SOAR Cycle 3 Amendment

- Pacific City Access Road and Apron Rehabilitation
- Scope Amendment SOAR-2020-ODA-00006
 - \$430,000 previously approved in Cycle 3 for Property Purchase, Ramp Paving, and Drainage Improvements
 - Property Purchase completed in 2020 (\$176,609.69), \$253,390.31 remaining
 - Adding Access Road construction to provide public access to the airport
- Estimated \$300,000 for Access Road and Apron Rehab
 - \$204,000 in Connect OR applied for in Oct. 2021 (\$96,000 match)
- Construction anticipated summer of 2023

State Owned Airports Reserve (SOAR) Program SOAR Cycle 4: 2022-2023

Project name: Pacific City Access Road and Apron Rehabilitation

Airport: Pacific City State Airport

Project Description:

This project will provide matching funds for a new access road and apron rehabilitation at the Pacific City State Airport. The airport does not have any improved access for the public or emergency services, which must cross over private property to access the airfield. The \$96,000 requested will provide 32% match if the project is awarded Connect Oregon funds for a total project cost of \$300,000.

| Total Project Cost 96 | 5,000 |
|-----------------------|-------|
|-----------------------|-------|

Reduce Transportation Costs or Improved Access to Jobs: Does the proposed transportation project reduce transportation costs for Oregon businesses or improve access to jobs and sources of labor?

This project will provide direct access for users of the airport directly to the businesses and amenities in and around Pacific City. This will enhance tourism and emergency service use of the airport.

Economic Benefit: Does the proposed transportation project result in an economic benefit to the state?

Improving direct access to the airport, and maintaining the apron for aircraft parking will indirectly provide an economic benefit to the airport's local community and the state.

Critical Link: Is the proposed transportation project a critical link connecting elements of Oregon's transportation system that will measurably improve utilization and efficiency of the

The airport is a critical link for the local community, it is the only paved runway within 16 miles, or a 30 minute driving distance from Pacific City, and is frequently used for medivac operations by LifeFlight and the Coast Guard.

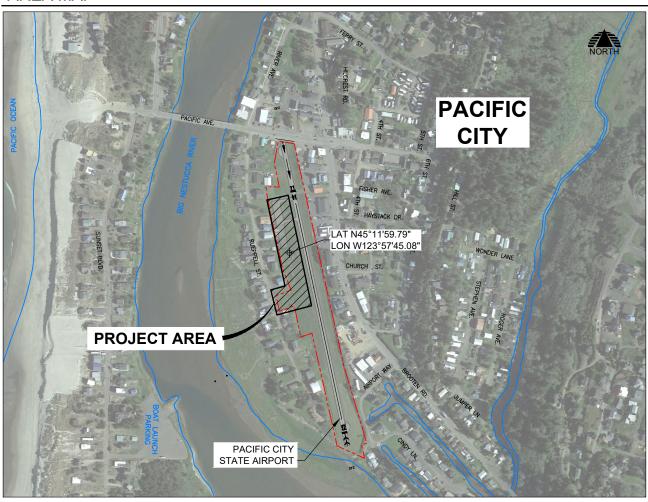

Project Funding: How much of the cost of the proposed transportation project can be borne by the applicant for the grant from any source other than the Connect Oregon Fund?

ODA will cover the administrative cost of this project.

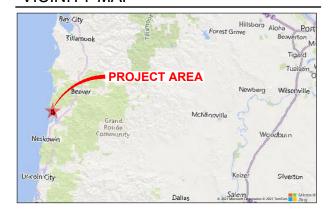

| Project Readiness: Is the proposed transportation project ready for construction or ready for implementation? |
|---|
| Yes, this project is ready for design, and will be ready for construction by the spring of 2023. |
| Life Expectancy: Does the proposed transportation project have a useful life expectancy that offers maximum benfit to the State? |
| Pavement has a life expectancy of 20+ years. |
| |

SOAR Cycle 3 Amendment

- Toledo Apron Reconstruction
- Cost Amendment SOAR-2020-ODA-00007
 - \$80,000 previously approved in Cycle 3 for Apron Construction
 - Design completed in 2022 (\$27,005.75 to date), \$52,994.25 remaining
 - Amending request to fully fund \$307,091.00 construction
- Design is Complete
- Construction anticipated summer of 2022

