CONTENTS

Interview itinerary
Interview notes

Bend ITS Stakeholder Interview Itinerary

Thursday 9/9/04

8:30 - Meet with ODOT

- Meet at Bob Bryant's office – ODOT Region 4, 63055 North Highway 97
- Attendees – Joel, Bob Bryant, JAWS, Dave Foster, Arly Mooney, Rick Williams

10:30 – Meet with City of Bend #1

- Meet at the Public Works Conference Room – 1375 Forbes Rd
- Attendees - Brandon Raz (Street Supervisor), Wanda Gray (Transit), Ken Fuller (Public Works Manager), Robin Lewis (City Traffic Engineer), Ken Gould (Project Manager)

1:30 – Meet with Deschutes County

- Meet at Gary Judd's office - 61150 SE 27th St.
- Attendees – Gary Judd, county staff

4:00 – Meet with Deschutes County 911

- Meet at Laverne's office conference room - 63333 Highway 20 W
- Attendees – Laverne, Laura Wolfe, Rick Silbaugh

6:00 – Meet with Bend MPO

- Meet at Deschutes Brewery
- Attendees – Carolyn Bonner

Friday 9/10/04

6:30 – Breakfast with OSP

- Meet at the County Cottage – 2650 NE Division St
- Attendees – Sgt. Eric Brown, Sgt. Paul Collinsworth

8:00 – Meet with City of Bend #2

- Meet at the Public Works Conference Room – 1375 Forbes Rd
- Attendees - Kashima (Parking Manager), Michael Magee (Engineering Manager), Bob O'Neal (Construction Supervisor), Steve Meyers (IT Manager), Bob Bussaberger (IT)

11:00 – Meet with City of Redmond

- Meet at Chris Doty's office - 875 SE Veterans Way
- Attendees – Chris Doty, Jeff England, Joe Sadony

CONTACT REPORT

DKS Associates
Traffic • Transportation • Engineering

Date: 8/19/04 P/A no: _____ Page _____ of _____
Meeting/Phone by: JMP

Contact Name(s)/Affiliation: Joel McCarroll, Dave Foster, Arly, Jas, Jones Whitenberg

Subject: _____ Phone no: _____

Discussion:

Downtown Bend signals - No interconnect, run Bend

No map overall of the interconnect

Converting cell phones to land lines b/c the cell

Cooley Rd/Hwy 97 will have a land line phone
Robal/Hwy 97 btwn Mt. View + Target. Has a video detection camera for the left turn

Translink - All the time
Functionality: ① Would like to download traffic counts from Bend Area signals
Can't automate w/o calling every signal.
Would like to automate the download process.
② Translink only shows phase 2
Want to see separate detection
To identify detector failure

Collect the preempt data, power failures,
Call signals up to check the conditions
Especially night time calls

Action Items: Responsibility: Due Date:

Arly would like access to the signals.
Security issue w/ dispatcher. Don't want them to control all features
Set different user levels for security
Provide signal status

Distribution: _____

CONTACT REPORT

DKS Associates
Traffic • Transportation • Engineering

Date: _____ P/A no: _____ Page _____ of _____

Meeting/Phone by: _____

Contact Name(s)/Affiliation: Ed More, Region 4 Planning

Subject: _____ Phone no: _____

Discussion:

Limitation, Only one phone line.
All should be fiber interconnect.

Have a switcher in one cabinet to switch from 170 ~~to~~

- Have wireless all over but there is security concerns. Not as reliable.

- VMS
- RWIS
- Camera monitoring

- ATRs - Get from ODOT webpage
Have phone + power

Existing Systems:

Challenge - Phone + Power

GIS - Long range planning - Would like to have vehicle classification from ATRs
Plan to put piezo in for count stations

Ed - Would like the weigh master to be able to do an O+D, how much it weighs + share with the planners + type of material.

Action Items: Responsibility: Due Date:

Graphics in Oregon Standard Projection
OSP South NAD83 - Deschutes Co.

Distribution: _____

Date: _____ P/A no: _____ Page _____ of _____
Meeting/Phone by: _____

Contact Name(s)/Affiliation: _____

Subject: _____ Phone no: _____

Discussion:

ODOT Weighmaster – Bruce Ward (541)

Trying to do incentive/disincentive based on restricting bridge to 80,000. Got info from trip permits but took longer to get all the heavy haul info.

Lot of info goes into main frame, but it doesn't get pulled out & used for study purposes

Automated Weigh Station – Juniper Butte
Talking about one at new weigh site south Bend.

Would like to know if they are loaded or not

– Not too much random portable weigh-in-motion

ATRs – Salem uses this & gives weekly report
Employee downloads data manually & fixes comm.

