

1. Gate shown is for use with Wildlife Fence
2. Gate posts on each side of a gate opening to be the same size.
At a double gate installation with unequal width gates, size of both posts to be as indicated for single gate installation of the wider gate width.
3. See Std. Dwg. RD840 for details not shown.
See Std. Dwg. RD845 for escape ramps and jump outs installation.
See project plans for details not shown.
4. Add fence grounding as required.

All materials shall be in accordance with the current Oregon Standard Specifications.
