

The Oregon Department of Transportation (ODOT) is beginning a project to construct a portion of the I-205 Shared-Use Path to provide bicyclists and pedestrians with an alternative route under SE Division Street, in addition to the existing signalized crossing.

The new alternative route will split from the existing Shared-Use Path approximately 360 feet north of Division Street, cross under Division next to the MAX Green Line, and reconnect with the Shared Use Path at the north end of the Division Street MAX stop. The new route will offer path users a non-stop connection through Division, without the need to wait for the signal at the Division Street crosswalk. ODOT will present the project design and key features at this upcoming open house event:

I-205 Shared-Use Path Division Undercrossing Open House

Tuesday, October 9, 2012, 5:30pm to 7:30pm

East Portland Community Center, Multi-Purpose Room 2

740 SE 106th Avenue, Portland
