OREGON ADMINISTRATIVE RULES
OREGON DEPARTMENT OF AGRICULTURE
CHAPTER 603, DIVISION 95
AGRICULTURAL WATER QUALITY MANAGEMENT PROGRAM
Inland Rogue

603-095-1400
Purpose

(1) These rules have been developed to implement a water quality management area plan for the Inland Rogue Agricultural Water Quality Management Area pursuant to authorities vested in the department through ORS 568.900 – 568.933 and ORS 561.190 – 561.191. The area plan is known as the Inland Rogue Agricultural Water Quality Management Area Plan.

(2) The purpose of these rules is to outline requirements for landowners in the Inland Rogue Agricultural Water Quality Management Area to prevent and control water pollution from agricultural activities and soil erosion. Compliance with OAR 603-095-1400 to 603-095-1460 is expected to aid in the achievement of applicable water quality standards in the Inland Rogue Agricultural Water Quality Management Area.

Statutory Authority: ORS 561.190 – 561.191, and ORS 568.912
Statutes Implemented: ORS 568.900 – 568.933

603-095-1420
Geographic and Programmatic Scope

(1) The Inland Rogue Agricultural Water Quality Management Area includes the drainage area of the Rogue River primarily within the political boundaries of Jackson and Josephine counties. It does not include the drainage area of the Lower Rogue outside the Josephine county boundary. The physical boundaries of the Inland Rogue Agricultural Water Quality Management Area are indicated on the map included as Appendix 1 of these rules.

(2) Operational boundaries for the land base under the purview of these rules include all lands within the Inland Rogue Agricultural Water Quality Management Area in agricultural use, agricultural and rural lands that are lying idle, or on which management has been deferred, and forested lands with agricultural activities, with the exception of public lands managed by federal agencies, reservation and tribal trust lands, and activities which are subject to the Forest Practices Act.

(3) Current productive agricultural use is not required for the provisions of these rules to apply. For example, highly erodible lands with no present active use are within the purview of these rules.

(4) The provisions and requirements outlined in these rules may be adopted by reference by Designated Management Agencies with appropriate authority and responsibilities in other geographic areas of the Inland Rogue Agricultural Water Quality Management Area.

(5) For lands in agricultural use within other Designated Management Agencies’ or state agency jurisdictions, the Department of Agriculture (department) and the appropriate Local Management Agency will work with these Designated Management Agencies to assure that provisions of these rules apply and to assure that duplication of any services provided, or fees assessed does not occur.

Statutory Authority: ORS 561.190 – 561.191, and ORS 568.912
Statutes Implemented: ORS 568.900 – 568.933
603-095-1440
Prohibited Conditions

(1) All landowners or operators conducting activities on lands described above in OAR 603-095-1420(2) shall be in compliance with the following rules. A landowner shall be responsible for only those conditions caused by the activities of the landowner or operator. Rules do not apply to conditions resulting from unusual weather events or other exceptional circumstances that could not have been reasonably anticipated. Limited duration activities may be exempt from these conditions subject to approval by the department.

(2) Excessive Soil Erosion
   (a) There shall be no visible evidence of erosion resulting from agricultural management in a location where erosion has contributed or will contribute sediment to waters of the state. Visible evidence of erosion may consist of the following features:
      (A) Sheet wash, noted by visible pedestalling, surface undulations, and/or flute marks on bare or sparsely-vegetated ground;
      (B) Visibly active gullies, as defined by OAR 603-095-0010(1);
      (C) Multiple rills, which have the form of gullies, but are smaller, in cross-sectional area, than one square foot.

(3) Riparian Vegetation Destruction
   (a) Agricultural management of riparian areas shall not impede the development and maintenance of adequate riparian vegetation to control water pollution, provide stream channel stability, moderate solar heating, and filter nutrients and sediment from runoff.
      (b) This condition is not intended to prohibit riparian grazing where it can be done while managing for riparian vegetation required in OAR 603-095-1440(3)(a).
      (c) Constructed ditches that carry only irrigation delivery and drainage water are exempt from conditions described in OAR 603-095-1440(3).

(4) Surface Irrigation Return Flows
   Runoff of surface irrigation that enters waters of the state shall not exceed water quality standards or cause pollution of the receiving water.

(5) Waste
   No person subject to these rules shall violate any provision of ORS 468B.025 or ORS 468B.050.

Statutory Authority: ORS 561.190 – 561.191, and ORS 568.912
Statutes Implemented: ORS 568.900 – 568.933

603-095-1460
Complaints and Investigations

(1) When the department receives notice of an alleged occurrence of agricultural pollution through a written complaint, its own observation, through notification by another agency, or by other means, the department may conduct an investigation. The department may coordinate inspection activities with the appropriate Local Management Agency.

(2) Each notice of an alleged occurrence of agricultural pollution will be evaluated in accordance with the criteria in ORS 568.900 to 568.933, or any rules adopted thereunder to determine whether an investigation is warranted.
(3) Any person allegedly being damaged or otherwise adversely affected by agricultural pollution, or alleging any violation of ORS 568.900 to 568.933, or any rules adopted thereunder, may file a complaint with the department.

(4) The department will evaluate or investigate a complaint filed by a person under section OAR 603-095-1460(3) if the complaint is in writing, signed and dated by the complainant and indicates the location and description of:

(a) The waters of the state allegedly being damaged or impacted; and

(b) The property allegedly being managed under conditions violating criteria described in ORS 568.900 to 568.933, or any rules adopted thereunder.

(5) As used in section OAR 603-095-1460(4), “person” does not include any local, state, or federal agency.

(6) Notwithstanding OAR 603-095-1460(4), the department may investigate at any time any complaint if the department determines that the violation alleged in the complaint may present an immediate threat to the public health or safety.

(7) If the department determines that a violation of ORS 568.900 to 568.933 or any rules adopted thereunder has occurred, the landowner may be subject to the enforcement procedures of the department outlined in OARs 603-090-0060 through 603-090-0120.

Statutory Authority: ORS 561.190 - 561.191, ORS 568.912
Statutes Implemented: ORS 568.900 - 568.933
