

Data Sharing

December 9th, 2009
Salishan Lodge

-
- Introduction
 - Why, What, When, Who, Where
 - Revisit Data Sharing Agreement
 - Three layers funded by OEM vs. Additional Layers
 - Stitching county to county

Introduction

- Why are we here?
- What are we talking about?
- When? – Now and continuing to move forward
- Who? – All of us are needed for data sharing
- Where? – Public Safety Community and 9-1-1, State of Oregon (DAS/GEO, ODOT, OEM)

Data Sharing Agreement

- Part I: 9-1-1 Community/Public Safety
- Part II: Other State Agencies/Public Domain
- Hand shake vs. documentation

OEM funded layers vs. Additional Layers

- City Boundaries
- Centerline with address attribution
- ESN Boundaries
 - Police
 - Fire
 - EMS

»Additional County Layers
(value added)

Stitching

- Now your world is your individual county
- 9-1-1 calls do not have borders
- Expand your world to neighboring counties
- Include Washington, California, Idaho, Nevada

Up next

- Chad Brady - ODOT
- Dave Snader - DAS/GEO
