

## **Construction, Pavements & Materials Priorities**

ETG Members:

David Trejo, Dean Chess, Anthony Bosen, Larry Ilg, Joe Squire, Shane Ottosen, Justin Moderie, Greg Stellmach, Cole Mullis & Norris Shippen

- Identify design, materials, construction, and maintenance practices that optimize performance.
- Develop construction processes that allow construction phase completion to minimize service disruptions.
- Identify materials and construction practices that optimize application while minimizing environmental and safety risks.
- Evaluate effective project delivery and quality assurance methods
