Chris Cummings
Oregon Department of Aviation
3040 25th Street SE
Salem, OR 97302-1125

Dear Chris:

The City of Baker City recently applied for Rural Airport grants under the *Connect Oregon III Program (CO III)*. We also applied for a grant under the *CO III* multi-modal umbrella for the same project.

It is our understanding that the State Aviation Board is meeting to decide who will receive the Rural Airport grants. After being studied by the Final Review Committee, the City is currently in line to receive our grant through the *CO III* multi-modal process, though the final decision will not be made until August of this year. Should we receive the grant through the multi-modal process, we will withdraw both requests from the Rural Airport program. However, we would still like to be considered under the Rural Airport program in case our multi-modal application is denied by the Oregon Transportation Commission.

Should you have any further questions, please don't hesitate to contact me. As always, your help and assistance is greatly appreciated.

Thank you!

Yours truly