Comm more critical in rural sites b/c of long drive time

3 video vendors: AutoScope (27th) w/ phone line
Trafi Com (Install w/ video compression)

Action Items: Responsibility: Due Date:

New spec will be for one system vendor

Distribution: _____

CONTACT REPORT

DKS Associates
Traffic • Transportation • Engineering

Date: _____ P/A no: _____ Page ____ of ____
Meeting/Phone by: _____

Contact Name(s)/Affiliation: _____

Subject: _____ Phone no: _____

Discussion:

- Jas would like to see the video
- James thinks we should look towards NTCIP protocol so they are compatible
  NTCIP works well w/ NTCIP. & have to run with base software
- Jas is in the Hwy 97 Office

Org Structure –
James – IS Branch, reports to Elec Mgr.
– Works for Region Traffic
Dispatch Center reports to Dist. 10/Rick Willians
Used to all report to the District

All others report to Region Traffic
Current belief is this is a dispatch center not a TOC.

Existing Systems: ① Trans Link
② 3 Video Det Software
③ Using Skyline software package in XP software

Action Items: Responsibility: Due Date:
Jas role – maintenance & operations of ITS devices including Comm infrastructure.

Distribution: _____

CONTACT REPORT

DKS Associates
Traffic • Transportation • Engineering

Date: _____ P/A no: _____ Page _____ of _____
Meeting/Phone by: _____

Contact Name(s)/Affiliation: _____

Subject: _____ Phone no: _____

Discussion:

(4) Have 6 separate VMS software
No fixed VMS that are not NTCIP
Only one VMS @ sisters (Arly has access to 3 VMS software systems)

(5) New PVMS are NTCIP (all are NTCIP) only work in the valley
Intent is to use the Skyline software to access PVMS.
Uses a digital protocol when only Verizon has available
Have multiple DOS applications for PVMS access & will only get rid as signs are replaced.

(6) HARs radio system. Separate software for HAR.
Working on TOCs to integrate these operations.
Schedule is about 2 years out.

(7) Direct link to OSP CAD system & connectivity to law enforcement
Leased services — 56K link
Use this system to PSSI CAD to manage incidents
OSP main frame is in Salem, Dispatch is in Salem.

Action Items: Local ops out of County

	Responsibility:	Due Date:

Distribution: _____

CONTACT REPORT

Meeting/Phone by: _____

Contact Name(s)/Affiliation: _____

Subject: _____ Phone no: _____

Discussion:

(8) HTCRS - Feeds Trip Check, Public Info.
Across ODOT WAN, which is fiber
Dept of ~~Ad~~ministrative Servias
Potential opportunity

Have fiber from Klamath Falls to Eugene
owned by ?? ODOT got dark fibers 58/97
Junction.

Bend Cable & Deschutes County & City of Redmond
have fiber. Have verbal agreements for full motion
video

COIC staffs Central Orga Area Commision on
Transportation. - Kind of like COG

- Huge opportunity to share fiber w/ these groups.
Deschutes County has huge amounts of fiber
- Need agreements for sharing.

Have DAS fiber out of Portland on 26 into Bend.

(9) RWIS Stations - Communicate primarily via
phone - Have some frame relay
dedicated circuits @ Lava
Butte

Action Items:	Responsibility:	Due Date:

Distribution: _____

CONTACT REPORT

DKS Associates
Traffic • Transportation • Engineering

Date: _____ P/A no: _____ Page _____ of _____
Meeting/Phone by: _____

Contact Name(s)/Affiliation: _____

Subject: _____ Phone no: _____

Discussion:

No other physical interfaces w/ other agencies
Share info

Law enforcement data system is their interface is the only standard

Example: • Be able to share data in a common format about ongoing info btwn the roads
• Need to get common data sets & Standards
• Race to get info on accidents / incidents
• What a history of accident problems

ODOT has an incident responder
Works w/ County to raise awareness.
Challenge: Why does ODOT need to respond

• Have a deer sensor (gathered deer accident info.)
Snap a picture w/ movement.

Wildlife Migration Study going on. How do you design a highway to accommodate deer / elk migration
Sheet style migration.
Need resources for good data collection.
- Standardize data sets to pull into GIS & project it right.

Action Items: | Responsibility: | Due Date:

Distribution: _____

CONTACT REPORT

Traffic • Transportation • Engineering

Date: _____ P/A no: _____ Page _____ of _____
Meeting/Phone by: _____

Contact Name(s)/Affiliation: _____

Subject: _____ Phone no: _____

Discussion:

- Pilot project to give Maintenance GPS to record crash locations.
Nice to have GPS unit to record the incident.

