and conclusions set forth below, the Department of Land Conservation and Development (the department) has determined that the claim is valid. Department staff recommends that, in lieu of compensation, the requirements of the following state laws enforced by the Land Conservation and Development Commission (the Commission) or the department not apply to Paul and Addie Maddux's division of the 58.87-acre subject property into five approximately 10-acre parcels and to their development of a dwelling on each parcel: applicable provisions of Statewide Planning Goals 3 (Agricultural Lands) and 4 (Forest Lands), ORS 215 and Oregon Administrative Rules (OAR) 660, divisions 6, and 33. These laws

¹ ORS 197.352, as originally enacted, required that final action on claims made under Measure 37 be made within 180 days of the date the claim was filed. In response to the large volume of claims filed in late 2006, the Oregon legislature passed House Bill 3546, which became effective on May 10, 2007. This legislation increased the amount of time state and local governments have to take final action on Measure 37 claims filed on or after November 1, 2006, by 360 days, to a total of 540 days.

will not apply to the claimants only to the extent necessary to allow them to use the subject property for the use described in this report, and only to the extent that use was permitted when they acquired the western portion of the property on August 26, 1964; the middle portion on April 27, 1965; and the eastern portion on August 1, 1970. (See the complete recommendation in Section VI of this report.)

III. COMMENTS ON THE CLAIM

Comments Received

On June 22, 2007, pursuant to OAR 125-145-0080, the Oregon Department of Administrative Services (DAS) provided written notice to the owners of surrounding properties. According to DAS, no written comments were received in response to the 15-day notice.

IV. TIMELINESS OF CLAIM

Requirement

ORS 197.352(5) requires that a written demand for compensation be made:

1. For claims arising from land use regulations enacted prior to the effective date of Measure 37 (December 2, 2004), within two years of that effective date, or the date the public entity applies the land use regulation as an approval criteria to an application submitted by the owner, whichever is later; or
2. For claims arising from land use regulations enacted after the effective date of Measure 37 (December 2, 2004), within two years of the enactment of the land use regulation, or the date the owner of the property submits a land use application in which the land use regulation is an approval criteria, whichever is later.

Findings of Fact

This claim was submitted to DAS on November 22, 2006, for processing under OAR 125, division 145. The claim identifies Exclusive Farm Use (EFU) zoning as the basis for the claim. Only laws that were enacted or adopted prior to December 2, 2004, are the basis for this claim.

Conclusions

The claim has been submitted within two years of the effective date of Measure 37 (December 2, 2004), based on land use regulations enacted or adopted prior to December 2, 2004, and is therefore timely filed.

V. ANALYSIS OF CLAIM

1. Ownership

ORS 197.352 provides for payment of compensation or relief from specific laws for “owners” as that term is defined in ORS 197.352. ORS 197.352(11)(C) defines “owner” as “the present owner of the property, or any interest therein.”

Findings of Fact

The claimants, Paul and Addie Maddux, acquired the subject property through three separate transactions. The claimants acquired the western portion of the property on August 26, 1964; the middle portion on April 27, 1965; and the eastern portion on August 1, 1970, as reflected by deeds included with the claim. On September 29, 2000, the claimants transferred the property to a revocable trust, the Maddux Family Trust, as reflected by a warranty deed included with the claim.² The Polk County Assessor’s Office confirms the claimants’ current ownership of the subject property.

Conclusions

The claimants, Paul and Addie Maddux, are “owners” of the subject property as that term is defined by ORS 197.352(11)(C), as of August 26, 1964, for the western portion; April 27, 1965, for the middle portion; and August 1, 1970, for the eastern portion.

2. The Laws That are the Basis for This Claim

In order to establish a valid claim, ORS 197.352(1) requires, in part, that a law must restrict the claimants’ use of private real property in a manner that reduces the fair market value of the property relative to how the property could have been used at the time the claimants or a family member acquired the property.

Findings of Fact

The claim indicates that the claimants desire to divide the 58.87-acre subject property into five approximately 10-acre parcels and to develop a dwelling on each parcel, and that the property’s current zoning prevents the desired use.

