

Runway 17-35 Rehabilitation and Lighting Improvements

Leverages over \$3.1 million in federal funding...

Preserves Airport Infrastructure

- Rehabilitates main runway pavement surface
- Replaces failed runway edge lighting
- Cleans and seals connecting taxiway surfaces

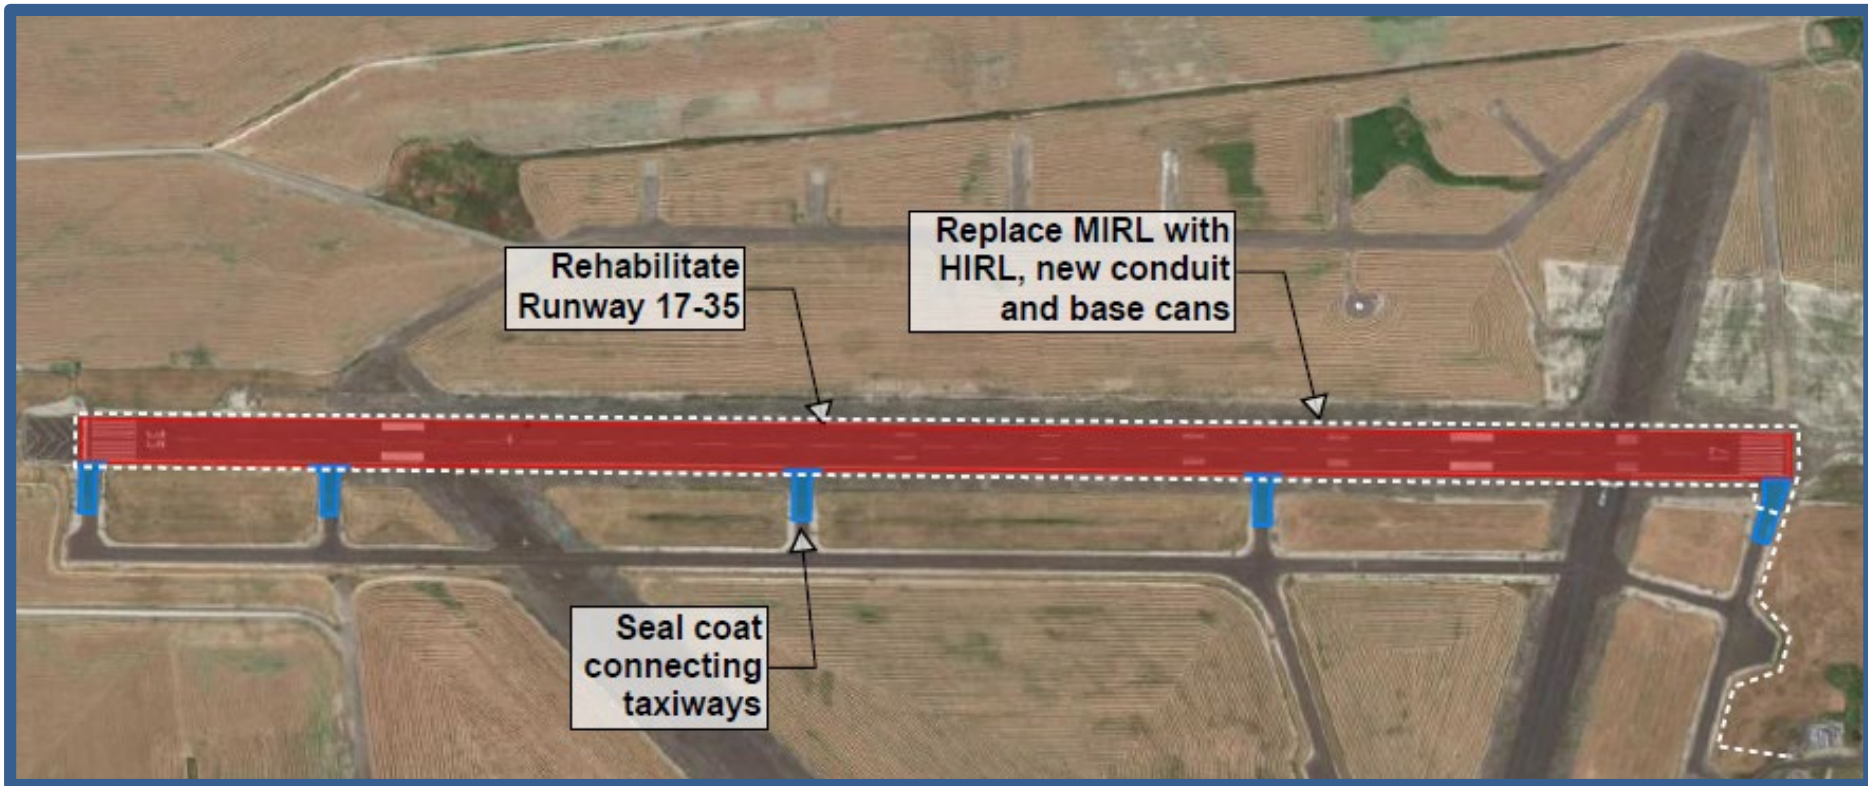

Improves Safety for Airport Users

- Failed runway edge lighting system means low light situations are hazardous to pilots
- New pavement markings will enhance safety

Project Total	\$4,000,000
Connect OR Grant Request	\$375,308
Applicant match (FAA Grant)	\$3,624,692

Economically Benefits the Mid-Valley

- Daily air freight that connects to ground transportation
- Supports two CVO-based flight training schools with 10 employees
- Supports local business and OSU corporate and charter jet activity
- Businesses operating from CVO employ 20 people in aviation services, \$1 million/year

Project Elements

**New pavement
wearing surface and
runway markings**

**Replace
failed edge
lighting**
