NEWS RELEASE

Region 1 *Columbia, Washington, Multnomah, Clackamas
and Hood River Counties*

ODOT Press Release, 6/10/2005: Update: Powell Blvd. paving delayed

A key subcontractor on the Powell Blvd. paving project has at least temporarily withdrawn from participation on the project.

As a result, **paving work on the project will be delayed at least two weeks and may not resume until after July 4**, depending on locating replacement subcontractors. The construction season is already in progress and most subcontractors are already committed to other work.

- Traffic on Powell Boulevard will not be hindered by this delay
- Traffic control devices will be maintained
- Other work may occur prior to paving
- ODOT will release a revised paving schedule as soon as it is available
