

ACEC and ODOT Region 2
Brown Bag Lunch Session
*Deep Bridge Foundations:
Know the Risks!*

ACEC Oregon

When deep foundations are required, the decision between piles and shafts can affect every discipline on the project, as well as the schedule.

- *What are the pros and cons of each?*
- *What are the risks associated with each?*
- *What are the current ODOT practices?*
- *How is your discipline involved?*

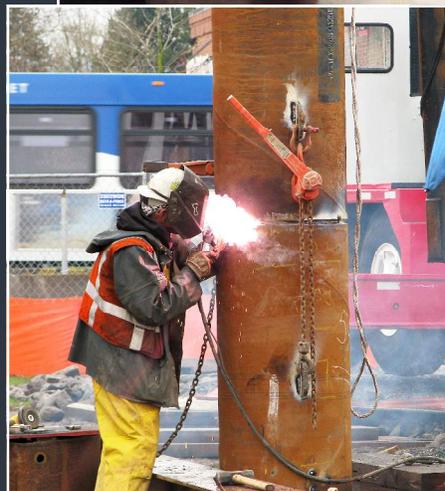

This presentation will help your team make a more informed decision on your next bridge project.

February 28, 2017
12:00-1:30 PM
