\* *S.S.* = Statistical Significance: *s+* indicates that the county estimate is greater than the statewide rate; *s-*, less than the statewide rate; a blank, not different from the statewide rate.

\*\* % based on less than 50 respondents total or less than 12 in any one of the three age groups may not accurately reflect behavior of the entire county.

NOTE: Age-adjustment is based on three age groups: 18-34; 35-54; and 55+, per the U.S. Standard Million Population.
