

Jim James 'parcel' definition:

A contiguous ownership by a single individual, company, or other entity that owns all or a portion of the property, recorded at the Assessor's office within the County or Counties where the property is located.

Contiguous means a polygon of any size or shape connected by at least one common corner but can be interrupted by a publicly owned easement such as a railroad, public road, or utility right-of-way.

Revised Jim James 'parcel' definition proposed by ODF:

"Parcel", for the purposes of calculating whether a forested property is eligible for relief from SSBT riparian rules adopting in _____ 2017, means contiguous single ownership recorded at the assessor's office within the county or counties where the property is located, including parcel(s) of any size or shape touching along a boundary, but can be interrupted by a railroad, road, stream, or utility-right-of-way. Single ownership is defined in ORS 527.620(14).