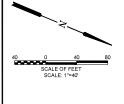

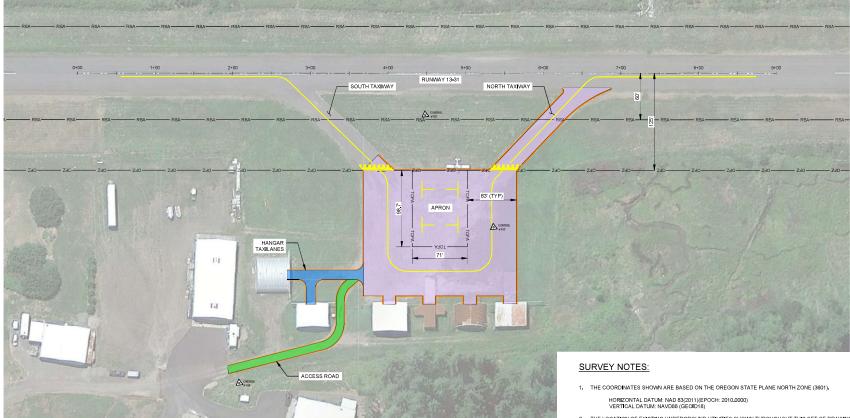

State Owned Airports Reserve (SOAR) Program SOAR Cycle 4: 2022-2023

| Project name: | Toledo Apron Reconstruction | | | | | | |
|---|--|--|--|--|--|--|--|
| Airport: | Toledo State Airport | | | | | | |
| Project Description | <u>: </u> | | | | | | |
| Toledo State Airport is roughly 6 straight line miles east of Newport Airport. It is used frequently by general aviation pilots who are unable to get into Newport due to low visibility. The ramp at Toledo is estimated to be at least 30 years old and has completely failed. Any aircraft that use this airport run the risk of dislodging small pieces of asphalt and potentially damaging an aircraft. This project will reconstruct the apron at the Toledo State airport, and provide a paved access road and hangar connections. | | | | | | | |
| Total Project Cost | \$307,091 | | | | | | |

SOAR Prioritization

Priorities

- Safe and Operational Runways
 - Cape Blanco Runway and Electrical Rehab \$1,222,779.20
 - Prospect Runway Reconstruction (Cycle 2 Carry Forward)
 - \$796,800 SOAR Match (\$1,693,200 requested in Connect OR)
- Connect OR Match
 - Mulino Water / Fire Suppression (Cycle 2 Carry Forward)
 - \$340,063.49 SOAR Match (\$722,634.91 requested in Connect OR)
 - Pacific City Access Road and Apron Rehab (Cycle 3 Carry Forward/Amended)
 - **\$96,000 SOAR Match** (\$204,000 requested in Connect OR)
- Toledo Apron Reconstruction (Cycle 3 Carry Forward/Amended) \$307,091.00

SOAR Overview - Prioritization

Carry Forward Projects

- Cycle 2 Carried Forward: \$2,422,514.90
- Cycle 3 Carried Forward: \$743,390.31
- Total Carried Forward: \$3,165,905.21

• Cash Balance

- Year to Date Cash Balance: \$2,109,654.91
- Projected Revenue through Dec. 2023: \$1,555,669.00
- Projected Balance and Revenue through Dec. 2023: \$3,665,323.91

Priority Projects - \$2,762,733.69*

- Cape Blanco \$1,222,779.20
- Prospect \$796,800*
- Mulino \$340,063.49*
- Pacific City \$96,000*
- Toledo \$307,091

*amount contingent on projects receiving Connect OR funds

- Carry Forward (Cycles 2 and 3) -\$647,390.31*
 - Pacific City Drainage Improvements (\$157,390.31*)
 - Cape Blanco ALP & Planning Update, Obstruction Removal (\$105,000)
 - Cascade Locks Obstruction Removal, ALP Update, Pilot Lounge (\$285,000)
 - Capital Equipment Airports (\$100,000)

SOAR Overview - Prioritization

- Cash Balance
 - Projected Balance and Revenue through Dec. 2023: \$3,665,323.91
- Priority Projects \$2,762,733.69*
 - Cape Blanco \$1,222,779.20
 - Prospect \$796,800*
 - Mulino \$340,063.49*
 - Pacific City \$96,000*
 - Toledo \$307,091

*amount contingent on projects receiving Connect OR funds

 If projects do not receive Connect OR funds, they will remain a priority and be carried forward until funds are available

SOAR Overview - Prioritization

- Aviation Review Committee (ARC)
 - Review of new Cycle 4 project and Cycle 3 project amendments 3/31/2022

Approval of SOAR Projects Cycle 4: 2022-2023

Approval of SOAR Projects

ODAV requests Aviation Board approval for the new Cycle 4 project, and Cycle 3 project amendments as presented.