Wireless camera on
Have an existing video switch to handle 120 videos
Parkway should be flooded w/ cameras & transmitted full motion
PTZ needed for incident mgmt

ODOT reproduces video & sends it back to Bend Cable

Working on a digital switch
Bend Cable disseminates stuff outside of Bend area. They have shipped video via microwave to PDX.

- ODOT is looking at a package to send/stop images package for a local cable co. & put a point of contact for anybody to come & get the video
CABLE TV Project. Bend is the pilot

Action Items:	Responsibility:	Due Date:

Distribution: _____

CONTACT REPORT

DKS Associates
Traffic • Transportation • Engineering

Date: _____ P/A no: _____ Page _____ of _____
Meeting/Phone by: _____

Contact Name(s)/Affiliation: _____

Subject: _____ Phone no: _____

Discussion:

Problem Areas: Need cameras / incident detection
No shoulders so This is needed.
- Hard to do any kind of stop
- Stalled vehicles are the problem on the Parkway.
Only a dozen or so crashes.

Long term problem - No freeways / Freeway type volumes
Bend to Redmond
Sun River to Bend
- No alternate routes, north + south of Bend.
- Large commute: Redmond to Bend + Sun River to Bend
Median is a problem b/c no place to reroute, but.
- Communication is the biggest thing.
- Challenge - Conduit is tough b/c rock
Power, phone is tough
Gets cut from project from b/c expensive to do in rock
Directional drilling is difficult.

Dave Mayer - Incident responder
- Not patrolling regularly. Does a lot of PR work.

Action Items:	Responsibility:	Due Date:

Distribution: _____

CONTACT REPORT

DKS Associates
Traffic • Transportation • Engineering

Date: _____ P/A no: _____ Page _____ of _____
Meeting/Phone by: _____

Contact Name(s)/Affiliation: _____

Subject: _____ Phone no: _____

Discussion: Summer + Winter related issues.
- Have roles set for responding to incidents.
  - Routinely evacuate Black Butte
    Deschutes River Woods
    Toll gate
    Sun River
- County has reverse 911

Development of incident command has been a key role.
Lack
Close hwy to let everyone out. No way to tell motorists
Need advance info. to travelers on 97 + 22, etc.
Needs: Permanent VMS north + south of Bend
SB out of Bend
NB out of Bend
Lava Butte has chains req'd. How about a sign here for driver info.
Remotely changeable chain up signs
(Needs to be white w/ black)
30K for sign
Exist on Ladd Canyon +
Need another alternative for Chain Up Signs
Need to Get info about.

Action Items: Weather changes dramatically in this area. Responsibility: Due Date:

Put a VMS SB in La Pine. How about NB, but didn't get put in b/c no alternate routes.

Distribution: _____

CONTACT REPORT

DKS Associates
Traffic • Transportation • Engineering

Date: _____ P/A no: _____ Page _____ of _____
Meeting/Phone by: _____

Contact Name(s)/Affiliation: _____

Subject: _____ Phone no: _____

Discussion:

Joel has a priority list of VMS

- Arly gets 30+ calls a day to get weather btwn Lvr & Redmond

Sisters sign need for public info

Challenge: Power + comm!!
Bogus info is tough w/ PVMS b/c they don't get charged based on current info.

Salem changes signs on Santiam.
- People ignore the signs. Info is based on maintenance mgr input

Travelers need the camera images
- Camera needs to have complete coverage over the passes

Mt. Bachelor does not want camera or VMS.
Had an ATR on the way up to Bachelor.

Need camera @ S. Century & Century Dr.
No power + phone.

Have weather station
Need info for crews doing the winter maint.

Action Items: Not a capacity problem. Responsibility: Due Date:
↳ Need to keep the road in good condition.
Winter maintenance practices.

Distribution: _____

CONTACT REPORT

DKS Associates
Traffic • Transportation • Engineering

Date: _____ P/A no: _____ Page _____ of _____
Meeting/Phone by: _____

Contact Name(s)/Affiliation: _____

Subject: _____ Phone no: _____

Discussion:

Hwy 20 E needs RWIS, surface temp.
@ Horse Ridge.
Have a weather station, but does not have road temp.

Maint. does not know how to get to the weather data.
How about a screen to post the data so people don't have login through security, etc. Data needs to be easily accessible.

What does Mt. Bachelor need? Dan Rutherford complains about conditions of the road. Rather have chain up in the parking lot.

Flip down sign for Condition A, B & C.

- Bachelor operates buses from parking lot in Bend to Bachelor.

Fire has separate Incident Command Center.
Fire is the biggest issue
TMA – Ends up @ Sheriff's Office

Action Items:

	Responsibility:	Due Date:
EOC?		
Tourism?		

Distribution: _____

CONTACT REPORT

Discussion:

Tourism? – Parking management system in Sisters if they make progress here.

