**Alert regarding the use of pyrethrins and/or piperonyl butoxide**

Recent lab results show high levels of the active ingredients pyrethrins and/or piperonyl butoxide in some cannabis samples. Pyrethrins and piperonyl butoxide are on ODA's Guide List for Pesticides and Cannabis. ODA is investigating why some samples indicate levels of one or both of these pesticides, which far exceed the Oregon Health Authority (OHA) Action Levels, and yet others do not. To retain the listing of these two pesticides on the Guidelist, ODA, OHA, and Oregon Liquor Control Commission (OLCC) need to learn more about what influences pesticide residue levels on cannabis. If you used pyrethrins and/or piperonyl butoxide, and your cannabis tested below OHA's Action level, please contact ODA at (503) 986-4553.

**About the Guide List**

ODA Pesticides Program conducts monthly reviews of pesticide labels to determine their eligibility for the Cannabis Guide List.

If you do not see a pesticide label on the list, but feel as though it would qualify based on criteria described in our Internal Management Directive (<https://oda.direct/CannabisInternalDirective>), please notify us at 503-986-4635, and we will review it at the next label review meeting.
