

SECTION II

TRAFFIC TRENDS AT PERMANENT
RECORDER CONTROL STATION LOCATIONS

Section II contains traffic data at 115 Permanent Station Locations.

Historical Data by years consist of the ADT and by percent of the ADT - the Maximum Day, Maximum Hour and 10th, 20th, 30th and 50th Highest Hours.

For Historical Data prior to 1977 at stations activated before then, see Official Publication No. 86-1 or earlier reports.

The current year's data consist of both the Average Weekday Traffic and Average Daily Traffic by months. Also a classification breakdown is shown by percent of ADT. Classification counts were obtained for 16 or 24 hours in the fall of 1985.