The claim is based generally on the applicable provisions of state law that require mixed agriculture-forest zoning and restrict uses on land zoned mixed agriculture-forest. The claimants’ property is zoned Farm Forest (FF-40) by Polk County. The FF-40 zone is a mixed agricultural and forest land zone, in accordance with Goals 3 and 4, as implemented by OAR 660-006-0050. Goals 3 and 4 became effective on January 25, 1975, and required that agricultural lands as defined by Goal 3 be zoned for farm uses and that forest lands under Goal 4 be zoned for forest uses. OAR 660-006-0050 authorizes local governing bodies to establish mixed agriculture-forest zones in accordance with both Goals 3 and 4 and OAR 660, divisions 6 and 33.

² Transfer of property to a revocable trust does not result in a change in ownership for purposes of ORS 197.352.

Under OAR 660-006-0050(2), effective on February 5, 1990, and subsequently amended on March 1, 1994, to comply with the provisions of House Bill 3661 (Chapter 792, Oregon Laws 1993), uses allowed in EFU zones under Goal 3 and forest zones under Goal 4 are allowed in mixed agriculture-forest zones.

For land divisions, OAR 660-006-0055 requires local governing bodies to apply the standards of OAR 660-006-0026 and 660-033-0100, which implement the minimum lot size requirements in ORS 215.780. ORS 215.780(1) establishes an 80-acre minimum for the creation of new lots or parcels in EFU and forest zones and became effective on November 4, 1993 (Chapter 792, Oregon Laws 1993). Under ORS 215.780(2)(a), the counties may adopt minimum lot sizes smaller than 80 acres, subject to approval by the Commission. The Commission has approved Polk County's FF-40 zone, which requires a minimum lot size of 40 acres.

For the approval and siting of dwellings, under OAR 660-006-0050(2) and (3), counties must apply either the OAR 660, division 6, or 33, standards based on the predominant use of the tract on January 1, 1993.³ The provisions of OAR 660-006-0027 and 660-006-0029 apply to dwelling approval and siting where the predominant use of the tract on that date was forest, and the provisions of OAR 660-033-0030 and 660-033-0035 apply where the predominant use of the tract on that date was agriculture.

The claimants acquired the western portion of the property on August 26, 1964; the middle portion on April 27, 1965; and the eastern portion on August 1, 1970, prior to the adoption of statewide planning goals and their implementing statutes and regulations.

Conclusions

The current zoning requirements, minimum lot size and dwelling standards established under Goals 3 and 4, ORS 215 and OAR 660, divisions 6, and 33, for land zoned for mixed agriculture-forest use, were enacted or adopted after the claimants acquired the subject property in 1964, 1965 and 1970, and do not allow the desired division and development of the property. These laws restrict the use of the subject property relative to the uses allowed when the claimants acquired the property.

This report addresses only those state laws that are identified in the claim, or that the department is certain apply to the subject property based on the uses that the claimants have identified. There may be other laws that currently apply to the claimants' use of the subject property, and that may continue to apply to the claimants' use of the property, that have not been identified in the claim. In some cases, it will not be possible to know which laws apply to a use of the subject property until there is a specific proposal for that use. When the claimants seek a building or development permit to carry out a specific use, it may become evident that other state laws apply to that use.

3. Effect of Regulations on Fair Market Value

In order to establish a valid claim, ORS 197.352(1) requires that the land use regulation(s) (described in Section V.(2) of this report) must have "the effect of reducing the fair market value of the property, or any interest therein."

³ The claim does not include information regarding the predominant use of the property on January 1, 1993.

Findings of Fact

The claim includes an estimate of \$487,150 as the reduction in the subject property's fair market value due to the regulations that restrict the claimants' desired use of the property. This amount is based on the claimants' assessment.

