

# Oregon 138E Corridor Solutions (Roseburg)

The Oregon 138E corridor is one of the main routes in and out of Roseburg, and it experiences frequent congestion in the downtown area. Freight movement is impacted by tight turning radii. A high number of crashes occur along the corridor. Existing gaps in bicycle and pedestrian facilities make alternate modes of travel difficult and unsafe.

## What is ODOT’s plan?

In addition to helping freight and vehicle traffic move efficiently from Interstate 5 through the downtown area, this project will improve safety within the project limits, add capacity to encourage growth, and improve bike/ped facilities by adding features for alternate modes of travel. The main project elements include:

- Realigning two blocks of Pine Street and consolidating the north end of the downtown couplet, where Pine and Stephens meet Washington, into a single intersection;
- Realigning Spruce Street at the Oak Avenue intersection;
- Improving the turning radius at the Pine and Stephens intersections with Washington and Oak;
- Constructing new or additional left turn lanes at several locations;
- Upgrading traffic signals and adding directional signs throughout the project limits;
- Improving the bike/ped network, adding streetlights, repairing or replacing sidewalks;
- Installing a multiuse path across the Oak Avenue Bridge and making other bridge improvements;
- Repairing drainage, fixing potholes and repaving the entire corridor.

Construction began in August 2015 and will continue until summer 2017.

## How will drivers be affected?

Motorists should expect frequent lane closures and delays through the work zone. Construction may require some street closures. Pedestrians can expect sidewalk closures.

## Project Fast Facts

<b>Location</b>	Downtown Roseburg
<b>Overall budget</b>	\$10.5 million (estimate)
<b>Construction timeline</b>	2015 - 2017
<b>Contractor</b>	Carter & Company, Inc.
<b>General Goals</b>	<ul style="list-style-type: none"> <li>▪ Improve movement of freight and traffic</li> <li>▪ Increase safety in downtown Roseburg</li> <li>▪ Provide additional facilities for bicyclists and pedestrians</li> </ul>