Events – Deschutes County Fair
Sisters Rodeo.
Family motor coach Assn in Redmond
↳ Fairgrounds is a big RV parking lots

– ODOT has not done anything operationally, more devices would be used for PR type stuff

Opportunities: 0809 TIP update program to widen 97 to Lava Butte to take 4 lanes South to Sun River.

– Bypass at-grade rail crossing on 97.
– 97 Bypass around Redmond (Reroute)
– Not going to get conduit w/o ⊈
– Interchange planned @ Sun River entrance (Will have power)
–
– Glacier Island (126) 97 in Redmond west to City limits
3 lanes going to 5 lanes
Has a 2-inch conduit
Bend Cable has to relocate fiber
Want some ODOT staff in here

Action Items: Look @ existing Deschutes County 97 reroute project

Responsibility:	Due Date:

Distribution: _____

Discussion:

Problem Areas

- Parkway needs cameras/incident detection
  - no service patrol existing
  - stalled vehicles is problem

- No freeways, but freeway level volumes
  - Redmond/Bend → huge demand for commute in future
  - Sunriver/Bend
    - significant impact w/ incidents
    - no alternate routes

- Need communications
  - future need installation doesn't happen → rocks everywhere
  - → expensive to have fiber as backbone
  - aerial lines can be leased, difficult

- Emergency/Evacuation
  - no specific plans
  - roles are established between agencies
  - County has reverse 911 for notification

- lack traveler/motorist information to warn about road closures
  - need permenant VMS N+S of Bend

Action Items:	Responsibility:	Due Date:

Distribution: _____

CONTACT REPORT

DKS Associates
Traffic • Transportation • Engineering

Date: _____ P/A no: _____ Page ____ of ____
Meeting/Phone by: _____

Contact Name(s)/Affiliation: _____

Subject: _____ Phone no: _____

Discussion:

Joel - VMS should be used at decision points

- is there another way to have chain up requirements posted → cost effective
  - $30,000 for changeable

Ed - moveable VMS signs aren't updated often enough

Coordinate w/ Mt. Bachelor
- they don't want cameras
- no power/communication / surface temp./weather
- maintenance could use sensor info
  - important to keep road open

JTMS → even w/ in dept. → lack of communication about where data is available

Mt. Bachelor could use ATR data for staffing/parking

EOC?
- only used for fires/floods
- TMC ends up at sheriff's office

- Tourism
  → parking mgmt. system in Sisters

Action Items:	Responsibility:	Due Date:

Distribution: _____

Contact Name(s)/Affiliation: _____

Subject: _____ Phone no: _____

Discussion:

Big Events - Deschutes Co. Fair
- Sisters Rodeo
- Family Motor Coach Assn.

⇒ could use more public info for these

Future Opportunities

- Update to '08/09
  - widen 97 to SunRiver
  - reroute 97 in Redmond - North
  - interchange @ SunRiver South - will have camera
  - ORE 126 in Redmond, US 97 to W city limit
    - ~~Here~~ has 2" conduit
    - widening
  - reroute 97 in Redmond South

- talk to David Meyer → Incident Manager

Action Items:	Responsibility:	Due Date:

(Meeting)/Phone by: CSM

Contact Name(s)/Affiliation: Joel McCarrol, Dave Foster, Arly Mooney, JAWS, Ed Moore ↑ planning, GIS

Subject: Bend ITS Phone no: _____

Discussion:

- Downtown Bend → no interconnect, no phone drop
- Converting cell phone @ intersection to CAT line
  - Robal / 97
    - just added video detection / LT phase
  - Cooley / 97
  - Use Travlink all the time - Bend
    - possible upgrades
      - download loop counts + give to City → need automated process
        - advance loop
      - seperate actuation detection
      - collect 3M pre-empt data
      - Arly wants access to signal when → check status
        staff isn't available to check
        Jaws: security issue → to much info
        → need to control info by user
      - limited by 1 phone to master → 1 line to all signals
        → limited access
      - have switcher in signal cabinet to see video / ITS

Jaws
- wireless communication used all over → interference common
  - prefer fiber eu

→ Use ODOT projection

Action Items:
→ Dave will give us ATR's
→ JAWS gave us all info but signals

Responsibility:	Due Date:

Distribution: _____

Meeting/Phone by: _____

Contact Name(s)/Affiliation: _____

Subject: _____ Phone no: _____

Discussion:

Ed → Use NAD83 - feet - State Plane South

→ Use this for maps → ODOT can convert what they want

Ed → ATR's / GIS

- need to be able to do vehicle classification
- Dave → plan is to put pizeometers into ATR's

→ Weigh Stations

- O/D surveys → collect & give to ODOT
  - include weight, materials → HAZMAT
- Bruce Ward is WeighMaster

