During the previous meeting, Employment wage sources, TEGL 17-05, indicates in addition to UI wage records, federal wage records, military wage records, that administrative wage records may be used as an acceptable source of wage records. Question for follow-up, does 17-05 indicate the use of administrative wage records apply to all three common measures? *Page 24 of TEGL 17-05 indicates that supplemental data sources may be used to entered employment, retention, and average earnings measures.*

The work group continued reviewing the data elements beginning with Customer file.

Both the grades and cross walked grades are all in the same table. The alphanumeric grades are assigned a numerical grade equivalent.

S1	11	Still in high school
C2	12	Certificate of advanced mastery
