2023-25 SUBSTANCE USE DISORDER STATE SPENDING FINANCIAL ANALYSIS

Presented by Director Dolph

Director Dolph delivered a presentation on Oregon's 2023–25 Substance Use Disorder State Spending Financial Analysis, which reviews how state agencies used approximately \$1.5 billion to support the SUD continuum of care.

[Click here to view the ADPC 2023-2025 SUD State Spending Financial Analysis.](#)

Discussion focused on the significant share of SUD funding supported through Medicaid, including the General Fund used as the state Medicaid match. Commissioners discussed potential changes to Medicaid and provider tax requirements under H.R. 1 and the importance of understanding how these changes could affect SUD funding. It

was noted that changes to provider tax funding would not directly translate to an equivalent reduction in SUD funding because other federal and state requirements would also affect the system.

Commissioners requested additional information on where treatment funding is being spent, including treatment provided through primary care, and how funding outcomes can be measured. The Commission also discussed strategically braiding funding, avoiding duplication among federal grants, increasing transparency around cannabis revenue, and prioritizing funding for services not covered by Medicaid.

Additional areas for analysis included recovery and peer services, youth-specific funding, BHRN funding, federal funding risks, and culturally specific services. Commissioners commented on the need to better understand current state funding processes and develop a coordinated strategy for future SUD investments.

COMMITTEE UPDATES

Presented by Committee Leads

Due to time spent on the spending analysis, detailed committee updates were not given. Commissioners indicated interest in:

- Follow-up analysis for treatment spending detail.
 - Understanding current decision processes for allocating funds across agencies.
 - Further exploration of outcomes measurement and data availability.
- Committees may take deeper dives into recovery services, federal grant allocation, youth SUD funding, and Medicaid claims detail.

PUBLIC COMMENT AND CLOSING

Presented by Chair Jones

No public comment submitted.
