TO: Potential ODOT Contractors

FROM: Luci Moore, P.E. 
State Maintenance Engineer

SUBJECT: Register On-line with ODOT for Emergency Work Opportunities

Want to help the Oregon Department of Transportation (ODOT) with the next emergency? Let us know by signing up on our new ODOT contractor interest registry. It's on the web at <http://www.oregon.gov/ODOT/HWY/OOM/ERP/csi.shtml>

When storms, landslides, earthquakes, or other disasters strike, ODOT may use emergency procedures to immediately select a contractor to help us get things moving again. To help ODOT prepare for the next disaster and to give all contractors the chance to tell us what you've got and what you can do, we invite you to register your interest on our new web site.

When you go to this site and tell us you're interested, our Purchasing Department will verify your company and then give you a password. With the password, you'll be able to enter your company's name and information into an ODOT registry of contractors who are interested in possibly receiving contracts for emergency repairs or equipment rental in the event of a disaster. You can also tell us what geographic areas you're able to cover. And, you can update your information whenever you want.

Once you're registered, you'll be on a list of contractors interested in possibly receiving contracts for emergency repairs or equipment rental in the event of a disaster. Any data you enter will be held in confidence and will not be shared with other firms without your consent. We can't promise that if you register with us you'll be awarded a contract. And, ODOT is not bound to select contractors from the registry. But, it is a tool to give ODOT a list of contractors potentially available for emergency work if needed.

All contractors of all sizes are invited to tell us what you can do.