→ lots of data put into mainframe, not much useful comes out

Dave → ATR's are manually checked

→ Only other signal systems

- 3 different video detection vendors in Bend
- 1 phone line to all cameras
- on 27th - low quality
- Use Autoscope to access
- starting to use Traffican → w/ video compression card

Joel → should spec vendors → public interest

Action Items:	Responsibility:	Due Date:

Distribution: _____

Contact Name(s)/Affiliation: Tim Boyson, Tech Spec for Bend Police, Jude Fulghan, Robin Lewis
Subject: _____ Phone no: _____

Discussion:

City of Bend Police has been working w/ incident responder.
Don't have radio comm to incident responder vehicle

- Share an 800 MHz trunked radio system
  Could talk to Redmond, Forest Service, Bend Fire.
  Need are radio in incident response vehicle
- Use a patch through dispatch
  Incident response guy has requested the radio ~ $3,000

911 Center - dispatches
Officers have MDTs
Responsible for voice comm, data to cars + network to station
All police vehicles have MDTs.
Working on a PDA device.

- CAD has capability for AVL + GIS
  Working on live video (security, ped tunnel, breezeway)
  Not stream video all the time,

Action Items: Responsibility: Due Date:

Planning a wireless 802.11 Citywide network
Trying to get
Will get 7 sites up + running this fall

Expand to 90 % coverage w/ City of Bend

Distribution: _____

Limited # of drops for City + County — Bob Essberger

Have redundant path into PD + public works

Bend Cable an opportunity to use their conduit.

Would like to have traffic information @ dispatch center + Main Sta.
- More info they have upfront gives them ability to decide how much to dispatch, etc. Make decisions ahead of time.

CAD system (Hitech) — All agencies in Bend area run this CAD
- Probably need to
His product is based on Map Info.

Have 800 MHz in Forest Service, Bend public works. Work in channels.
Technology is in place to direct ambulance, public works, etc.
Don't have incident response team from the State

Have 10 sites w/ County-wide coverage, etc.

Action Items: — Responsibility: — Due Date:

Opportunity: Sites are County owned
Some are OSP sites
IGAs are in place
Add additional equipment is a possibility

Distribution: _____

Discussion:

City of Bend Police has been working w/ incident responder.
Don't have radio comm to incident responder vehicle

- Share an 800 MHz trunked radio system
  Could talk to Redmond, Forest Service, Bend Fire.
  Need are radio in incident response vehicle
- Use a patch through dispatch
  Incident response guy has requested the radio ~ $3,000

911 Center - dispatches
Officers have MDTs
Responsible for voice comm, data to cars + network to station
All police vehicles have MDTs.
Working on a PDA device.

- CAD has capability for AVL + GIS
  Working on live video (security, ped tunnel, breezeway)
  Not stream video all the time,

Action Items: Responsibility: Due Date:

Planning a wireless 802.11 Citywide network
Trying to get
Will get 7 sites up + running this fall

Expand to 90 % coverage w/ City of Bend

Limited # of drops for City + County — Bob Essberger

Have redundant path into PD + public works

Bend Cable an opportunity to use their conduit.

Would like to have traffic information @ dispatch center + Main Sta.
- More info they have upfront gives them ability to decide how much to dispatch, etc. Make decisions ahead of time.

CAD system (Hitech) — All agencies in Bend area run this CAD
- Probably need to
His product is based on Map Info.

Have 800 MHz in Forest Service, Bend public works. Work in channels.
Technology is in place to direct ambulance, public works, etc.
Don't have incident response team from the State

Have 10 sites w/ County-wide coverage, etc.

Action Items: — Responsibility: — Due Date:

Opportunity: Sites are County owned
Some are OSP sites
IGAs are in place
Add additional equipment is a possibility

Distribution: _____

Discussion:

How does the plan continue?
Where does the money come from to continue the plan.

Challenge: No central clearinghouse for signal control
Who do you call
How do you know if complaint is taken care of.

Institutionalize the cooperation/coordination
Who else has a stake in the project.

GIS - Find a way to make the transportation GIS more standard. Have a central repository/ quality control of GIS.

MPO Boundary - City UGB plus. A little bigger than the reserve.

Have the ITS improvements be flexible. Almost choose the low tech over the high tech. If it requires more staff time, then may be not best.

Look at opportunities to expand franchise agreements with Bend Cable. Make the franchise agreement more uniform. Ask

Action Items: Responsibility: Due Date:

Need to educate the public, stakeholders, project managers.

Data is very important to MPO. What data is available that we are not already using?

Subject: _____ Phone no: _____

Discussion:

How does the plan continue?
Where does the money come from to continue the plan.

Challenge: No central clearinghouse for signal control
Who do you call
How do you know if complaint is taken care of.

Institutionalize the cooperation/coordination
Who else has a stake in the project.

GIS - Find a way to make the transportation GIS more standard. Have a central repository/ quality control of GIS.

MPO Boundary - City UGB plus. A little bigger than the reserve.

Have the ITS improvements be flexible. Almost choose the low tech over the high tech. If it requires more staff time, then may be not best.

Look at opportunities to expand franchise agreements with Bend Cable. Make the franchise agreement more uniform. Ask

Action Items: Responsibility: Due Date:

Need to educate the public, stakeholders, project managers.

Data is very important to MPO. What data is available that we are not already using?

Distribution: _____

Subject: Bend ITS Phone no: _____

Discussion:

- Who will carry plan forward?
  - MPO is option
    - finding funding → projects & coordination
    - having meetings
  - expertise is w/ State & City

Weakness → no clearinghouse for signal
→ who to call for signal malfunctions?
→ get feedback

Need to institutionalize co-op/coordination
- managing funds / stakeholders

GIS → coordinate clearinghouse
→ County is possibly set up to handle it

Need flexible technology
- focus on spending $ wisely → low-tech might work better

Telecommunication → franchise agreement w/ Bend Cable
→ give back to community
→ ask or they won't give

Action Items: Responsibility: Due Date:

Distribution:

CONTACT REPORT

Discussion:

Maintenance of Vehicles – No specific location for maintenance
Shuttle the vehicles everywhere.

Lower speed in work zones would be beneficial,

Traffic crashes – Wintertime rollovers on Century Drive
– Lava Butte.
– Sunriver north ~~to~~ Lava Butte

MP 11+12
10 – 12
"S" Curves

– Sunriver back route intersection (some overshoot)

Century Drive – How do you change driver attitude

– Santiam Pass → If OSP staffing Santiam & Century drive, then there ~~are~~ is no one left for 97 South.

– Parkway covered by City police.
Quickest response to incidents would be best.
Message boards in advance of Parkway to take an alternate route.

Action Items: Responsibility: Due Date:

Incidents on Century – Hear from Salem dispatch
ODOT
911 dispatch

Distribution: _____

CONTACT REPORT

Meeting/Phone by: _____

Contact Name(s)/Affiliation: _____

Subject: _____ Phone no: _____

Discussion:

ODOT Maintenance crews respond to incidents

Dangerous working incidents b/c other vehicles slide on the ice into the responders.

Incident Responders are a huge benefit help to clear incidents quicker. Having ODOT incident responders to respond to incidents with trailer + lights, etc is great

Tourist volume - Winter time sports people
- Summer - Fishing, Golf out door rec.

Such extreme growth it is tough to keep up with.

Problem: 911 gets call - Goes to call taker - Goes to Salem dispatch - Then ~~to~~ police in field.
(Takes time to deliver the call).

Camera locations: Lava Butte - Current camera misses the problem area.
- Need camera further down hill (to north).

Action Items:	Responsibility:	Due Date:
• OSP does traffic control on the hwy for the evacuation - All roles have been described

Meeting (Phone) by: JMP

Contact Name(s)/Affiliation: Dan Jensen, Bob Bussberger, Wendy, Greg, Steve

Subject: _____ Phone no: _____

Discussion: Deputy Chief Operations – Dan Jensen
- Looking for improving impedance areas. Can we get Federal funding to apply to improved emergency response plans.
- Evacuation Route signage to turn off/turn on
→ Use the sign for evacuation route

Evacuation Areas: People need good routing info. Oakland Hills.
- Need to give people good info about the route out.

Hard to do pre-planned routes. Don't know where it will start, where it will go to.

Bussberger would rather see a partnership where everyone buys the same product + protocol.

Telecommunications Subcommittee meets in Sept.

Evacuation Routes: Large fires are several day events
Fire is quickly moving out
People are moving out.
- Look long term in the hazard areas. Hazard areas have been identified

Action Items:	Responsibility:	Due Date:
Finishing Bend Fire protection plan – will identify areas for mitigation exposure areas. Deschutes Woods has 6,000 people		

West Bend is worst
South is 2nd
East is 3rd

Distribution: _____

CONTACT REPORT

Meeting/Phone by: _____

Contact Name(s)/Affiliation: _____

Subject: _____ Phone no: _____

Discussion:

ODOT can close routes & direct traffic

Plan will identify what community can do to protect itself from long range fires
Will prioritize areas. Plan focuses on educating public

- Solar would be useful especially
A lot of DMS can mount on bus shelters on a route.

When responding to incidents: Big Thing is getting people out.

-

NW Crossing: Narrow roads to this subdivision to get people out.

- Will change

Evacuate people to Red Cross Shelters / High Schools grade schools, etc for evac shelters
Red Cross tells where these shelters are

Entire West side of Bend is a hazard area.

Action Items: Responsibility: Due Date:

Designated emergency response routes?
Yes & No. Designed a fire route system to place the stations
Have a 7 to 10 second increase in response times @ roundabouts. Responders are always trying to find the fastest route.

Distribution: _____

CONTACT REPORT

DKS Associates
Traffic • Transportation • Engineering

Date: _____ P/A no: _____ Page ____ of ____
Meeting/Phone by: _____

Contact Name(s)/Affiliation: _____

Subject: _____ Phone no: _____

Discussion: Emergency Response Times
Parkway < North Station beats west station b/c of Parkway in response times.
No fixed response routes

Roundabouts – Problem is the the longer path of people in entry & people pull into roundabout & stop. Engines have a tight R of to go over the mountable curb.
Considering preventing others from entering the int. with a blank-out sign.

- Placed stations based on fire routing program.
- Need a solution for fire response through roundabouts & augment

- We need to upgrade the receivers b/c only about 20% of the discriminators.
- Would like to have Opticom. downtown

Moving to MDTs in their vehicles
Pursuing a grant for MDTs (Experimenting w/ 2 MDTs)
Plan to do GPS/AVL on all vehicles

Have 800 MHz in command rigs, but primary dispatch is VHF, but all fire response vehicles have VHF

Action Items: | Responsibility: | Due Date:

HiTech is CAD vendor @ 911.

Tibbetts bought 90 degrees their fire records system is XML.

Distribution: _____

CONTACT REPORT

City has GigE to all but two of remote sites

Regional wireless system. Bought wireless gear
Will place equip on Aubrey Butte
Could conceivably feed 80% of City w/ 2.4 or 5.8
w/ 802.3 level. Layer 2 → Ultimately
Will just be a private - public network. So no
general public will be on the network.

Could transfer remote sites over the network.
Not going to be a highly utilized ~~site~~ network.
Not going to be very robust.

Could tweak

All fire stations have fiber to them
Have a colocation w/ Bend cable
This telecomm group has dark fibers that they
manage + light.

Wherever County is we have an access to

Negotiated 18 sites. Currently, they are
using 10 sites.

Action Items:	Responsibility:	Due Date:
Consider bringing Bend Cable to the table + negotiating for more access points.		
They want to keep City happy		
Next renegotiation is 2012		

Distribution: _____

Could use grant funding to help expand the wireless b/c they only have about 10% coverage.

Don could pull up a GIS map to his vehicle

Wireless is 11MBps. Will train @ 2MBps.
They have streamed at 384 + seen pretty good video.

Bottom line is they have a robust
City sites
ODOT could be a site.

- Bend does a star @ Bend Cable.
  ODOT could just patch @ Bend cable +
- 2 more fiber @ every fire station. So any fire station could be used for this fiber. Or as our hubs.

- Doing City + County services on the network.
- Part of what the City needs to do for business

Signal operations - Frustrating to go from one redlight to the next a block away.

Action Items: Responsibility: Due Date:

Dave Foster would no all the signal coordination

- Communications Plan - Meet w/ Bob Bussberger, Adrian + myself to discuss the communication system
  - Coord w/ Robin.

Discussion:

- Robin needs to show the trends in counts & could show trend of where we are going.

System detector data - volume, speed, occupancy, by int, by movement,

---

Transit - measure on ballot in Nov for a transit district.
This group will build their own infrastructure

Bend Dial-a-ride is the largest fleet in the County & supports small

Regional Plan

(1) Trapeze 4 Pass System - purchased by City

Supports these:
- GPS/AVL
- IVR - Interactive Voice Response - Similar to reverse 911
- MDT
- Internet schedules
- Real-time bus arrivals.

Could support incoming calls

(2) Will do the Medicaid call center for eastern Oregon.
- Don't provide rides, but do the calls.

Central Oregon Intergov. Council

Action Items:	Responsibility:	Due Date:

- facilitate developing regional task force to bring infrastructure
  → staffing
  → funding

Quest is phone provider for region
- Senate Bill 622 → forced to provide comm.
- owns fiberoptics
- finished '02

COIC → being phased out → now don't do much in Bend/Redmond

→ haven't done much w/ franchise agreements

Quantum → tie into state fiber backbone
→ putting fiber into Redmond/Bend

Try Frank Miller → High Desert Education Service District

Discussion:

Hwy 97 = ODOT, owned + maintained
ODOT does maint + operations

Have phase lines

Growth rate @ 7 to 8 percent in the next few years

Video @ 97 + 5th/6th + Highland
posted on ODOT web site

Counts - Don't have system detectors

Generally don't do ADT counts

Peak hour congestion is the biggest problem - Mostly PM peak.
Mostly Hwy related. Through traffic is the critical move.

