- Data not available.

\*\* Incomplete total; ratio not calculated.

Rates per: 1,000 population for deaths; 100,000 live births for maternal deaths; 1,000 live births for infant and neonatal deaths;  
1,000 live birth for fetal deaths.

NOTE: Infant deaths occur in the first year of life. Neonatal deaths occur within the first 27 days of life. Fetal deaths include fetuses whose birthweight was 350 grams or more or, if birthweight was unknown, gestational age was 20 weeks or more.

NOTE: Prior to 2006, the number of maternal deaths only included deaths that occurred during pregnancy or within 42 days of delivery. Since 2006, the number of maternal deaths includes deaths that occurred during pregnancy or within one year of delivery.
