Actions Implementation Summary:

Accomplishments reported by Area Plan Objectives

Goals
- Prevent and control water pollution from agricultural activities and soil erosion and achieve applicable water quality standards
- Protect economic viability
- Preserve private property rights

Objectives
Sustain and/or improve water quality by:
- Reducing soil erosion from agricultural land in the basin
- Improving bank stability
- Improving riparian conditions
- Improving nutrient, animal waste, and irrigation management

Increase public awareness and understanding of agriculture’s contributions to improving water quality through coordinated watershed outreach activities

Accomplishments
- Landowners Provided with TA, 244 over the past biennium
- Projects submitted for Funding, 20 dealing with Water Quality
- Acres Implemented into Water Quality Projects, 358 Acres
- Number of Students who attended educational classes, 654 students
- Tours and presentations to partners, 5
- Attendees at the Tours and presentations, 46 attended

Summary of Impediments:
- Lack of Funding to move forward with projects to improve water quality and quantity
- A need for interim data meetings to discuss trends
- The cost for analysis for testing such as E coli Tests

Recommendations for Modifications:
- Clearer measurable objectives identified in the 2020 plan
- Moving from current Focus Area to a new Focus Area

DEQ Recommendations: Start testing for Copper in some of the local streams in the Management Area.

Compliance:
- Compliance actions outside Strategic Implementation Areas (SIAs)
  - Letter of Compliance -  
  - Pre-Enforcement Notification -  
  - Notice of Noncompliance -  
  - Civil Penalty -  
- Compliance actions within SIA(s)
  - Letter of Compliance -  
  - Pre-Enforcement Notification -  
  - Notice of Noncompliance -  
  - Civil Penalty -  

Notes:
