**Maintenance & Update Frequency:** As needed

##### Description:

**Abstract:** Rangeland Fire Protection Association boundary lines were created using some existing lines at scale 100k. However some of the lines were taken from the GCDB & therefore are more accurate than 100K. It probably wouldn't take much to get the rest of the lines from GCDB to make the theme 24K +.

**Purpose:** The RFPA layer should be used for cartographic display of Rangeland fire districts, and retrieval of jurisdiction for a given point.
