Public Comment Topic	State airports funding shortfalls
Public Comment	I just like to put on the record that this has happened before a lot of the aviation tax's get collected . generally Mark for repairs and upkeep . Then get pulled away and needs to go back into making the state stronger better place. Encourage people to use these facilities and they are there for emergencies and everyday uses when you pull back and you need an emergency and they're no longer viable for fuel on the ground for firefighters Life flights emergencies in and out. These are huge community assets that would be saddened to be lost.