Conclusions

As explained in Section V.(1) of this report, the claimants are Paul and Addie Maddux who acquired the western portion of the property on August 26, 1964; the middle portion on April 27, 1965; and the eastern portion on August 1, 1970. Under ORS 197.352, the claimants are due compensation for land use regulations that restrict the use of the subject property and have the effect of reducing its fair market value. Based on the findings and conclusions in Section V.(2) of this report, laws enacted or adopted since the claimants acquired the subject property restrict the claimants' desired use of the property. The claimants estimate that the effect of the regulations on the fair market value of the subject property is a reduction of \$487,150.

Without an appraisal or other documentation, it is not possible to substantiate the specific dollar amount by which the land use regulations have reduced the fair market value of the subject property. Nevertheless, based on the evidence in the record for this claim, the department determines the fair market value of the subject property has been reduced to some extent as a result of land use regulations enforced by the Commission or the department.

4. Exemptions Under ORS 197.352(3)

ORS 197.352 does not apply to certain land use regulations. In addition, under ORS 197.352(3), certain types of laws are exempt from ORS 197.352.

Findings of Fact

The claim is based on state land use regulations that restrict the use of the subject property, including applicable provisions of Goals 3 and 4, ORS 215 and OAR 660, divisions 6, and 33, which Polk County has implemented through its FF-40 zone. All of these land use regulations were enacted or adopted after the claimants acquired the subject property.

Conclusions

Without a specific development proposal for the subject property, it is not possible for the department to determine all the laws that may apply to a particular use of the property, or whether those laws may fall under one or more of the exemptions under ORS 197.352. It appears that none of the general statutory, goal and rule restrictions on residential division and development of the subject property were in effect when the claimants acquired it in 1964, 1965 and 1970. As a result, these laws are not exempt under ORS 197.352(3)(E).

Laws in effect when the claimants acquired the subject property are exempt under ORS 197.352(3)(E) and will continue to apply to the claimants' use of the property. In addition, the department notes that ORS 215.730 and OAR 660, division 6, particularly OAR 660-006-0027,

-0029 and -0035, include fire protection standards for dwellings and structures in forest and mixed agriculture-forest zones. ORS 197.352 (3)(B) specifically exempts regulations “restricting or prohibiting activities for the protection of public health and safety, such as fire and building codes. . . .” Accordingly, the siting standards for dwellings and structures in forest zones in ORS 215.730 and in forest and mixed agriculture-forest zones in OAR 660, division 6, are exempt under ORS 197.352(3)(B).

There may be other laws that continue to apply to the claimants’ use of the subject property that have not been identified in the claim. In some cases, it will not be possible to know which laws apply to a use of the subject property until there is a specific proposal for that use. When the claimants seek a building or development permit to carry out a specific use, it may become evident that other state laws apply to that use. In some cases, some of these laws may be exempt under ORS 197.352(3)(A) to (D).

This report addresses only those state laws that are identified in the claim, or that the department is certain apply to the subject property based on the uses that the claimants have identified. Similarly, this report only addresses the exemptions provided for under ORS 197.352(3) that are clearly applicable, given the information provided to the department in the claim. The claimants should be aware that the less information they have provided to the department in the claim, the greater the possibility that there may be additional laws that will later be determined to continue to apply to their use of the subject property.

VI. FORM OF RELIEF

ORS 197.352(1) provides for payment of compensation to an owner of private real property if the Commission or the department has enforced one or more laws that restrict the use of the property in a manner that reduces its fair market value. In lieu of compensation, the department may choose to not apply the law in order to allow the present owner to carry out a use of the property permitted at the time the present owner acquired the property. The Commission, by rule, has directed that if the department determines a claim is valid, the director of the department must provide only non-monetary relief unless and until funds are appropriated by the legislature to pay claims.

Findings of Fact

Based on the findings and conclusions set forth in this report, laws enforced by the Commission or the department restrict the claimants’ desired use of the subject property. The claim asserts that existing state land use regulations enforced by the Commission or the department have the effect of reducing the fair market value of the subject property by \$487,150. However, because the claim does not provide an appraisal or other relevant evidence demonstrating that the land use regulations described in Section V.(2) reduce the fair market value of the subject property, a specific amount of compensation cannot be determined. In order to determine a specific amount of compensation due for this claim, it would also be necessary to verify whether or the extent to which the claimants’ desired use of the subject property was allowed under the standards in effect when they acquired the property. Nevertheless, based on the record for this claim, the department has determined that the laws on which the claim is based have reduced the fair market value of the subject property to some extent.

