

TRAFFIC ADVISORY

REMINDER: Upcoming ramp closure – I-84 west to I-205

Maintenance work on Friday night, July 25, requires lane, ramp closures with detour

REMINDER: The Oregon Department of Transportation will close the ramp connecting westbound Interstate 84 to both northbound and southbound Interstate 205, 9:30 p.m. on Friday night, July 25, to 5 a.m. on Saturday morning, July 26.

During work hours I-84 west will remain open to all traffic. However, the left two lanes of westbound I-84 will be closed from 148th Avenue to the I-205 split. The lane and ramp closures will allow several crews to safely complete concrete roadway and electrical repairs, and overhead sign replacement.

Detour

During work hours, I-84 west traffic headed for I-205 north or south (including airport traffic) will be detoured off I-84 at 181st Avenue. Traffic will then be directed to Sandy Boulevard to I-205.

**Please note that if this work is not completed on Friday night, crews will return with the same closure in effect on Friday night, August 1. ODOT will send an updated traffic advisory next week if the additional closure is required.
