Airport Facts

CTAF/UNICOM -122.8

ASOS - 135.175

Runway 7/25 : 3,040 x 75 Ft.

Elevation : 638 Ft.

Just how busy are we?

The Airport ADS-B reports 6,295 flight operations with an additional 800ish Glider flights year to date, The airport has 3 T-Hangar spaces (one 10 unit to be built this winter) as well as 3 airport owned box hangars and 3 privately owned box hangars that provide storage for approximately 60 aircrafts. We currently have about 25 on a hangar waiting list.

The airport strives to provide the essential services needed in the Hood River valley as a base for emergency response in fire fighting and emergency services as well as urgent medical care.

Eagle Creek Fire
tested our limits with
+/- 10 firefighting
aircraft and support
teams on site with
limited
accommodations.