97/Veterans Way is problem
Highland/126/97 is problem.

97 Reroute - Phase 1 starts Winter/Spring - 05
'07-08
Highland-Glacier couplet project is the CTA

Action Items: ↳ Will become a one way couplet between reroute + 15th. 5 lanes from 15th to Rim Rock — Responsibility: — Due Date:

Highland-Glacier - ODOT is designing interconnect
We think
All new ODOT signals

Distribution:

Discussion:

97 Reroute - Does this include count stations? Ask ODOT

South end of reroute

Need a true bypass some day
Reroute design speed is 45 to 55

Struggle to keep up with infrastructure improvements w/ growth

Maintenance - pavement mngmt system

- Town will be under construction for the next 5 years. Construction related information will be very critical.

- Have traffic calming issues
  N. Canyon Dr is a big problem area b/c it bypasses Hwy 97
  Collector on TSP but local street design
- Applications for traffic calming / neighborhood speed issues

- Most people live in Redmond, work in Bend

Action Items:

	Responsibility:	Due Date:
Residential Zoning on west of 97		
Industrial on east of 97		
+ Commercial core		

Distribution: _____

Discussion: Redmond Fire district has some of the same issues

Long term most signals will be ODOT

Maintenance Vehicles –
Redmond has GPS on street sweepers.
Would like the project to log
– Wintertime issues + needs
↳ Staff 24-hour snow plows in the Winter

Redmond has some wintertime issues.

#1 Construction info.

VMS: for construction zones rent today

Barriers to east-west travel:
RR tracks.
Dry canyon
Hwy 97.

Constantly having to reroute.

• County Fairgrounds could use some support.
Today, use officers to control intersections

Action Items:	Responsibility:	Due Date:
Could we combine the Airport + County?		
– Construction closure		
– Weather issues		
– Construction Info @ the Airport.

Discussion:

COIC - Regional Govt
Work force Devel
Economic Devel
Telecomm Develop.

No Internet services. So jurisdictions got together to facilitate development.
COIC staffs & funds these activities

- Built a redundant path across the Cascades
Qwest did all the deployment & COIC directed this
Deployments completed a couple of years ago.

- Working in smaller communities outside of Bend/Redmond core

Quantum Communications - nonprofit telecommunications
Qwest — local partner for NOANet.
Bend Cable

Frank Miller - High Desert ESD (from Oregon Trail Network)
↳ involved in police services

Contact Name(s)/Affiliation: Laverne Esyltyn - 911

Subject: Bend ITS Phone no: ____

Discussion:

- Road conditions/cameras at dispatch center would be useful
  - congestion on cameras would be useful
- Road detour/construction info would be useful
- working towards having mapping in 911 center
  - hiring GIS specialist
    - maintain files
    - provide real-time mapping to 911
- Incorporate mapping into CAD system
- ~~Are~~ If ODOT dispatch has setup → good to link to 911
- They forward road conditions call to State + County
- EOC is across the hall to 911
  → share information
- Moving to proximity dispatch → AVL data
  - 1 yr out to having mapping in place
- Have Hi-Tech CAD system → able to do mapping w/in software
  - no plan to change, but never know

Action Items:	Responsibility:	Due Date:
- County on own written system		
- Bend PD on new Tiburon system		
- phone system uses ArcView		
- CAD system uses MapInfo		

Distribution:

Discussion:

Call taker mapping today not dispatched system

X-Y gets fed into a database on the phone system. Phone system maps, this

Will they need a separate mapping. Somehow this info needs to get to the CAD system

Hi Tech maps w/ Map Info
Phone maps w/ ArcInfo

State OEM is funding & assisting w/ the

Primary

911 Center center has access to the Bend Network

Action Items: | Responsibility: | Due Date:

Distribution: ❑ ❑ ❑ ❑ ❑ ❑
Original to Project/Proposal File ❑ Check when done

Discussion:

- Canvas available to dispatchers
- Congestion
- Upto date map of current & planned construction

Working w/ County GIS to map for the dispatchers
Goal: bring mapping to the dispatch consoles

Road closures based on flooding, etc. Have this input into GIS

Automatic mapping of construction/road closures

Calls for road condition information
Assist the operators for the in information

Have this info available at the EOC.

Planning proximity dispatch w/ AVL
Need mapping in place first, then get units equipped w/ GPS
Need sufficient comm to support

HiTech CAD system — Sit tight w/ this CAD for now

Action Items: No plans to change vendors — Responsibility: — Due Date:
Need to share data
Police on County written & maintained
Fire going to Tiberon new product

Distribution: ☐ ☐ ☐ ☐ ☐ ☐
