

Traffic Advisory

HIGHWAY 35 REOPENS

The pilot car and flagging activities on Highway 35 have been discontinued and all lanes are now open. However, motorists are prohibited from stopping or parking along the shoulders of Highway 35 between White River, milepost 62, and Cooper Spur Road, milepost 74. This restriction will remain in place as long as Forest Service crews continue to battle the fires.

Motorists are urged to use caution while traveling along the highway.
