<https://ilearn.oregon.gov/>
(Search "ACEC")**

Presented by:

Doug Norval, P.E.

**Transportation Analysis Engineer
Oregon Dept. of Transportation
Transportation Planning Analysis Unit**

Deena Platman

**Senior Project Manager
DKS Associates**

The topic of the presentation is Transportation System Management & Operations (TSMO) and is an overview of the upcoming Chapter 18 of ODOT's Analysis Procedures Manual (APM). Overall benefits attributed to TSMO strategies typically include:

- Reduced travel delay***
- Reduced travel times***
- Improved travel time reliability***
- Reduced number of crashes***
- Reduced instance of secondary crashes***
- Reduced fuel consumption***
- Improved air quality***
- Improved agency operational efficiency***

May be eligible for 1 PDH credit!
