

Sharing Ideas to Reduce Fatalities and Serious Injuries

Meetings Scheduled in January 2016

The purpose of this meeting is to share information about transportation safety issues, including safety data for the state and ODOT Regions, and to hear local ideas about how to reduce fatalities and serious injuries statewide.

- What safety actions have been effective in your part of the state?
- What should we do next? Over the next five years?
- Is there anything missing that should be included in the policies and strategies?

SIGN-IN

5 Minutes	WELCOME, INTRODUCTIONS & PLAN PURPOSE	Nancy Murphy, ODOT