No funds have been appropriated at this time for the payment of claims. In lieu of payment of compensation, ORS 197.352 authorizes the department to modify, remove or not apply all or parts of certain land use regulations to allow Paul and Addie Maddux to use the subject property for a use permitted at the time they acquired the western portion of the property on August 26, 1964; the middle portion on April 27, 1965; and the eastern portion on August 1, 1970.

Conclusions

Based on the record, the department recommends that the claim be approved, subject to the following terms:

1. In lieu of compensation under ORS 197.352, the State of Oregon will not apply the following laws to Paul and Addie Maddux's division of the 58.87-acre subject property into five approximately 10-acre parcels or to their development of a dwelling on each parcel: applicable provisions of Goals 3 and 4, ORS 215 and OAR 660, divisions 6, and 33. These land use regulations will not apply to the claimants only to the extent necessary to allow them to use the subject property for the use described in this report, and only to the extent that use was permitted when they acquired the western portion of the property on August 26, 1964; the middle portion on April 27, 1965; and the eastern portion on August 1, 1970.
2. The action by the State of Oregon provides the state's authorization to the claimants to use the property for the use described in this report, subject to the standards in effect on August 26, 1964, for the western portion of the property; April 27, 1965, for the middle portion; and August 1, 1970, for the eastern portion.
3. To the extent that any law, order, deed, agreement or other legally enforceable public or private requirement provides that the subject property may not be used without a permit, license or other form of authorization or consent, the order will not authorize the use of the property unless the claimants first obtain that permit, license or other form of authorization or consent. Such requirements may include, but are not limited to: a building permit, a land use decision, a "permit" as defined in ORS 215.402 or 227.160, other permits or authorizations from local, state or federal agencies and restrictions on the use of the subject property imposed by private parties.
4. Any use of the subject property by the claimants under the terms of the order will remain subject to the following laws: (a) those laws not specified in (1) above; (b) any laws enacted or enforced by a public entity other than the Commission or the department; and (c) those laws not subject to ORS 197.352 including, without limitation, those laws exempted under ORS 197.352(3).
5. Without limiting the generality of the foregoing terms and conditions, in order for the claimants to use the subject property, it may be necessary for them to obtain a decision under ORS 197.352 from a city and/or county and/or metropolitan service district that enforces land use regulations applicable to the property. Nothing in this order relieves the claimants from the necessity of obtaining a decision under ORS 197.352 from a local public entity that has jurisdiction to enforce a land use regulation applicable to a use of the subject property by the claimants.

6. Nothing in this report or the state's final order for this claim constitutes any determination of ownership by the State of Oregon as to submerged or submersible lands, or as to public rights to the use of waters of the state.

VII. NOTICE OF OPPORTUNITY TO COMMENT

This staff report is not a final decision by the department and does not authorize any use of the property that is the subject of this report. OAR 125-145-0100 provides an opportunity for the claimants or the claimants' authorized agent and any third parties who submitted comments under OAR 125-145-0080 to submit written comments, evidence and information in response to the draft staff report and recommendation. Such response must be filed no more than 15 calendar days after the date this report is mailed to the claimants and any third parties. Responses to this draft staff report and recommendation will be considered only as comments related to the claim described in this report. All responses must be delivered to the Oregon Department of Administrative Services (DAS), Measure 37 Unit, Risk Management-State Services Division, 1225 Ferry Street SE, U160, Salem, Oregon 97301-4292 and will be deemed timely filed if either postmarked on the 15th day, or actually delivered to DAS by the close of business on the 15th day. Note: Please reference the claim number, claimant name and clearly mark your comments as "Draft Staff Report comments." Comments must be submitted in writing only. Those comments submitted electronically or by facsimile will not be accepted.
