Center of Excellence Progress Review and Upcoming Decision Making

Presented by Wes Rivers

Wes Rivers provided an update on the proposed Oregon Center of Prevention Excellence, including its target audiences and core functions. Discussion focused on aligning the Center's scope with HB 3321 findings, defining workforce competencies and training pathways, and ensuring resources reach communities. The committee will further refine the Center's scope and governance at the October meeting.

HB 3321 Analysis Final Reflections

Presented by Chair Jones and Co-Chair Pimentel

- **Grassroots reach:** A need for immediate, practical support for counties, tribes, and frontline workers while longer-term infrastructure is developed.
- **Workforce pipeline:** Desire for clearly defined, cross-professional prevention competencies rather than focusing solely on Certified Prevention Specialists.
- **Structural gaps:** Recognition that challenges in contracting, procurement, and data reporting extend across the entire continuum, and addressing them would benefit all sectors.
- **Legislative opportunity:** Strong interest in translating parts of the analysis into statutory or funding proposals for 2027.

Public Comment and Closing

Presented by Chair Jones and Co-Chair Pimentel

Cati Adkins, Douglas County, expressed appreciation for the discussion and noted the importance of balancing hope and concern when considering the potential of the proposed Center. She appreciated the committee modeling this approach and acknowledging both the opportunities and uncertainties involved.
