

## TRAFFIC ADVISORY

### **Bike/ped path reopened on Interstate Bridges**

***Northbound I-5 (east side) sidewalk was closed for repairs to safety gate***

The Oregon Department of Transportation has reopened the east bike/pedestrian sidewalk on the Interstate Bridges connecting Oregon and Washington. The northbound I-5/Interstate Bridge (east side) bike/ped path was closed June 26 so repairs to a chain link safety gate could be made. The gate normally closes sidewalk access within the lift span section of the bridge when the bridge lifts for river traffic.

Please note that some single-day closures of the bike/ped path may be necessary to make upgrades in the future.
