Stop Bedbugs!
Start by checking your room.

For more information, go to ODA’s bedbug webpage:
http://1.usa.gov/1EuLIm2

Check the bed — mattress, zippers, seams, cushion tufts, and behind and around the headboard.

Check the furniture and walls — furniture frames and cushions, using something with a hard corner or edge, like a credit card.

Check behind paintings, posters, pictures, mirrors, as well as around moldings, trim, baseboards and window frames.

Check cracks in plaster and peeling wallpaper.

Take a close look at electrical outlets, light switches, phones and clocks, as well as all the carpeting/rugs.

When traveling, don’t put down your luggage on the floor, or on the bed — put it in the bath tub, or on the luggage rack.
